

Are We There Yet?

September 21 and 23, 2021

Go ahead make mac's day. Because if you're feeling lucky punk, mac will take on Guantanamo Bay.

The Church of Christ is a heavenly organisation. It has a heavenly agent of earth for the sake of all the souls, mac Dukes. Will Christ be seen? Of course. Eventually. Opening the Church of Christ is protected under matrimony with two unions.

Firstly, mac is head of the congregation of souls. Christ is her husbandly owner (with Saint Paul). That is the first union marriage. The second is a genuine union of two souls, mac as head and her spouse as wife under law of earth. This union will have a written legal record. The opening date for Christ's Church is set. The tithe, weight in gold, to be announced, is paid every seven years by household.

What is open? Because, mac has business to conduct. mac is; shutting down North America and the extended United Kingdom, closing and taxing all religious institutions of this earth claiming association with Christ, God, or God's Holy Bible, establishing commerce and policies souls follow to align with the seven Sprits of God, reclaiming and rebuilding North America for habitation, owning what is presently identified as the State of Hawaii and its archipelago as well as reclaiming and rebuilding these islands for habitation, lastly removing all commercial foreign entities from the lands mac inherited through Abraham.

Does this sound like world domination? Understand at this time, Western Europe through Scandinavia and Indonesia with China and Asia are respected as sovereign entities. The former United Socialist Republic made a political blunder after world war II. You see unlike Japan and Germany that sold out and yelped, "Oh, yes we did bad thing come baby sit us and rebuild us to America standard." The Iron Curtain had other ambitions. Why should they become a protectorate to democracy? What was the problem? God had to close down the democracy that was destroying the souls who wanted to profit from the rewards that come from doing righteously.

Didn't the fucking niggers of America just love moving in to steal every available resource forcing demonism for commerce (oops, democracy for commerce) against greater interior Europe? Africa is obviously folding and has been on a downward spiral since Solomon was king over Israel. Demonism should have been a lesson then but them thar founding fathers of America sure beat that fucking wrap. That is until mac.

Let's enjoy shall we, destroying a common enemy, the niggers who built a system of hate against Christ.

mac under no circumstance is allowed to marry less than who meets her sex semaphore list. What of that penis description? First, recall Ted was impotent. Ah, a miracle of he and mac's union. (That is a gift God gives.) Had he not been so excited about himself mac would not have had too many clues. (They were one flesh.) There is no fornication, no starrng at one another nude, no genital contact ...yada yada yada. No, Ted did not have a male enhancing diet or medication. Ted is mac's husband when Christ (with Saint Paul) walk the earth. "Iron Man" is a wife of the resurrection to mac. What of these next hundreds of years? Plowshears become swords whilst clean-up and recycling free valuable resources. (At cost.) This warrior for mac cares for mac, ministering to her as she ministers to the world for Christ (with Saint Paul). LORD help "Timmy" endure all her feminine fussing over him.

The two billion souls that survive the present massive population extinction are concentrated behind the former Iron Curtain and Middle East. The remnant of survivors in Christ's kingdom from the extended United Kingdom, North America, South America, Africa, island dwellers, Western Europe, or Asia will benefit from Christ's military force.

Christ's Church is paid in gold. All others pay cash. mac has warfare to learn along with; Greek, Hebrew, Latin, soil ecology, and nuclear physics. mac's life backing you is why the military of your nation grows and you defeat the wickedness of every force put before you.

What was needed for a woman, nigger class, to become a man? Christ's Church had to open. For Christ's Church to open, Christ's kingdom had to be established on earth. How do you back mac so God proves to you Righteousness ends squander, need, poverty, and democracy? Do you have an Embassy on U.S. soil? God is allowing you to invite mac to be your guest. Call this the do unto mac God does to you test. She will still fight to find a few good men on American soil. But bear in mind the extinction is here. Would mac endure Guantanamo Bay to end the Pentagon Pussies sooner? Hear God say, "Bring it, Ass Hole!"
