

Earthquake Your Money Maker

February 16, 2021

Peace was refused. God's warfare is demanded.

The demonstration of proof to Abraham's seed that their God was among them during their deliverance from Egypt was a pillar of smoke by day and fire by night. How is that accomplished in an oil rich land? Set a well of oil, like a massive Olympic torch, on fire and keep its reservoir filled. The wealth that God delivers Abraham's seed with is salvation for humanity. The smoke and fire is theirs to prove God is with them until they have God's ark among them.

Sons of Abraham, set those wells ablaze. It is time for you to see that your God is among you until His ark is home in Jerusalem. When she is seated in Jerusalem the oil may be harvested for national wealth. Now, you are spending it under God's hand for proof that He is with you.

mac came in peace. Biden, Obama, Trump, and Clinton demanded of God it would be over their dead bodies that mac would leave the United States. Niggers, this is your day to prove your conviction. As the Christ said of Jerusalem, not a stone will be left upon a stone. God is allowing you to experience the full cost of shutting down the nation over COVID against His command. Because of murdering Ted and Buttercup it is not necessary for your oath's to be fulfilled and for you to die for mac leave the United States.

You however are not receiving any benefit of God's protection. The sickness of denial across North America and the extended United Kingdom that is supporting the civil rest you are enjoying at God's hand He interrupting. On mac's relocation to Jerusalem, as directed, the civil rest that you were enjoying until this writing will return.

The chaos in North America and extended United Kingdom will encompass every city and port. Bodies will not be buried and children will turn against their parents for food. At any time the United States Navy is welcome to end this siege moving mac as commanded, peaceably and

with dignity. Israel is paying mac's moving expenses. God's ark will no more enslave herself to women for survival than she would enslave her kingdom. Dying for God is the first mark of being His slave. mac has twelve weeks on her physical constitution to survive starvation until her body breaks down and she is again less than a size zero.

No one may extinguish the mercy seat, oil well, fires on mac's death. The oil will be exhausted in its entirety or extinguished only under God's seating mac in Jerusalem. These are consequences likened to those the seamen who transported Jonah experienced. Their ignorance did not spare them. Obedience to throwing Jonah overboard did. Fear for your lives will have you calling out to your gods for survival. No, you may not execute her. God's hand will not be light against these nations with, climactic and seismic events evidence this.

Nueces is the worst hit with greatest proof of how righteousness resolves problems. They will not have one opportunity to profiteer from the confusion and mayhem. In the confusion a commercial vessel with military crew will be able to move into port with ease and move mac and Westly. Cooperation of the United States Navy is not required.

February 15, 2021 20:00 Westly assaulted his owner at Peor's command and she forgave him after a few hours of instruction.
