

# Eight Mouths, One Ship

## *One Plus Seven Equal Eight in the Ark*

**N**oah is the soul, the spirit consciousness of Noah is the patriarch, prodigal, Lord of Hosts, over the seven Sprits that also survived the flood. Puddin' head Putin went after authority over the seven Sprits of God saved by Noah's faithfulness to the LORD. Putin needed the prodigal first.

Putin you have until Saturday, January 22, 2022, 19:59 Norfolk, to place mac into the gracious care of the Kremlin or you Putin loose your kingdom Sunday, January 23, 2022, Norfolk. The destruction of America continues. mac is angry and making God Almighty, even the fleshly One, means destroying the populations that hate her. This is why all the virgins born before January 1, 1981, are being destroyed and mac is not required to do one damn thing to petition for or save any of that wicked population.

This means when Trump dies that is the end of that fucker other-than the Borg torment memorial burning outside heavenly Jerusalem as a reminder of every perversion he, Biden, Obama, Clinton, and, Bush, yada yada yada, about five hundred million, [Meaning Mefucka and the homeless dude shack up together in the Borg.] jumbled together eternally reminding all creation what evil produces. When mac fights for kingship over North America the wicked generation will be dead. This is why God Almighty was not pushing you to make mac king, now. She could have saved you, Trump. God Almighty of Heaven wants you dead.

Yes, Putin, your successors are queueing to free mac and imprison Mary McRae and Terry smart. You, Putin, can easily be assassinated. mac has authority over the seven Sprits of God Almighty. Piercing the Lord of Hosts is the event that connects mac with all the gods of the earth. Her drowning in the hatred of the virgins is temporary. We at Team God are in a hurry to

wipe out the aforementioned wicked generation of virgins (along with all other wicked). Team God is doing all things with haste to unite mac and pony.

Milley, a reminder, to prance around with the Lamb before being destroyed, you must die in active duty while mac holds kingship over North America. How likely are you to survive Milley? mac wants you to know she has you pegged as one of the countless trashy homeless dude veterans fragmented in the Borg.

The Christ, mac, is who provides the access to the Lamb's blood for living as a slave to God Almighty. This means that perhaps Trump's grandchildren would have this privilege. What is the catch? mac will destroy many when she takes kingship over North America. Trump why would mac allow anything of your genetics to survive?
