he consequence of two billion dead. The Catholics do not get to profit from these orphans.

There is nothing a Texan, nay, American hates more than a feminine-female man. This type is rare and the most prized by God, the Almighty, Creator, and Eternal One over male men. God's woman found the need to claim loving those that went after abusing her with grins on their faces for her survival. The MASH episode of Hawkeye with allergies is a suitable summary. On this Super-bowl Sunday mac is looking forward to this being the last one she ever sees. She sealed up her golf bag a year ago. There is no need for mac to be tour guide Barbie, for her survival anymore. That act is for your survival.

North America in its entirety is decaying from the ravages of Daniel's four beasts. The people occupying this land stolen from God are irrelevant along with their Protestant parent the extended United Kingdom. Those entities sending moneys to support the monarchy of England individually and as a nation take a stand against God with every cent.

What attempted to distinguish itself as Central America is simply an extension of the greed and perversion of Catholicism. Central America is lower North America.

Everyone infesting God's land He marks as a rapist and woman. These deformed people, many television celebrities, and "leaders", are masculine-female, masculine-male, feminine-female, and feminine-male. What they all have in common is refusal to obey, listen to, seek, or submit themselves to God.

The four remarkable beasts of Daniel represent four kingdoms. The fourth beast's horn with eyes and a mouth that replaces three horns is none other than the military government that moves into Washington D.C. from the Pentagon to stabilise North America. The population of the continent is two hundred million people when this happens. Pentagon, you do not have long to prepare. Ejecting you from all foreign shores is the act of God you are now enjoying. Your global theatre has ended.

Three trillion dollars more National American debt ends the international market value of a dollar. The military take-over at God's hand closes the nation's democracy and presidential polls forever. When the Pentagon takes power and speaks out against the Almighty to take what is His, it is humbled under God's king of Israel.

All North America is reclaimed into God's possession providing materials to the rest of the world. Women that survive Daniel's beasts in North America will be tearing down factories, refineries, ware-houses, office complexes, medical facilities, universities, stadiums, housing developments, and ships. The materials and bare land will have more value than their use for housing and employment. If these women chose leadership from God, they will live. They will not be joined with men.

When God's land is cleaned from its scars of global commerce and gluttony and the last cross has fallen, the soil is burned and reclaimed. Men invited by God the world over to North America will grow food and provide agricultural products for the world along with the sale of reclaimed and recycled materials for decades. The women with their children and domestics are annihilated before men are invited by God to inhabit God's land. All lands are leased from God's king of Israel as an individual.

The existing nation of Israel enjoys this place of relevance with God on the global theatre provided they care for and take direction from God's king, mac Dukes. From exile mac is ordering all payments to Israel in reparations for world war cease. Forgiveness God is demonstrating to all actors sending money to Israel. Israel your king in exile is jailed by Mary McRae living the options to die from poison or starvation at Mary's hand. mac is surviving on powdered milk, cacao powder, instant coffee, and tea. mac relinquished her own estate so the world was forgiven of your corruption, Mammon. Israel is presently dying along with God's king.

God destroys Israel with standing orders to Russia. Russia, on mac's death, move in against Israel and secure the Middle East. All of Israel's chattels and people belong to you. Occupy Israel with God's blessing by removing all places of worship within its boundaries.

Corporate giants, murdering the serfs and slaves of North America and the extended United Kingdom, ended your piracy of resources and use of Mammon. God is preventing you from shifting your wares against Shem and Japheth.

This is the message God hired His prophet mac Dukes to deliver and kingship over Israel with all its legal revenues is her payment. He patiently expended what was precious to Him, her, to gather together new Israel. The new Israel would have been the nation that administered God's law, protecting legal tender eliminating hidden currency, and protecting humanity from the consequences of the four beasts at large against the world from the perversions of the Catholic Church and Protestantism. The military hosting God's ark houses this new Israel.

The validity of this prophecy and mac Dukes authority as God's signatory, God and His Christ are proving through its fulfilment. The only currency that means fulfilment of services rendered to mac Dukes is stated legal tender deposited as directed. All parties failed in their fiduciary obligation to clean the land and/or pay damages.

Serving God in righteousness is the requirement to all His creation for life. Death is what every conscious individual of earth has earned to date. Without mac Dukes expressed written protection witnessed by God and His Christ not one person of earth will survive into Christ's kingdom. At this time not one soul born since Eisenhower took office is remembered by God, save mac. At this writing mac does not have ability to believe that any person wants life. She is embracing her death. Her fantasy is Trump having the decency to mail her a cyanide capsule with instructions or at least a pistol with one shot.

March 6, 2021

The consequences of Satan giving her authority to Trump mac has been living. Trump demanded that God stop shepherding mac from October 7, 2020 for five months. Your five months as Satan's god of this world are over Trump. You were Satan's first ashore locust. God's woman is shepherded by God again.

God abandoning mac left Him no choice but for mac to be subjected to the Lord of Hosts delivering God's words to mac to instruct her actions. Had you not taken God's shepherding mac away from her, Trump, the Christ would not have bestowed on her so much honour. The Christ has been teaching mac since she pierced the Lord of Hosts.

Christ selected mac as his Secretary of Righteous Warfare because she persevered in learning how demons interact with humanity. Even without God's shepherding mac did not act on gesture of premonition. God granted her kingship over Israel through the Christ's heavenly kingdom.

Post Script, the Pony Note

Pony was Christ's Avatar for mac's use. Pony represented all the demons Trump sent after her like Benjaminites in Gib'e-ah. mac did not understand until the afternoon of this amended date what Satan gave to Trump. mac misunderstood Pony as God's Avatar representing Ted's brother, a human, because Ted was the human she communicated with. Ted spent months learning how to l-o-v-e-LINK with mac before they were married. mac never communicated with Ted's demon. Trump did that. All God's linking happens in the mind. mac feels it in her frontal lobe. God's word comes through her entire mind when living His shepherding.
