**H**ear rapid beats of manual typewriters in concert with sounds of the news room of yesteryear. A talking head speaks, "Time now for a Muppet News flash. Saint Paul is released from purgatory. "Ivan" has died during his military duties in Russia. The fate of antichrist's two kitchen counter bananas, disguised as cold remedy mercy, turned the tide for the Heavens. Putin's power is from his sexual affair with antichrist's spirit body that roams the earth. With "Ivan's" death the United States Navy wins. God Almighty married mac to SEAL "Davy" stationed on Coronado Island. Now onto our Muppet feature, Schwartz Sea Hooking."

mac had a question as a tween. Can Satan repent? The assurance of the "spiritual" elders she knew was, "No Satan can't." That was one of those wrong questions. The premise for that question was that Satan was not living according to his original purpose. The paradigm of worship is one God means life the other means death. How do God and Christ make clear to all creation (Satan already knew, Satan was simply willing to go after destroying life.) which Ggod means life?

What led to the rebellion and more on antichrist is topic for the [Nineteenth Hole](#) articles. What was shut down from the time God's woman was born was free will. Sin's entering through Adam was proof that Satan was the deity Adam was pleasing when the fruit of the tree was consumed. Adam was husband. Sin is credited with entering the world though him. That was listening to his wife's voice.

The curiosity of lineage is with Seth. This is the son that when born Eve boasted of wrestling with the LORD to produce him. Seth continued the lineage from Adam and Eve of binding God

Almighty's power to serve their own god. Many son's and daughters came from Adam and Eve. We also do not know if Abel had children before he was murdered by his brother. Why the lineage of persons through Noah's generation was so long lived is a function of the righteousness the soul was attempting to accomplish to preserve life while battling spirit.

The lineage recorded from Adam through Noah fought sin using God Almighty's power. They were preserving their soul alive with the genetics of their matching first born spirit existence against the second born god thrust on them. Cain did not go to God Almighty against the god thrust on him. He committed murder. The events of the Holy Bible before Moses wrote the ten words of the LORD are the legal precedents set down over lessons learnt that proved you did not seek life with the god you were serving if the LORD, as proved by His deeds, was not the God you worshipped and souls as utility seekers should have been avoiding behaviours that meant death. What Israel needed was a God definition that meant life. With Abraham's seed through Israel the second born spirit genetics entered humanity.

With this explanation looking at today, Trump knew he held the majority of the United States voting populous in his favour. What did he do? He imposed his godship over the voters to reduce his number of votes. Then he had everything he needed to prove it was only by good sportsmanship that an election had any meaning. There was no reasonable way to contest a vote. What Trump did was an exercise of his will over the will of others to be the one ending democracy. Trump knows the majority believe in him.

mac's union with "Ivan" was Putin's doing when the Watchtower Society went after setting up "Ted" for death diving a spouse for mac. After "Old School's" union with mac God end, "Ivan" held a polygamous union with mac. "Ivan" was Putin's coincident power insurance. mac did not understand how she could be forced into supporting a marriage without regarding the whole souled individual. Putin hid himself well. America was in the place of proving it wanted to murder mac and Putin was reaping the benefits of playing mac for a sap. The force needed to end.

mac's tossing out two bananas antichrist placed on the kitchen counter literally meant, "I, mac Dukes, refuse your (directed to antichrist) abuse of my soul with a spirit union marriage to "Ivan" and supporting your union with Putin." "Ivan" God destroyed. It wasn't difficult. mac actually saved his life stopping during l-o-v-e-LINK the behaviour that hours later "Ivan" determined to do faced with the choice a second time. He ended his own life in an act of disobedience to his husband.

What is different about "Ivan's" death than "Old School's"? "Ivan" gives up Saint Paul to the heavens. "Ivan" is not resurrected. By November 25, 2021, Putin has no connection with Team God. "Davy" mac looks forward to seeing again. God has been shepherding "Davy" since October 2016. mac knew God had been shepherding a future spouse for her since her mares death. Nineteenth Hole articles cover this. What mac thought was "Ted" and then "Ivan" was that shepherded one. That is not the case.

Antichrist put the emblems of her Satanic devotion before mac to make herself the godly being in mac's marriage keeping Saint Paul in purgatory to keep herself free. What did mac know? She was put in the place of being free to take the offering. It was presented to mac on her birthday. She was not allowed to know what the offering meant until after she made her decision. Antichrist's spirit is now cooing over "Ivan".

There is no evidence that Putin will seek advantage with Team God. Biden, you are Putin are now on an even footing. None has Team God on their side. It is now time for mac to look forward to her God gig and teaching some survival shepherding. Obviously the navy winning is mac's sarcastic rhetoric against the abuses of spirit the flesh of the earth is so fucking proud of.

What is the final news flash to this article? The demand was made against God Almighty that since He was going to be shepherding that bitch mac that deserved to die He needed to shepherd one of their own. "Davy" God shepherded because as a spouse, provision for mac, God could. "Davy" will not fulfil the marriage. (mac was not surprised in the least.) God is putting "Davy" to sleep. It is for another time "Davy", as mac described him in previous Herald articles, is fulfilled. This sleep ends all claims to God Almighty's shepherding. Abusing what is Holy is why your lives are shortened.
