*he miracle of Noah's ark and Satan's gamblers. God blesses America again. Hear God's trumpet of triumph over niggers.*

It is a curiosity of history why the Portuguese sailor in the name of queen Izabella took South America and then did not simply migrate north. The bays, gulfs, lakes, and divides with mountains against the seas comprise a land of strategic advantage that only a mariner with a floating zoo could claim in the name of God. Three hundred fifty years Noah lived after the flood. He knew the name of God. And he claimed North America and Central America in His name. Then he returned to the home of his grandchildren. This return was in the hands of a grandchild who returned Noah's bones as he made his offspring promise him to do.

### "Once I Had A Secret Love"

Those who knew God's title and willingness to follow God's primary doctrine, the ten commandments, He blessed with being allowed to build missions on His soil to benefit others. God is protecting the words hospital, ark, Christ, and Jesus along with other titles. True God He is still protecting. What was the demon the founding fathers claimed God's land with? Jehovah. God did not allow that name in Holy Bible beyond those pathetic placeholders.

When the Jehovah's Witnesses, (who gives a shit if they called themselves International Bible Students, once) profaned the Bible they laboured over titling their profanity, the New World Translation of the Holy Scriptures. Yep, they could not title their perversion Holy Bible or Bible. God also needed the Jehovah's Witnesses to claim His ten Words, letters, i.e. commandments, were invalid. One of their "Anointed" did that and his recording they posted on their on-line broadcast.

But Oh Yes, how they perverted what the new world was to those that occupied the land God gave to Noah's three sons. When Noah's youngest acted in perversion, God had a land to claim for the one that followed Him. Abram, came from the land of Babylon's Chaldeans and when He had learned what He needed to abandon the gods of his ancestors, God made a covenant with him for the offspring he did not then have.

## God's Land was Claimed by Noah

What is the blessing of God to the continent of the Americas? All government managed, owned, leased, and claimed lands and chattels, belong to God along with the Commonwealth of Virginia. These government lands are from Alaska across Canada to Panama. The California landscape God is reforming against the San Andreas fault increasing its coastline adding a mountain range. In the Atlantic Ocean a new land mass God is raising from the Ocean bottom. God blesses America again. (Hear God's trumpet of triumph over niggers.)

## God's Many Protections Until, Jehovah

Spain was in a shit pile of trouble for taking Mexico and the British rose to power stripping that Spain Main of her gold on the high seas. Piracy. Oops, Privateers in the king's service. Then that king wanted that new world for himself. Ah, the founding fathers of America succeeded in revolt and rather than serving God, they went after Jehovah and every (spirit) one that went with her.

Spirit-one, demon, who occupies the cerebral cortex. In case you are wondering, Trump got Jehovah, the god who perverted the founding fathers of the United States of America. Many other demons sought this land. Demons that decided that empowering men to be gods was so much better than being a god to a female and breeding genetic children. Even Satan knew that shit would not last. America is a treasure trove of fossil record.

## Over the Rainbow, the Flood You Needed

You niggers worked your asses off to stop diarrhoea. That intestinal dairy entry was the symptom, flood, God needed to keep cleaning you out. None in Protestantism wanted to overstate that name Jehovah. That was their most powerful god that they claimed their new world and took it from the king of England with and then they went after owning all the other gods.

Four hundred years is up. You chronicled all those landmarks with disease that wiped out populations. Well, the genetic mutation that follows from intercourse with demons, viral killers, you worked so hard against God for has matured. This is God's rule of sixty-nine. Bankers have the rule of 70 or 72 for the doubling time of money with compounding interest. (That 70 is actually 69.3.) Those that accept God's shepherding He saves.

That is why Noah's offspring on God's land who knew damn well to care for it, not cut it up and own it, survived, and gave that white man such a run for his money. You wiped out the food of the faithful. Starving those surviving children of Noah. That is your hallmark Trump.

## The Legacy of the 16th Century in Oxford

Speaking of niggers, dick and fuck are important words to the English language. Read the dictionary. The 16th century has the gems. There are so many reasons why God hates the Webster brand. It was wonderful that Oxford got rid of Lewis. Too bad Cambridge snatched up that bitrubamaton. The Germanic Old English for centuries used fart as the word to describe the boring or contemptible person. Also, wasting time on trivial things, as in fart about. Once God received the moniker Dick, Satan got the moniker fuck to replace the word fart.

## Trump, McRae is the Murderer You Wanted to Pardon

You have absolutely no way to make God an impotent being in the eyes of others anymore. His woman is, fucking pissed. Trump your spirit-one counterpart is merged with Mary McRae, mac's biological mother. What you didn't realize Trump, is that Mary McRae took the last breath of her own biological mother, Lucille, as she stood conditioning her hair at her own kitchen sink with the last little bit of mayonnaise in the jar, at her Long Beach California home for that demon.

God is demanding that Mary McRae and Terry Smart be questioned about Lucille's dying request to Him. She begged once she was being overcome by exhaustion, "God, I leave everything to H\*\*\*\*\*r L\*\*i. Oh, God make sure it is hers."

Mary lying to the Los Angeles County Coroner freed her from murder charges. Mary's accomplice murderer number two, Terry Alan Smart of Eugene Oregon. You were not in office at the right time to save the murderer you have been looking for. mac was God's dog in the fight and is guilty of taking cheese and vitamin-C from Costco and ice-cream and chocolate from Walmart for survival during the month that should have ended her life. mac had to walk twenty-

six miles to get food. By that time she had lost the ability to register pain in her muscles. The atrophy was that bad. How could God allow mac to be caught for that, while you and Mary worked tirelessly to steal mac's assets using God's network to coordinate your assaults? Costco and Walmart, God is asking you, on mac's behalf, to bring your charges against her for that theft.

## God's Dog in the Fight

### *Not on the Network Anymore*

You see God's dog in the fight wears the keys and you betrayed so many secrets of your brand. Trump, you are going to wish you had preserved the value of the U.S. dollar by making that deposit when God directed. You are still going to make that deposit, as you well know. Overprinting is not the only cause of devalue to money. Recall how Israel experienced mass deflation after sinking to cannibalising their own children? (See and feel God show you how His dog survives on Coronado Island, CA.)
