*astrology meets astronomy and what it means against a human body to sever Ggod's connection to them.*

Why does evil exist? It is not a question of good or evil. Good or evil is what a human assesses based on their judgment of a situation. 'By my god, what the other did was right or wrong good or evil.'

After Ggod brought Light/Righteousness into existence and the likeness of gamete for spirit creation rested with Ggod. Some being had to be the one that would condense all that meant being the only being in existence away from life. This is why in the physical world we have a blackhole balancing the stars in their circles that we don't have the ability to see but understand that blackness is there in heaven.

How the first born spirit son was created meant this embodiment would house in isolation what ends life. And this one was created to be blissfully satisfied to do so. This is what we know of God Almighty's opening His hand and satisfying the desire of every living thing. The next point is, the womb got creative, but dead matter fucked God escaping life with living seed. Satan no more wants antichrist to exist than any other being.

mac's question of why evil exists is answered. What did you learn from your god since you presented this challenge Aah-h' Soul? God Almighty could teach this to mac because she used restraint in stating Satan would be destroyed. What she knew for certain but did not know how was accomplished is that wickedness was destroyed. That is mercy before justice. In case the point was missed in the last article. In a democracy justice is what is destroyed because it becomes a matter of popular vote. You can insert payoff here. That was the tragedy of Samuel's sons. You Aah-h' Soul are an example of a son of Eli.

mac apologises continually for not writing the way she enjoys. When she puts wattle with wall and turkey she is tickled. She reads her dictionary for that happiness, along with Ehrlich and Elster. The r-o-m-a-n find was one of those, mac's sentiment, "This must be akin to the

ecstasy spirit experiences creating sans genital." This is a special class of Godly training to find deep hooking against the enemy. It is required first so seize their valuables.

With this writing all assets of the Jehovah's Witnesses private and corporate world wide and people belong to God. These people are not even fit for slaves. The above presentation maximises the short attention span Aah-h' Soul has for reading Truth. mac is certain academics can understand it. They simply hate that she is the one who Feynman's God Almighty's wisdom. Fuck you Montana State University.

What happens to those not fit as slaves? execution. This is a matter of law for a nation and it is backed by warfare. mac wants to be rid of them. This is how Ham destroyed his offspring was worshipping Jehovah. Jehovah is an old deity. Satan was the equivalent of God Almighty's penis in heaven. He delivered God's life, seed. God was fucked by a Bobbitt.

Antichrist's spirit roams the earth delivering Satan information uniting her children while the genetic being Mary McRae does nothing to foster the physical benefit of her children. Antichrist's seed are all humanity sans mac. At Mary McRae's conception is when her seed were populating physical beings and her seed worship the physical. Her seed never say self is wrong. The physical self is the most holy wonderful righteous thing in existence regardless of what it does. This is why you are all called fucker fuckers and you know it.

mac is why the physical among all these Philistines have a pot to piss in and a window to throw it out of and that includes the back broken Queen of England. Certain special ones this includes the aforementioned fucking Queen are diviners because of the first born seed in purgatory they host. Next year as you are celebrating potty day please post a picture of a paisley toilet for mac to feast her eyes on. This is why Walmart has working class people to fuck as its executives suck Jesus while they work. China, really? you can do so much better than being in bed with Walmart. Think about it. India is dead. Back up your data.

U.S.S.R, antichrist abused you to promote the United States. It is just that simple. The residual generational appreciation for what the Catholic Church attempted to achieve while the Pope was god is why there was tradition that saved much of Europe.

Postscript. mac will return to her little shop of sex life horrors and handle the edit that "Old School/Frosticles" is wrong. (Consider this the errata notice.) "Ivan" the thoughtful man in the battle for l-o-v-e-LINK with mac is "Frosticles". "Old School" is still a divining opportunist looking for a "wholesome" way to be a wanker. Let's make this clear, "Old School" is just a

wanker. Tossing a coin for a Divine decision also makes you a wanker. "Ivan" is "Ivan Frosticles" and mac loves him. God Almighty help him endure all that feminine fussing over his comfort and wellbeing. That is a prayer from the Saints of Team God.
