

# The Ggods Must Be Crazy, II

---

July 14, 2021

*ou liked that privacy protection did you? It still landed you in the world of identity theft.*

## Birth Announcement

God made the announcement that His woman was born. The dialogue with Satan's spirit seed went like so...

"We don't acknowledge your woman."

Demons

"Come Again?"

Ggod

"There is no way you get a human who can make prayers of heart."

Demons

"Esp'lain this to Me Lucy."

Ggod

"You need to back us."

Demons

"The rules are the same for her as for your people."

Ggod

"How do we know you won't give her anything extra?"

Demons

"She is enslaved to Albert and Mary under Me for the time being. What they concoct you will have as yours. There is nothing to give to her until her slavery ends."

Ggod

"How long will she be a slave?"

Demons

"She is a slave to Albert and Mary until her death."

Ggod

"What about her prayers of heart?"

Demons

"Her heart was circumcised to save her life in the womb. She is incapable of making a prayer with her heart."

Ggod

"Do we have your Word she will not be able to bind any of your powers?"

Demons

"You do"

Ggod

"We do not need to recognize her then since she makes no prayers of heart."

Demons

"As long as she is My slave, there will be no recognition from Me by your people."

Ggod

"We need her to decide the kingdom of earth."

Demons

"She Will before she dies."

Ggod

The savvy reader already understands how powerless mac was without the Christ. She still refused to accuse God of evil. Does Job ring a bell? What did Satan's seed once again

underestimate? the self-sacrifice of the Christ. Recall the Christ hating the who is greatest debate?

The Christ has a servant of Ggod who loved and claimed God for humanity and all creation forever more. What did the demons refuse to permit in the human belief system? That any human would choose God over god (betting against themselves) when they were so damned disadvantaged by Ggod. mac had no way to bind God's powers. Their people did. A human bets against the demons with their mind. Ah, the rich man and Lazarus.

## Christ's Guarantee

Christ's guarantee is MacRae (mac) Dukes of Corpus Christi is My word.

## Greed to Be Greatest

When God's woman was a child before your very eyes, you got greedy. Then she was in front of you on the world wide web and you went after owning her. What did mac understand? The slave is not treated better than her master. She cried more tears for God's feeling in His Sabbath than for herself while living roadside and starving to death seven months between 2019 and 2020.

The demons decided that the maximum number of years of slavery did not apply to mac because God had to preserve her alive from the brutality of others. To them until she died she was their slave because Mary was in union with them.

There was little difference between the tears mac cried for God and the tears the Christ cried for God while walking the earth as Jesus. The demons were not about to acknowledge the identity of the Christ to their own pervs of Jesus day either.

## Being Seen

For a spirt being to be seen by humanity, all the resources necessary for the seen life, presented human, need to be available for God to use free of encumbrance, restriction, title, ritual, and ownership against His kingdom. Gold, water, minerals the components of oil, wine, and bread must be available without leverage.

That horror of a bastard, Mr. Aah-h' Soul, went after mac's body eating her alive against the will of the human being hosting Ol' Leroy after Ted was murdered. Ol' Leroy couldn't fuck her, but he went after materializing the Russian that hosted him, after Ted's death, as nearly as he

could. Endor was needed for this deed. (mac is fed up with the waste with cork and oil. The Russian never knew he was being wasted.) The three costs to human life (recall Saul's encounter?) and the despicable way Christ was abused with mac's physical senses will be described in Nineteenth Hole articles.

What did mac always understand? What is physical is dedicated to God with how we as individuals live our life. Until mac had accurate knowledge of God she had no ability to stop the fornication, even against herself, all of the world's population indulges. mac had no ability to understand Ggod. All humanity understands, it is the programming of Adam, to dedicate everything in their life to Ggod. Even experiencing the brutality of god as Jehovah mac could not blame anyone but herself for badness. That is headship.

## Not Being Heard

When what we see happening does not support our belief system it means our premise needs to be changed. This is called the scientific process. Why the fuck, with as big a fornicator as Feynman was, do you think God allowed him to thrive in physics? At the very least he understood to test belief in science. A corrupted heart does not test their belief. This is why a fucker like Trump is blinded, his being a prophet of god, walking straight into mac's web. And Biden has no clue of his bankrupting the nation the Pentagon ends even when the joint chiefs sit in the oval office.

## Why Me?

"What I'm seeing" opens mac in dialogue to ITZA, "is an entire populous, the world over, dancing on the coasts for a hurricane because the warning system said, 'For a hurricane we head to the ocean and dance our asses off. There is no need to move to higher ground. We have no risk and we are going to party. It's like what I am doing is an unfair act. Instead of a warning system saying a hurricane means destruction with; winds that tear buildings apart, salty flood waters that sweep away semis, 100 year old vegetation, and fold concrete and asphalt roads into massive chunk heaps, they were told when the hurricane is approaching you go to the beach and party.' This narrative is why mac ask's of God frequently, but no more, "Why isn't anyone doing the right thing?"

Why weren't you delivering the message service explaining the hurricane is bad shit get off the beach? Why couldn't you stop people from having the party? The Christ breaks mac's dialogue

before she utters her last question stating, "We Couldn't" mac then understood the answer to her last question. Why do you even need a human at all?

One human had to win the victory. It could have been anyone from 1970 to 2018. Every living human has been given the chance. No one the world over since mac was born would do the work of fighting for righteousness. mac fought that battle. The generation that would by no means pass away had forty eight years to win the battle.

When there is no human to answer God's call as prophet there is no warning when destruction happens. The scrolls that hold the same documentation prior to Christ's arrival in Jerusalem, beyond John the Baptist's witness, are still buried. Satan's titanic plan, that allowed God's woman to come into existence in the first place, meant an entire population of humanity needed to be born with corrupted hearts. This is the generation of all humanity born from 1942 to 1954.

On God's land there was a prophet. The people that would listen disbursed, others were extinguished. Melchizedek then took Noah's bones back to his other grandson's and related to Abraham lost technology and family history. Until God had a people, Israel, there was no way he could offer salvation to any others.

## The Graph

Humanity started from perfection, light, Righteousness. This is illustrated by the sky, light, blue square. Then sin entered the world. The dark circle eclipsing the light is Satan. When God has a people or a land he has the means to save. These are the lighter circles. Our time of the seven weeks, those saved, are the middle-club-lighter-leaf circle. Russia opened up salvation for the rest of the world. Otherwise, without person's recognising what mac was doing, God and Christ could offer the rest of the world nothing. Had mac not fought for the Christ, when her prophecy was delivered, that would have been the end of her work.
