

Glory Days

October 1, 2021

he offer even the Taliban can benefit from. Because of Russia's betrayal of Christ, more can grow. The caveat? Righteousness is never compromised. This means hair cuts and circumcision.

Binding with A Spell is the kindly counterpart for this article and explains much. The scriptural depth you need will be delivered in the later released kindly counterpart article. You want glory? Christ and mac would like you to do more than taste it. Living the rewards of glory means cleaning your own house then moving onto global domination.

What is mac prepared for? Being smuggled out of her country, for the time being, to build the righteous warfare military unit. Building this unit means welcoming soldiers from every nation and living fornication free. In smuggling mac, understand, it is her sacrifice she makes and God is furious that smuggling her is what remains.

Who may smuggle mac out of her country? The military unit that wants to gain sovereignty over its own nation established under Christ. Is the Taliban welcome to smuggle mac? Yes.

mac's word is law. God's will is accomplished in the means of salvation Joshua employed for the nation of Israel and Jerusalem will be sacked with the political debacle of the present boundaries of modern Israel first restoring Abraham's inheritance in its entirety. This move is made after cleaning your own house. The glory of sovereignty over the desert begins and the Suez Canal begins our profit stream that we will mirror at Panama.

This is the beginning of world domination. Come with your face and head shaven. Cleaning your own house means execution of every human and drug trafficker arranging their bodies for the birds of heaven to feast upon.
