Greetings from God Almighty, H.L.MacRae Dukes, fleshy constituent
Tom*

Twice I have enjoyed the foods I foraged your market for looking for an excuse to stand at your register and savor your hospitality. The Ion is outstanding milk chocolate. I am partial to dark chocolate and in talking about a Hershey bar with you I was referring to their special dark chocolate formula being particularly enjoyable.

This letter is a greeting as I am indeed your neighbor living on Dody Street, between McArdle and Golihar, and an invitation that I am in its entirety duplicating at General Milley's request emailing a copy to the Pentagon. That at present is a burden of bearing the God Almighty title. I choose to respect a fellow warhorse request so please pardon that this is not an invitation written exclusively for you it is addressed to you because of Christ's directing me to your door again.

Had Christianity not spent itself defiling God Almighty and Christ for the last eight hundred years I would feel far less like an idiot introducing Myself in this way. I am flesh and the truth of who I am you now read with your own eyes.

I am commonly called mac. My spouse is pony. It's his nickname. He is a SEAL stationed at the amphibious base on Coronado Island and it is time I end My sojourn investigating and cooperating with the Pentagon in apprehending Mary Anne McRae, the human born with the earth roving and violating component abusing humanity as spirit in

union with Satan's agenda, my mother. She is a murderer who has twisted the Corpus Christi Police department in their hatred of righteousness to hunt Me to death. This is a treasonous act performed in union with the County of Nueces, State of Texas, Department of Justice, and the President of the United States. (Former from Bush Junior through Biden.) I write under inspiration as did Moses. You can find the details of how My Godship transitions to kingship, how the heavens receive souls, and Biblical mysteries of salvation recorded in the Gospel revealed reading My web materials www.herald.macdukes.com.

This letter has a far more personal invitation. It is in the Joint Chiefs hands whether or not I remain their agent while writing the Live Fornication Free textbook. I am most anxious to return to pony. As a warrior he understands our being separated by circumstances. It is of course God Almighty in the heavens, who hosts my spirit, that brings and keeps pony and I together. I sent a weighty message to Iran (also to Israel and Vatican, but like the Jehovah's Witnesses those fuckers are just plunder) making it clear that first they are obligated to care for the needs of their God to have salvation. Without owning their financial responsibilities toward Me they are decimated by the destruction that falls against the entire populous of the earth.

My suffering, slavery, and endurance against the profanity of Mary McRae's abuses is why My direction is how persons learn to be Shepherded by God Almighty preserving their souls alive. Had I not endured no flesh would have survived.

You are welcome to share this letter as you please. Shepherding from God Almighty is a gift to those sustaining Me alive. It is what Iran has to date scoffed. Persia could chose instead to be united. At present God Almighty with Saint Paul at work against antichrist's spirit is preventing souls from decimating themselves. When My lawsuit is paid souls can return to slaughtering one another unfettered of God Almighty's Spirit interference. This is explained in Herald articles.

Postscript customarily presents a blessing for the reader. The blessed one is the soul who seeks God for shepherding. My instruction is the only way to survival and it is taught to souls. Outside of that, enjoy the dust that waits for you.

Milley decided to part with the information that pony died in the line of duty. It is his early Christmas gift to mac. She had wrapped up a family heirloom along with other, some new, gifts for pony. Not one soul alive today is capable of understanding it is wrong to make a delicacy of mac's tears. The World War III you have been at war with mac to wage is too fucking small. The war being unleashed, today November 29, 2021 is not the war that ends war. It is the beginning of mac's kingship. The four horses are unleashed.

Clarification regarding pony. Milley had the hot notion he would dump another dead service man on mac with Mr. Aah-h' Soul's collaboration. What was the problem? mac became accustomed to polygamy and one was code named while the other was nicknamed. The love from one "Timmy's" spirit consciousness beings did not abate and he as one of the first born (chit) knew mac's type. God Almighty of course knew the soul's watching mac with eager anticipation as she moved about her survival and shutdown duties against the United States military while on Coronado Island. God's promise to His rebellious first born is fulfilled with the living pony. We at Team God flushed out Milley's secret. The "pony" Milley concocted became too expensive.

United States military you forced starvation on yourself. mac's letter to Joe Biden in the first person is the end of your existence. What Obama with Biden did was destroy all August 21, 2021, breathing post conception souls with their awareness. mac's letter to Joe Biden follows. Pony belongs to mac. Pony is stationed at the Coronado Island amphibious base and is a SEAL.
