

# Unleashing the Gates of Hell

---

September 24, 2021

*he stabilisation of nations God and Christ deliver. Here is the COVID master plan and why you could not get golfer approval driving your cart on the green even as POTUS.*

Firstly, the United States may no longer defend the State of Hawaii as part of its legally defined territory. The armed forces of America have no authority under God nor may they move against mac when she closes the military bases of the islands. Island occupants will be deported at a later time to be announced.

Secondly, the United States Armed Forces may not maintain under God any base or territory within or adjacent to foreign nations. What are all national military units limited to? caring for their own national borders. Occupying foreign soil, without the Christ, is over. South America will ultimately belong to Russia.

Thirdly, foreign nationals evacuate Hong Kong. China will do well to close its borders and minister over the needs of the east. Ministering to Japan, the Koreas, and Indonesia from Vietnam through Burma (oops Myanmar) is China's province under Christ's reign. The Pacific including Micronesia and Polynesia with Taiwan, the Philippines, New Zealand, Australia, including of course Tasmania, will be under Russia. For the sake of the hatred between Mongolia and China, Russia will minister to the needs of Mongolia.

Fourthly, deport all Jehovah's Witnesses to Guantanamo Bay. Confiscate all personal assets and place lands and chattels owned in common by Jehovah's Witnesses, in receivership to the nation under eminent domain. This includes commercial assets and investments. The standard of conduct expected is the Jehovah's Witnesses, even as placed in handcuffs, will be silent and fully cooperative not looking for anyway to incite conversation, interaction, or association with the soldiers relocating them to America through Guantanamo Bay. Escort them in the garments

they are wearing when seized without allowing them to grab even one personal possession, such as shirt, or care for their pets.

Fifthly, the Vatican is not regarded as a sovereign nation. That is just bull shit on the Pope's part. For now; Italy can prove itself.

Sixthly, the continent of Africa needs cleansing. Ethiopia, your continent is falling to your stewardship.

Seventhly, Iraq and Syria will be split along with Africa, from Egypt through Ethiopia, to rebuild Abraham's promised kingdom.

Now that the seven gates have been announced We can progress to other matters of importance. mac's celebrity portfolio works like so. If two billion people each invest the equivalent of two U.S. dollars (September 24, 2021, market value) seventy percent of mac's total revenues are distributed across the two billion investors. On this many investors there are no restrictions as to how they use their earnings. How about one to ten persons, budding philanthropists who see opportunity (understanding risk) who invest half a billion dollars collectively? This would amount to ten percent ownership of mac's total revenues and these philanthropists earnings from mac would be under Christ's protection. In-between these two extremes is not a linear interpolation. It just might be that the later category is the preferred stock and the former is common stock example.

Let's get back to what COVID is. COVID is an umbrella term coined by a team of ignoramuses who saw market opportunity in killing off the souls of the worker demon. This is why the United States staged its shutdown with the United Kingdom the way it did. (The plebeians were not expected to be obedient.)

What brings the mass extinction? COVID (with all its variants) plays its part. What adds to this? Obama, Winfrey, and Sharpton, with Woods' killers. Anything else? cleansing the earth using the heavens above and the magma below. Lastly, sticks and stones. (The lastly includes the hellfire from the stern of a vessel.) The proportions are nearly 15%, 70%, 5%, and 10% respectively.

How about picking on Trump as promised in the article description? Even the follower demons do not like unbalanced scales.

God's proving mac as God of Christ's kingdom is a function of the unilateral hatred and refusal of the democracy of America to make room even in its legal system for her care under law. Not

one entity at the federal, state, county, or city level from executive, legislative, or judicial branches would act under their own laws. All agents proved they were after executing a hate crime that even under military scrutiny no agent would act in a legal manner and enforce the law. The note posted on mac's door to the Justice Department reads as so.

*I refuse to give up my right to remain silent. Bring me a court appointed attorney who is prosecuting on my behalf. When you have decided you want God and Christ to end their involvement in the laws you and two other branches of American government are breaking by joining Mary McRae in her murders, witchcraft, and fornication, send me an email to mac@macdukes.com On the subject line write, "We want to be left alone."*

Albert of the Corpus Christi Police Department has read this note. He did so on the day he posted his note inquiring about MS Tejas "For Sale" sign. This was part of the city's revenge for mac's clean blood and urine. Junking her "For Sale" vehicle was the only thing they could think of to charge her for the hospital food they resented feeding her. mac's note was posted September 10, 2021. Albert's inquiry was posted a day or so later.

mac's proof of celebrity is like so. God is interfering with all military or "diplomatic" efforts to occupy, expand to, or engage foreign entities with any effort other than defending ones own national boarder. (Sans Hawaii, of course.) This applies the world over to all nations. This marks the end of the United Nations and European Union.

Mary Anne McRae and Terry Allen Smart are expected to be incarcerated for murdering Frances Lucile (Shaw) McRae of 2537 Studebaker Road, Long Beach California. She was widow of John Erskine McRae Lieutenant Commander, USNR. Prosecute them under the laws of the state of California
