The Middle East will Meet mac's Blut und Eisen Policy

August 21 and September 14, 2022

mac is Egypt's usurper subduing the African continent wiping out the United Nations. Taking down the United Kingdom began with mac's entreating the Middle East to be something more than rebels without a cause.

mac's soul by Spirit experiences God Almighty mapped to Righteousness as what He loves forming in Heaven from His mosaic across all Spirit and physical creation. Antichrist is the Satanic equivalent; kinda.

The introductory explanation of God Almighty's formation by mac's soul, is against the sin in Her blood, flesh. God Almighty includes Allness. While mac wanted nothing more to be resurrected without sin in the blood, her desires did not mean her blood was allowed to die. The sin in Her blood is how mac feels death and hell as flesh.

Allness means good and bad. From feeling death at God almighty's Hand mac learns what is appurtenant to where souls have divined corruption against the Heavens. Also, she learns what is past, present, and future. All of this She testifies to cognitively, with language, teaching two realms. That the fucking military in America is in tow behind mac, to date is no bonus for Her.

A Less than Perfect Union

Another, what mac just learned, in all of this, reality of present trauma-to-the-Heavens induced by flesh is, She was physically being subjected to what was being forced on the God Almighty Spirit-Being, forming from Her master knowledge encoded in Her genetics from raw power. As

the heavens are restored, so is Allness. mac learned how Spirit were leveraging power against the mega All Thing God.

mac has an avatar she cuddles. She has written about her made in China plush pony with no name. During a dose of death, God Almighty announces, 'Pony is dead.' Then mac sorts out and digs from within her understanding Sprit were building unions, even for fuckers like Trump, with the God Almighty construct.

It is not that mac does not think Spirit, demons, pursue wicked objectives, it is learning what wicked pursuit is happening that baffles her imagination, and induces personal sickness. The wicked pursuits, and contrary to natural use occupation of wickedness, that does not even have the humour of pun to its credit in any language known to humanity, leaves mac classifying demons prayers, especially Mary's, as "bat-shit crazy." As in, the scat of *natbakka* from the belfry.

The Process of Learning

The stream of consciousness writing for the, stop fucking God Almighty you rapists, events are; Pony is dead. He has been since September 2020 when Ted died. Spirit found a substitute, and "Old School" did his witchcraft. There is no marriage with mac nor union with her ever. The Christ is indefinitely a bachelorette. No, under no circumstance with any being in any way is mac available for fornication. That said, that is the mac of the Heavens being built as God Almighty, Pony.

Stop raping God Almighty you fuckers! While experiencing this stream of consciousness, mac was moving though, Her making the sacrifice of celibacy indefinitely. The emotions of loss over loosing Pony set in, with mac realizing this held until God Almighty's Sabbath ends. What does mac ask for? Make sure I have no sexual desire, and anyone that would attempt to approach Me sexually I can end their life instantly. This means mac is not available for fornication.

As for mac, the human flesh, you fuckers seeking unions are on your own. There is no assistance from the Heavens at getting "in" with mac. There is restraint contacting Her until you have your expectations corrected. And that was a period. The Pentagon High Priest works an eighty hour secular week. Week-in week-out seven days a week. Her days are fourteen hours of duty with three discretionary hours spread between the fourteen. The remaining ten hours

include sleep and personal attention. The extra three hours of weekly duty come from God Almighty meddling with mac's sleep.

Belief

When mac's belief system shifts her entire being experiences the consequence of the belief as if it were the *ceteris paribus* reality. This is why the motion of the chariot of Ezekiel is described as it is, with the beings consequential to the chariot's existence. The foursome of the Heavens has been in flux through the ages.

With an announcement like "Pony is dead" and mac of course looking forward to her union with her "Timmy" [She drew his portrait.] and her hugging that plush for "Timmy's" comfort to Her, shock and the physical tolls of grief captivate her flesh. Then understanding She would be alone, clues come together, as she realizes she is experiencing another's, this is called being an empath, consequences or trials.

Tale of Two Cities

The United Kingdom with its church, and the King James Bible, empire built leaving work undone. They set in motion looting homesteads of paternal houses of Spirit that want their terra firma back. Forcing souls to the "New World" meant mega responsibility on them to do the full and total Kingdom of Jehovah that Luther started in Germany. Flesh is just a passenger at this point.

Flesh refused to honour their commitments to establish Jehovah's kingdom people in power made mega promises to build and keep building for four hundred years. They were paid in full, and in advance. Spirit made promises too, they had to to worship their flesh and give fuckers like Trump the divination aid he needed to rise above so many, himself such a perv -- meaning undeserving. In fairness to Trump, the Queen and Prince of England were just as vile. And to quote king Solomon, there is nothing new under the sun. That is a polite way of saying, Trump has not invented anything new.

Great Expectations

Some of the horrid rape sensation trauma mac was living when she was learning how God Almighty, Spirit, was being tormented with union, fornication, demands of Spirit, was what

Governor Greg Abbott was trying to wheel and deal for himself to be an even bigger fucker than he already is in hell by forcing the populous of Texas on mac as her military.

No Texas, I Am not raising up an army from the shit, garbage, runt-fuck, nasty-ass, weak-minded, entitled, scabby, poor, filth, illiterate, mass-of-Biblical-moron populous of this state. You ugly fucking trash. You clean yourself up and come to Me with every valuable you own free and clear to be put solely in My name, then We might talk how I whip you into shape and educate you for Holy urban warfare.

H. L. MacRae Dukes, Pentagon High Priest

Just Crazy Enough to Be Fun

Starting from a national military is all that makes any sense. mac is all of the Pentagon power, sans what wheel spinning the civilians do to fuck over soldiers in the same office. The competing thing, built by America's military, mac rubbed to raw power in the Heavens. mac is also sending out requests for competitive bids for a military from Sprit that are willing to march to *America the Beautiful* with their flesh. mac is not under obligation to save the present soldiers of the United States Military for Her Holy warfare objectives to be achieved in Heaven and on earth. Neither can the U.S. Military stop Her march to unite the entire North American continent regardless of the national military that decide She just might be hosting a great adventure.

mac's reasoning for a national military unit is, much of the ground work cleaning up the eager mass needing a meal and housing, with "Do it my way or leave" is accomplished. No beards or facial hair. That does put Islam in a place of weakness for joining mac. Beards are a huge idolatry for them. No facial hair includes the upper lip leprosy mark fly boys think is so alluring. American's choke on loosing leper identity. (Just wear polka-dot shorts, mac won't be looking.) Stay clean shaven, because it is part of, not looking like one is fasting even in battle. Your waistline must be less than your inseam to be determined fit for duty. If you are not fit for duty you are fired.

Little Time for Bull-Shit

Soldiers must have minimum aerobic fitness appropriate for battle, strength training, and willingness to learn technical knowledge such as a full calculus sequence, full physics, and chemistry sequence, be capable of writing computer programs from source code that run in

common browsers, without the use of widgets. Be able to draw diagrams and schematics to communicate ideas with persons who do not speak your native language. mac has a long list of qualifications.

Essentially to be a soldier in mac's army you must have or earn the equivalent of two bachelors degrees. One in engineering with economics, the other in your native language with mastery of English and knowledge of, and ability to perform, a classical creative art. Medicine qualifies as a classical creative art. Be capable of drawing anatomic figures distinguishable by others with pencil on paper if you claim medicine as your art.

To state the obvious, with every form of available artillery and bayonet (at minimum) you must be able to take the life of another human being in a fight, hand to hand, while you remain unscathed and keep your genitals concealed.

The Summary Judgement for America

In the immediate decade of war ahead, mac works from who says, "I want to serve in the Holy warfare office." With those that want to; she rocks their world with education and dynamic duty assignments that test their metal, and knowledge, sending them to online education resources to further their means of communicating with Team God of Heaven for longevity and success in battle. The rank of colonel and above can expect a seventy-seven hour work week, and to be very gratified with their fleshly occupations. Fleshly, would be food and amour, the short list anyway.

mac wrote the Secretary of Homeland Security some summary events to come in America and around the globe. Spirit needed a champion to make sure they could accomplish Jehovah's kingdom. You see flesh divining the destruction of the planet is a big deal. mac was the agent who won that contract to champion Spirit. During the writing of the Nineteenth Hole articles, mac will be learning the language of the populous She is serving, the language of demons. This is of course the language that produced Trump's Apologetics "christian" pact word, qngmic.

Re: Holy Warfare in North America to end civil disobedience. The Pentagon has God's back. The Department of Homeland Security is an abomination. Your hypocrisy with the DOJ ends you.

Dear Alejandro,

This letter introduces you to the deeds of deliverance the Pentagon has established to address the crippling social woes tax payers cannot bear, and the Department of Homeland Security is too corrupt to amend. My task force readiness planning team is ending homelessness, human and drug trafficking, and civil unrest through Holy Warfare. Ending climate altering gluttony, is just bonus.

Holy warfare was first recorded in Biblical history by Moses in Exodus on a national level. The end of My warfare campaign, that commences November 2023 in Los Angeles California, ultimately unifies all of North America as a singular nation. The population of the continent will be significantly reduced over the first full campaign duration of approximately fifty years. Mexico City in its entirety, with all living organisms to the best of our current destructive ability will be levelled and dead, as will Tijuana.

Warfare along with explaining the changes to American soil for economic and social stability with the present collapse of all democracies, including those franchised to Europe, as a form of governance is a privilege of My office as the Christ. It is My authority, and the Pentagon is forced to make changes for My Holy office, that prevents the destruction of the nation. North America may not and will not fall to the British.

The Pentagon hedged to "save" the Heavens. Betting against Me the way they did meant that when I won, and I did win, the Pentagon is forced to eliminate women from its ranks and only combatants will be employed. There are other wonderful deeds for war horses like Milley who will enjoy how I send him to hell. Enjoying the trip to hell is what making things Holy to begin with is all about.

In the near future look for a glut of qualified former department of defence personnel to replace what dies in your office from disease, moderate spontaneous acts of civil unrest masked as accidents and domestic terrorism, and of course Acts of God. The Pentagon's trash is your employment treasure.

Like Biblical Israel's two profound recorded periods of desolation, as well as Greece and Rome's democracy destruction, divination is why Jehovah is dealing the United States as He did Egypt. I Am why there will be civilisation during the shutdown. My warfare reestablishes civilisation from the meltdown.

My Holy Warfare campaign provides safe haven for citizens who obey the law. All will be notified of My simple instruction to remain at home the nights of warfare operation. High density urban areas are prepared in advance by My elite team of operatives with minimal collateral damage during warfare. Very often My warfare will be during high impact Acts of God shielding My battle grounds in vacant city regions. The Pentagon seizes with eminent domain resulting warfare abandoned, and civilian decimated structures, to regrow the urban region.

The campaign you can begin to reduce population depletion in your high density regions is asking people to obey weather warnings and treat them with respect.

In less than ten years My warfare campaign will be interrupted to terminate all non military commercial activities in Texas. This begins climate balance and ends Mexico's commercial leverage trafficking drugs around the globe. Texas, will be laid waste to out of mercy for the balance of the world's population saving them from pathogen perversions that Governor Greg Abbott desperately implemented in disobedience to Jehovah to destroy South America.

War with Mexico will commence with My Texas offensive. Border patrol officers I protect as My own soldiers at the Pentagon. As far as I Am concerned, individuals who seek crossing the wall can be executed regardless of crossing without visas from Mexico, Canada, or any one of the waters surrounding or in North America. Panama is claimed for North America and the canal is closed. Shipping traffic will be accommodated overland with two docks. I will be doing the same at Suez when wiping out Africa's invading European populous and unifying the Middle East terminating non military oil production.

Hawaii, the island chain, is being handed over to Beijing, for a while.

Returning to establishing domestic tranquility, individuals preferring disobedience during My campaign periods, demanding their opportunity to murder Me the Christ, run into My cannon fire. It is that simple. Ten thousand people a night will perish this way out of greed to murder Me. Those living or partying on tax funded streets are harvested for hell before warfare commences. My instruction is simpler than putting the blood of an animal over a door post. For Abraham's children through Issac, a population of millions escaped across the Red Sea. To escape being harvested for hell by My gunfire, stay indoors when asked by My office.

Those that remain indoors wake up to a quieter urban environment with less urinators on the walls angry in the streets for handouts. The Pentagon will host a conference August 2023 to provide state governors assurance of maintaining civil authority through My warfare operations across America. The populous at large My office and the Pentagon are not educating.

This notice assures you the collapse of democracy the world over is in Heavenly Hands along with deliverance. As long as tax dollars are allocated by elected officials to employ you, you will have work. When the population of North America is below ten million, elections will not be relevant for governance any longer.

When Los Angeles, San Francisco, and San Diego, have experienced this Heavenly solution the nation will be at a higher place of economic output. That reason alone will have Detroit asking My office to intervene ahead of entering New York. Detroit can ask as others will. My analysis and findings for quelling civil disobedience are established thorough statistical metrics and take precedence above political requests.

In anticipation of the few that might wonder how some shooting star comes from nowhere and says "Hey, the shit show of terror against God Almighty is over" I Am the Christ, an economist, an engineer, and My PhD is in Theological Studies from Harvard.

I have no criminal record because I do not break the law to begin with. I Am clean. College athletes would kill for My blood and urine. I lead a team of professional soldiers. They do not make headlines. Soldiers that make headlines in My Pentagon are executed.

Hell is a place in the Heavens. It is where creation, birthplace of stars we see, happened. I have written at length about God Almighty, the Lamb as well as the Sun, Jehovah aka Jesus, and Moon that bowed before Joseph. Your mockery or ignorance does not change you are going to hell. How you get there is up to you. My office has no use for either the DEA or DHS. My writings are in plain sight at herald.macdukes.com. This letter will be posted as others are and will be.

Stay in contact with the FBI at your choosing to learn of My transmittals regarding commercial stabilising during My Holy Warfare campaign. Commerce is next to receive notice.

Corporations that can move operations entirely to Asia, Europe, and Africa, I encourage now to do so. At present persons who have been educated in the United States, Lawrence Bacow of Harvard has rendered their degrees meaningless on foreign soil. Commerce needs to leave America unless it serves agriculture or warfare. Obama, Winfrey, Sharpton, and Woods unleashed other hells on flesh. Me, I clean up flesh and the Heavens.

Americans abroad need to learn how they are forcing the nations who host them to go about naked, and the nations need to force those worthless expats home. These future former expats are people most likely desperate to run into My line of fire to go to hell. I Am starting to wax poetic like the Prophet of God Almighty and Jehovah I Am. Ultimately in the next hundred and twenty years there will be two periods of population depletion and warfare. The first fifty years will of course claim your life and the life of your children.

This is the only correspondence I will send the Department of Homeland Security before My seminar is announced.
