

# Iota's Herd Immunity

---

November 15, 2021

*he more the merrier. How a stampeding herd on the network sets humanity up for death.*

The womb of creation tantalised Satan inspiring possibilities for his own kingdom. godship trumped kingship and antichrist built Satan's realm. Hear the womb of creation contemplating the eggs that would build her world against all that is Holy, the Lamb, serving a god and not a king. This service to a god or king debate is the consequence we are living today.

"Ooh, I can get this one to do this for me."

"I can really use that one."

"If I take this one then that one over here will do double."

"With all my little ones we have total cooperation."

After her snatch and grab, in a flood of bloodguilt that mimics menses, the womb leaves for seed. God is fucked and Satan, the firstborn of God and His Christ, runs after that bitch and her seed. Any more questions?

Previous Herald articles discuss the immortality dilemma of spirit consciousness, life in its purest form. How was humanity spared from this kind of calamity? Limit the number of eggs released and allow not self, the zygote, to build itself when sperm and egg meet in the fallopian tube. Then the new double chromosome being moves into a womb ready to receive and nourish the embryo. The gametes having awareness has been covered. All of these things are marvels of creation.

That womb really did some contemplating and study of every egg she chose that God later said of Biblical Israel, You are as a firstborn son to me. These spirit consciousnesses of the God fucking incident are the God binders. Rather than have power for trusting in Righteousness they decide they will enslave God's power.

God understands slavery. god does not. Satan gives her power away abandoning kingship for godship. Satan held godship with the Pope and then many god's with antichrist were allowed until the law of one eliminated the life of another.

That wicked adult generation that came out of Egypt died off in the wilderness. That was the penalty to the souls who invoked divination to make matter transform itself. This is why Aaron retorted, the gold went in the fire and the god came out. That would be the golden calf event. The spirits of these souls of course went to their legacy, children. These children however learned some fear of the LORD.

This same wicked, parent divining generation, rather than look to God for power to overcome the perversions of the Canaanites and take the land were claiming they couldn't take land. They knew their divination was beat. This is how they ended up wandering the desert once Moses pleaded his whits out for the same mob, that in today's souls, went after murdering the Moses that was crying out to save them.

You people are the vilest that have ever walked this earth. Why a voice that cry's out in the wilderness? Because in the wilderness the rape is forgiven the one who is violated. This point of Mosaic law too has been covered.

Yes, "Israel" you are now in mac's cross-hairs. Let's play.

Until God or god had been decided mac did not have new Israel to go home to. She now has her new Israel home. They are not antichrist's seed.
