D eclaration of missing person Mary McRae to the Department of Justice.

August 11, 2021

A hate crime has been committed against me supported by the office of President of the United States, the State of Texas, Nueces County, and the City of Corpus Christi. My mother, Mary McRae who sponsored this crime, is a ritual Satanist and is now missing. I do not know if she is exercising her first amendment right to go missing or is launching a new violent assault against me. This note and my further declarations of the crime will be posted on my Herald herald.macdukes.com/ans/august-13-2021-hate.php God chose the proverbial Friday the thirteenth for this posting. The penny just dropped for me on that dates importance as I was typing. How you regard and manage this information must be a matter of law. The IRS has already betrayed the Treasury showing favouritism against the Christ for Mary McRae's criminal pursuits.

The Paddler understands the dates importance is humour with irony. Enjoy the chuckle. mac is still shaking her head at how obvious this has played out.

Direct your correspondence to H. L. MacRae Dukes, 4622 Dody St. Corpus Christi, Texas, 78411. If it is not in violation of Mary McRae's rights I would like to be legally notified as I am Mary McRae's only legal heir. The City of Corpus Christi Police Department has launched three assault attempts on my life without presenting me with a warrant. This places the burden of

information on them. I am continuing in my duties of caring for my home on Dody Street that I placed in her name to protect her interests as I built by personal profit centre. She exploited her god to have me executed. Your denial does not alter consequences for deeds.
