How nine wives earned humanity gGod. Teaching mac what the demons fought for and won to keep their headship. This is why a human, even a nigger, can be better than a faggot.

g-G-o-d-LINK is online August 22, 2021 20:00 Norfolk VA. God's balanced scales meant it was unfair for Christ (with Saint Paul) to be mac's "demon" and the remaining balance of humanity that was married to at least one spirit consciousness to be without the same means of intimacy that mac experiences with Christ (with Saint Paul). Mind you, Christ is God's Word.

This means with mac her cues from Christ are verbal, cerebral, and cognitive. God's presence is what signals through her entire body including cognitive verbal recognition from God to mac's mind. If mac were married to a demon the awareness from God to her about the demon she hosted, making her a god, would not register in her mind as words.

g-G-o-d-LINK

g-G-o-d-LINK is the human experiencing their demon(s)' means of expressing their consciousness directly as husband over their human host to their satisfaction. If you want information from God you need to use [How to Get God to Talk to You](#). If you want information from Christ on how to deal with your demons you need mac. Shepherding from God to lead you to the Christ is how you as the human gain headship over your demon(s). mac has the Christ (with Saint Paul).

God honoured mac's work as His ark with proof of His words to humanity even though mac had not gained Christ has her husband. Once mac won being God, she needed to learn what was fair for demons. All she wanted was to focus on humanity accomplishing righteousness. To apply feeling to spirit conciseness so righteousness would be conducted, because hell was a genuine deterrent, required feeling. Whose conscience, feeling for righteousness, is trusted? Headship matters.

The Promised Faggot Definition

What is a faggot? A faggot is a nigger that does not want to gain headship. What happens to the faggot? Their memory is erased by God and how ever many demons held a piece of you is part of their collective consciousness. Does this sound like hell? It is when the demon does not want to do righteously. You want your conciseness retained after your genetics has hit the dust? You need to obey mac.

What Is Wrong?

Have you ever done a bad deed and blamed it on God? 'Goodness made me commit adultery?' 'Goodness made me commit murder?' Even Satan's Protestants know those bads came from sin. If you are someone who enjoys orgies with drugs in San Diego, California, licensed party houses, what crimes are illegal? If someone keyed the new paint on your car as it sat in the driveway while you shot-up heroin with your dick in a strangers anus would you say the person who keyed your car did righteously? Under what circumstances would you have given your consent for your car paint to be scarred?

mac is God's woman. She mapped Ggod to God winning the Christ for humanity with her deeds while billions of other people with concocted prayers from their corrupted heart were desperate to invent the truth of God's identity with Christ to preserve god, Satan. This is why across fiction the truth of lies is woven with religion and law. Mary McRae's job was to find the truth of who God and Satan were to preserve Satan. She was worse than a Jonah.

It was moon child's office to obey her god, come in her own name, and unite the identity of Ggod to become god. Who in all Christendom was going to say, "Oh yeah, we want Satan as god." Do you want to call yourself good? Where are your works? The best Mary could accomplish for her god was murdering her mother for Peor to support the divinations of the Governing Body of Jehovah's Witnesses. Obama, Winfrey, and Sharpton, prayed themselves up a Woods to pursue their divination. They didn't trust Satan's woman, Mary, would get the job done. Demons are a house divided. Who axiomatically accepts that the house divided against itself will stand? The Jehovah's Witnesses are the divination purists pursuing Satan's direct interests.

Spirit beings seek physical fulfillment now with the human who hosts them. This is what g-G-o-d-LINK is. What mac calls "spirit shit," as in "bat shit crazy," will now be intimately

connected with the human that hosts them. Opening this door is how from the Christ (with Saint Paul) in the heavens and mac as Christ's word on earth the kingdom of Christ is established.

Why Ggod Allowed the Lessons He Did

mac had no way of understanding that marriage applied to beings other than of identical kinds. Since cross kind sexual relations is perversion under Mosaic Law, obviously beast to human did not make a marriage. Human to human was for marriage. How was a human to spirit anything different than human to beast? That is the way mac approaches understanding righteousness and Bible reading. She always has. mac learned unions with demons were allowed because these spirit marriages were the only means Ggod had of bringing the Christ to humanity to begin Christ's kingdom of earth.

This gift of g-G-o-d-LINK is what "Frosticles" fought for. mac called this f-u-c-k-LINK. g-G-o-d-LINK is f-u-c-k-LINK expanded. Now "Frosticles" has achieved his demons objective. God's woman learned what was needed for God's scales to balance for all creation. Only Ggod can deliver signals to humanity.

The demons made clear, "it wasn't fair for Christ to have his human his way and the demons to be left out of experiencing this fulfilment". This is why Mr. Aah-h' Soul divining Ted's chemistry with nine human genetic cohorts God allowed to be built with the demons that these nine hosted. This genetic l-o-v-e-LINK monster God needed to teach mac that her marriage was to Christ (with Saint Paul) as her husband when she was resurrected by Christ in February after obedience to death listening to God's Word when her cellular pathway to God Trump demanded God terminate.

Cadillac's Midnight Romeo

What did mac accomplish in her fight with the genetic monster? Building l-o-v-e-LINK, and GodLINK with Christ. This is how Christ's kingdom is established. Because mac refused all forms of sexual union with demons and insisted under every circumstance only her human wife on l-o-v-e-LINK would she engage with in relations, the cerebral pathway for humanity is preserved for God with Christ, and two legally married persons on l-o-v-e-LINK may enjoy relations. "Frosticles" that was not fantasy sex. Christ says, "You are an idiot."

Cadillac's Midnight Romeo is the genetic monster God allowed to teach mac what needed to exist for the demons so Christ's kingdom could be established of earth. mac, a hopeless

romantic, was certain there was always a pony in that shit pile and she never stopped digging for the one that would come to her door. Regardless, she is now fulfilled.
