

# Liar, Liar, Pants on Fire

---

*April 5, 2021*

*All of you understood the obvious. Taking the lower ground is not the high water mark.*

"Mary McRae, you are a murderer and liar. You are not welcome in my home. You poisoned me and sent the Corpus Christi police out to arrest me unlawfully last Saturday after midnight. (March 27, 2021 approx 00:01) You are evil and belong with your Jehovah's Witnesses"

Thus read mac's reply notes she tapped on her street facing doors at Witness for new Israel's Home she posted after the Corpus police officer visited April 2, 2021 late daylight hours with spurious announcement. He never even provided his name or announced his purpose. This is a pattern of behaviour with Corpus police officers. He asked if mac was who is message was for, refused to acknowledge her name, then blurted, if she knew her mother made arrangements with her to contact Danny at a local Corpus number. mac made it clear she had no phone, did not know a Danny, and her mother leaves whenever she chooses without word. He then left her a call at her convenience plea handing her Danny's number on a note with her partial name on it.

mac's note is no more official than the slip of spiral note not-much-bigger-than-a-business-card ignored-lined paper the officer handed her.

God asked mac to toss out the note. Otherwise, the number would be posted for the reader to enjoy. Danny can thank God, in Jesus name, for that action. There was no last name for Danny either.

Corpus Christi is the false religion heart of perversion for the United States and the home that Peor came to as her last act of immortalising the Witnesses with her perversion and forcing mac to either murder her under Putin's plan or Mary could simply succeed in getting mac to die the way her grandmother did at her hands.

mac does not mayonnaise condition her hair. (Yes, this is relevant.) She eats mayonnaise as a condiment but hates the smell and taste of it by itself. Isn't that peculiar? Grandma had beautiful hair until the day she died. Soft as silk and never a tangle. A day before a good do, luncheon, dinner, outing with friends, grandma, a feminine female, would condition her hair in the last bit of mayonnaise in the old refrigerator jar with mayo no one wants to rubber spatula out for their sandwich. Grandma was frugal and beautiful into her eighties. She did not have hardening of the arteries. A cardiologist was her primary care physician and grandma watched her cholesterol like a hawk.

In two days, mac and grandma planned spending the late afternoon and evening together again and mac was picking her up. Grandma was preparing herself for the outing two days in advance when Mary and Terry (who knew the plan) seized on murdering grandma when she was alone. Mary had her mother (grandma) at the morticians before ever telling mac her grandmother had died. The Jehovah's Witnesses understand the ceremonial importance of baby wipes, mayonnaise, gloves, and soap. These are the things Mary stocked up on when mac was at Dody street. They are the tools of Mary's murder and cleanup. Mary stocked up on trash-bags and staged her room with ritual the night she left the house to abuse the Corpus legal system to do her dirty work. She beat herself up on her walk to her Jehovah's Witnesses of Corpus. The trash-bags were to toss out mac's belongings after the police carted her off to jail or the morgue. It did not matter to Mary which.

These tools Mary bought and used in ritual to absolve herself of her mercy killing to free Peor from grandma and kept in covenant as a prayer to prove her ambitions to kill mac. Objects matter to demons and shitty little gods. (Think Trump and Obama.) Lives matter to God.

mac needed physical stamina and fitness before she could return to Corpus. She was too frail after surviving Coronado to have immediately survived the Trump fuck fest. Putin was Trump's guest of honour. People, fucking the whole god dammed world is over.

Corpus police, being keystone coppers that unlawfully enter God's house did not serve you. Without evidence, questioning, or due process, you seized on the opportunity to take mac into custody. Their anxious ambition, shoot mac in her bed had she ever stirred while lying in sweat beads under your search lights through her windows. You had just finished entering her clean, aged, under repair, roach free, undisturbed, orderly, unlocked-backdoor through the backyard unlocked-fence-accessible home after only a few seconds pause from knocking on the latched

front door. Not even a pipe wrench was disturbed from place in Mary's room the house master bedroom. mac slept behind a locked door for obvious security.

Shooting is the power gods have over your limbic system you stupid, weak-minded, gun-trained, mother fuckers. You police are dedicated to serving gods, not God. That is why you are instruments of Satan's wheelhouse to be used as tools to tie up the courts and end your careers when the obvious garbage of the earth ends up under your knee after resisting arrest. mac did not flinch in her bed under God's orders, "Do not move." to save your fucking lives. A few days later you decided to play mac as a idiot. Nueces, how stupid are you?

Now and again, one of you police officers takes the hit so mayhem and hatred between races thrive in the United States. How do you get twenty-five Mexican's into an SUV? Take them across the boarder. They can get a better life. How in the fuck did all those slaves cooperate in the hold of a ship? A better life for their offspring. Protestantism is the demoniac religion that serves the cult loyalist ritual-worshipping Mexicans and Blacks. Obama, you won't eat much flesh long. You will have a couple seconds to eat up pig. More on this to come.

## April 7, 2021 Post Script

The only reason humanity had a small chance at salvation was because even in the United States it is illegal for a daughter to be married to her mother. Do you still hate mac for hating female genitals? Hence forth mac will leave the front door of Dody street unlocked when Mary is away. This makes it simple for individuals that need to invade mac's home without mac's sole requirement for entry, state your name and purpose. God and mac call that an introduction. Notes will be left for entry instructions when mac steps out. When Mary leaves for ritual against God, to murder mac, she sets her stage thoroughly for a failed return.

mac is under orders from God to be trained in hand to hand mortal combat. Running and hiding is her only means of defence now. She is learning how to use a sword.

The criminal activities against God's woman, mac, lead by; Lori Taylor of Wells Fargo, the Jehovah's Witnesses, the State of Texas, the State of California, and Nueces County forthcoming.
