

# Miracle Whip Desserts

---

*December 30, 2021*

*The Happy New Year (Gregorian calendar) gift of four miracles befalling Nueces County and the United States military at the demand of American Protestants. Had the Corpus Christi Police Department obeyed the law in reference to Mary McRae these miracles would not be possible at this time. This is the just desert to accompany reaping where you have sown.*

Arrogant, swearing, and haughty demands against God with cursing is honoured. What is also honoured? Rending garments [Because only the Lamb can rend your heart.] and making a genuine inquiry of the LORD testing divine expression. You knew you held what was from God. Just like Nebuchadnezzar's idiot son with the holy vessels from the House of the LORD you profaned God Almighty.

You clergy where the last possible agent that could have brought good to Nueces. The three miracles being manifest by mac Dukes hand decimating Nueces County are; the collapse of the border wall with Mexico, the total decimation of the building construction industry this is buildings and highways, the complete evacuation of all refining and oil production across upper, mid, and lower streams including ending distribution. The fourth miracle is the United States Department of Defense is now Offence. This military unit will be shooting at shadows out of terror brought on by imagining enemies.

The perverted and corrupted works of your hearts and the hearts of your partitioners make the chain reaction of events from a simple gesture of nodding respectfully at a gang banger or prostitute in acknowledgement of their humanity the means for your own child to die at the refinery scratching her balls. These events are the proof of the perversions you souls have grown and yet to reap for your corrupted practices. Your use of "angels" is now being harvested.

In the days to come I am occupied with performing the deeds necessary to bring the miracles you demanded to pass. This is My occupation until My children of Islam send for Me. While I

am setting the destruction in motion My duties might be interrupted with travel before returning to complete what remains that the enemies of the United States have left in their wake. These miracles restore North America and reward you for hating salvation and loving destruction. The Proverbial saying that you are is called Milley. Let it be known in Islam, "Don't be a Milley." A Milley is one who hates salvation and loves destruction.
