

Opportunity Knocks

July 12, 2021

he free market of the priesthood. Restoring what belongs to God opens the market for priests of gods.

In the days of pagandom of long ago and among tribes and island peoples of today the witch doctor is known. You now know mac is God's prophet with Christ as high priest. mac is Christ's earthly agent for priesthood and kingship. Yes, she holds Melchizedek's modern office. She works for profit.

Junuh

It is time to come out of the shadows. From mac's freely provided information pipeline you understand someone like Woods can broker his demonic talents. PGA you have a winner with that scum-bag for being able to hold some amount of commercial edge for the time being in the America's and of course the extended United Kingdom. Mind you Saint Andrews does not hold the golf interest of mac that it once did. Golfing in her grandfathers footsteps, ain't all that.

The Poster Child

This is the deal, the human(s) is the face of their demon(s) collecting the revenues the market will bear for their brand of godly power. What is changing? Anonymity is collapsed. Will there be puny demons seeking to make big bucks with thimble-rigging slight of mind? You bet. Watch out for the Goodman's of San Diego/Coronado. This weakling pair of Presbyters are a sad act. Biden could make more prostituting Jehovah unless he wants to deny his office. The office of President is not held for its salary.

God or god?

Do you want your commercial or government entity to stand into Christ's kingdom? You need mac. mac provides the means for government and commercial entities to include in their operations a reversal and nullification of ritual opening Christ's miracles against Satan's

evolution. This means commerce and legislation focus its profit centres on longevity for the vindication of God's name when they contract with mac.

The Sprit Consciousness Network is now closed to anonymous users exchanging information outside of the hosting body. This action means commercial opportunities and perfect information ending blasphemy. Unless you contract with mac, you are represented by a god. mac is the legal authority of the earth over Ggods network. This means there are no followers without mental awareness.

Wiping Out Billions in a Night?

You're Kidding Me

Mass annihilation of humanity was the option the ranking niggers demanded of Ggod. There is legislation against building the chemical agents needed to wipe humanity off the face of the earth in one night with a good heavenly blow job. (More on the technology of how manna was provided to Israel later.) Even Satan preferred the free market. She has agents she owes back pay to. Some of Obama's former cabinet have yet to become filthy rich. Satan did not want to give up what remained during Gog of Magog. You niggers squandered a great deal with Ted.

Benefits to Markets

This merciful market provision exists because mac and Christ decided to serve a market niche. All legal entities, be they; commercial corporations, government institutions, public service providers, or schools: will be defining their priesthood and naming their god or gods in their legal articles. You may map yourself to gods of fallen civilisations, your own board members, Satan, a celestial body, (this can include earth's moon,) and be creative with naming your own corporation's "value" system and Ggod will make sure you earn the powers of the demon you have identified with your words, prayers of heart (stop that shit), and deeds.

Reap What You Sow

This is the reap what you sow program mac has built with God's balanced scales. Understand this, a human being, as in the highest office holder of authority in the entity, maps to, and collects fees for this power that Ggod bestows or you are contracting with an entity like Balaam of old (he won't have an ass) for their spirit powers. Without valuable consideration with agreement between parties there is no agreement. Failure to contract means denial of the service.

The heavens have just been closed. It will continue to rain on the righteous and unrighteous.

The power-players, niggers, like Oprah, might surprise you with their denial. It will be nice to see O-magazine and all of Harpo wiped off the earth. Denial comes with the obvious outcome.

Minimum Code of Standards for Priesthoods

The priesthood minimum code of standards will be posted after the shepherding agreements and head-quarters are established. mac is on LinkedIn and her office door is often open. God and Christ are seeking allies for mac's business development. mac refused the political asylum offers made. She is already king over Israel and she decided Russia can do better than the offer Putin made. She wants to see a thriving united kingdom of Christians of those once Soviets.
