

Paddler Journaling

The ITZA Staff Journal

August 15, 2021, September 22, 2022, October 7 and 9, 2022

Sweat like drops of blood are drying on and falling off the cheeks of Brown. Him atop the sunny stern deck that wreaks of chum. "You don't know shit." This line is holding a nine-hundred pound marlin. I have the fight of my life on my hands."

"What you have dumb ass is two old tires and a bunch of sea weed."

"You're being generous David, All Junior has is a little ol' toad with a bunch of unreeled line, and a need to convince us he knows how to fish."

"I'm bringing this baby in! Now!" And that is what Brown does. Each fisherman is certain he is divinely right about what is on Brown's line. A black with caked on sludge, and vegetation debris, tire breeches the surface. Brown does not stop.

"Cut the line" Scoffs a brother, "We are wasting time on a gag."

"You cut that line, and I am dumping you in the Gulf." Cry's Brown.

"You honestly think you have a marlin from these waters?" Reply's the knife bearer.

"You watch." Brown toils, and the marlin gave up the fight. The three work the fish onto the deck with tires hooped over his sword. As it turned out a toad was in the fishes mouth.

All were correct. What do these brothers know? Better to trust the faith of the one willing to bear the work to learn for certain what was on that line and enjoy chicken of the sea.

The smell of chum is how you know mac was not on deck. If this story were analogous to current events of the Pentagon's divining, mac just might have been the marlin in this story.

Living fornication free is honouring being the virgin. To live fornication free, you need the LORD. Shepherding from the LORD means you subscribe to mac's *Head Quarters*. *Head Quarters* mac is building at macdukes.com.

Jumpstart shepherding from the True God closing prayer with "in mac Dukes name."

Saint Peter, Saint Paul, and not Mary

Five topical sections the Paddler uses for entry; **God or god**, **Daily Verse**, **Making Love**, **Keeping Watch**, and **Then, Now, and Next**. These journal entry sheets are a tool until you make them God's utensil for Shepherding you by the way you engage God with your being. These are ego centric entries. The log is for the individual. You may make or give extra sheets to members of your household. Fill out the title page sheet as a covenant with God for who you have headship over, or who has headship over you.

For head of household, Paddler, the palm-sized singular seamed book handles a month with opening title and end pages, and a centrefold sheet for the pun of the month. Each day in view, mark your secular day on the right side and figurative day adjacent. The right-hand frequently will not know what the left is doing. The figurative day teaches you how you have been fucked. The figurative day is how you are in-debt because of the destruction of the Heavens, mac has been railing about. Headquarters is where souls prevent mac's railing their veins.

Each secular day, you will achieve. But, in the unexpected work arounds you will be learning what the figurative day entries are. Your seventh day of the week is where you will be looking back at the previous six days, and while in service to the LORD on the seventh day, He is taking deep liberties into your time, teaching you what needs to be amended. If you need to go into a shed and do some swearing at the LORD, don't worry, mac has your back. mac makes the offerings in obedience, so Paddlers have a little latitude. This is no different than Job making sacrifices for his children.

Each member of your household maintains their own journal when they begin learning literacy. (This means some crayons and markers are perfectly good styluses and bonus points for

pictograms with stick figures.) This work begins with head of household. Sons and daughters print a binder page for them to journal in.

Shepherding is about growing to spiritual maturity. Navigating and responding to entities be they legal or biological growing closer to God and Christ by separating yourself from the identity or motives someone else would cloak you with. This is the new personality you obtain with God as you paddle.

God or god is a means to look at events in an ego centric way and improve your body to be a reflection of entering Christ's Congregation. This will mean loosing fat and building muscle. It will also mean improving academic acumen as well as meeting mac's full soldier criteria.

Daily Verse is to record your deep periods of prayer when God is speaking to you. You are following the daily verse rubric. Use Post-it notes to add writing space in each day. Following through with an electronic version of each week is likely and with the refinements you will be developing improved use of language as you edit and read your initial responses.

As head of household in *Head Quarters* are guidelines for sharing with your family and using l-o-v-e-LINK. This is incorporated with **Making Love** and includes your child's growth into their own sexual identity with knowledge of their gender. How you are growing with your spouse in sexual awareness and fulfilment while including God in your marriage and abstinence if you are single. A single person can feel fulfilled without sexual stimulus as well as one who is married to wickedness.

Married to wickedness is enduring an abstinent marriage. In the case of profane marriages like the Mr. and Mrs. Milley, Mr. Milley can enjoy celibacy, or divorce, with a year of celibacy mastering his manhood. If a spouse is what he indeed seeks, one would be risen up for him in God Almighty's time. Given Mr. Milley's rank mac would be a suitable chaperone when he can date or be in the company of his love at first sight spouse. To keep their present marriage, three-hundred-sixty-four days of abstinence the couple would need to commit to. This is not consecutive days. It is bringing two people together through l-o-v-e-LINK remotely before allowing them to be physically in one another's hands again unable to discern where one begins and the other ends. Because of Mr. and Mrs. Milley's authority, mac would need to lead the prayer to commit them to this protocol in person. For others a Pentagon broadcast prayer by mac to all U.S. Service members live, would suffice.

It is the nature of the masculine one in the relationship to own the mantle of headship. Masculine with white skinned people is scrambled. For black people it is simple. The male is feminine the female is masculine. Is this corrupt? Yes. After the fulfilment of Jehovah's kingdom this will be amended. Male will be masculine and female feminine. White people will remain a scramble. There may be exceptions where present marriages have two feminine or two masculine personalities.

While feminine to feminine presents challenge, with God all things in righteousness are possible, and the two will realize transitioning into who gravitates to masculine and who to feminine by comparison based on a prayerful dialogue with God to establish chain of command in the marriage. For U.S. Service members the male in the union will be transitioning into masculine regardless of colour.

Keeping Watch is for making observations of the object lessons God is putting you in the path of during shepherding. These object lessons are clues for how you are growing into Christ's congregation.

Then, Now, and Next is to create objectives for yourself to improve yourself and household physically and spiritually and includes personal possessions with reflections of how exogenous events and entities have influenced you. Use this to bring your household together into the same objective.

The sabbath day is twenty-four hours of being prepared to live a day in service to God. It begins at 0400 on day zero and ends at 0400 day one. If you quibble over the extra second, you have a problem. This day is also for household fasting after the head of household has mastered the discipline. This is how an individual takes headship in his family. This will always fall to the one who is more masculine in the union of husband and wife.

A reminder is that man was made for the Sabbath because during God's Sabbath it is man growing to perfection that ends divining under the influence of sin with Christ as head. The sabbath is on Thursday for Christ's followers. This is the day of the week that corresponds to the first day of the year mark when mac drove through the Arizona desert in 2019 and learned God Almighty's calendar that the LORD marks years by. Milk -- half-and-half, or cream is fine -- coffee, and water is what you consume on your sabbath -- No sugar.

Journalling love letters will be an ongoing exercise in how to speak to your future or present spouse breaking the libido crippling torment of text messaging and phone calls.
