

Plumb Is Your Best Tie Colour

December 8, 2021

President Vladimir Putin is served. *Why We at Team God cannot make you the offer We made Iran or Iraq. And you certainly didn't want a share in Israel's distress.*

What does one call a world leader who is not meddled with by Team God? Perhaps Mr. Lucky. mac read the feminist seamstress lecture from prisoner Navalny. She would like him to consider the word t-a-i-l-o-r for his s-e-a-m-s-t-r-e-s-s word replacement. She also understands someone as stupid as him ends up in prison simply to protect the lives of others. mac would love to be able to be productive with her hands while counting the hours. Even if it were just to knit a sweater to remind her of how desperate people are to pull the wool over her eyes. Consider releasing your American servicemen. Understand they are slaves to God Almighty. God will ask back at something other than at the sword-point you want, Putin, her prisoners in your cells.

Iran, mac offered protection because of Daniel's service to Nebuchadnezzar. It was God Almighty raising Nebuchadnezzar to deal with Biblical Israel that provided opportunity for Iranians. Joseph's airs taking possession of the land Jacob won was not an issue. Jacob stored up for human genetics by providing spirit slaves who would be forced to change the belief system, faith, of their souls on God Almighty's Will. That is how the force is with General Milley. (Yes, we understand how puerilly headstrong Milley is.)

mac offered what she could in her wisdom to all humanity based on what belongs to her through Noah, Job (Abraham's relationship with Melchizedek), and Nebuchadnezzar (Daniel is credited in scripture. Nebuchadnezzar, Babylon, and then of course through Cyrus, Persia.) This is the famous three soul reference in Ezekiel. The United States (Noah) is meddled with because of course, they carved up God Almighty's land and defiled souls with the power of democracy. It is so much better to have a perfect despot.

The system of democracy is structured to give every soul a place of pursuing their life, liberty, and happiness. Unless of course they run afoul of John Law in their pursuit of life, liberty, and happiness. As long as two former stoners drug trafficking across Texas can travel about with cigarettes wearing baggy sweats grabbing an easy meal at a Walmart on social subsistence or disability, that trash is living its life the way it wants. Who pays for that? Why the democracy does. Provided it can levy enough taxes from the "wealthy". What has Team God proved? That there is no means for mac to be kept alive under the democracy. That ended democracy. Even as a prisoner of her own home over Mary McRae, Mary went straight to work attempting to murder mac with starvation, again. What does mac have? Legally she has plunder! That is what the Space Force has to provide for her.

No one gets to murder mac. It is flat out against the rules. What is the punch line? She is the one who provides even for Satan's happily ever in total darkness by executing God Almighty's Will. What has been the problem? Proving to mac America is her plunder. That does not mean she is careless about John Law's hatred of her. She wrote Tom Hamauei, a neighbour, because his pulse is what keeps the gang bangers and prostitutes in harmony in Corpus Christi. This forced the clean living drug traffickers out of their homes for century duty walking their dogs when mac walked through the neighbourhood.

Putin, how you pray is private to you. Just pray in Jesus name. There is no way for you to provide economically for mac's life. Not everyone can worship her. It would be against your god. Iran, Iraq, and the United States can. This means she would be able to give freely to Iranians and Iraqis once worship to her was in place. In America it is only the armed forces that can receive gifts from mac and worship her.

Abraham is why the greater Middle East boundary, to the Nile, belongs to mac. The English monarchy and military forcing ownership of the demons of Africa's souls is why they are little considered. (The modern Celtic witches union is of course next to be served and the Queen will have no worries over King Charles in that day.) Through Jacob is why God has spirit slaves against antichrist's power.

Reading the very first chapter of Genesis it is obvious the heavens above were separated from the waters below. Both are seas, *n'est-ce pas?* What is the day reference? The orbit of the heavens about God Almighty's axis. God Almighty being everything to being with then of course created what He loved first and foremost because being a bachelor with everything was not all that. God Almighty wanted a Christmas gift. mac needed to put in place all of the offers

on the table to those that were due. She also needed to learn how it was Milley would be obedient to her. We both know it might not be Milley when mac storms America with the Space Force. But we just digressed. Science being obsessed with youth, had no ability to date Earth. So this meant both fundamentalists and science had it wrong and of course all the gods have been arguing with one another over creation or evolution ever since.

mac calls the digs with her nose in the Bible, truffles. To soften her success at Aker, because Brian Busser needed to be rid of her, she was not worshipping him, she has called herself a truffle pig. She maintained her job six more months while writing the Quality manual that saved Akers corporate unity. (Then of course she was sacked.) Her defence for pig over dog, because both will dig a truffle, was the pig at times kept the truffle to itself. She gets to do that. She does not cough up her personal truffles. No one would declare her vomit a sea treasure, if she could vomit. She had the idea of finding ambergris while sailing about the ocean. That was worth some coin. Then of course entertaining herself with the idea of providing for her needs at sea was suspended. mac could not be enslaved to antichrist and forty-nine years freed God's Land as well.

Mr. President, you are in a unique position of being offered the Space Force Global command office. Russia can house this as it unites itself. Think of this provision as what Khrushchev stored up for the United Soviet Socialist Republic. You will need to make arrangements face to face with mac to coordinate military command. The heavens are her domain. Democracy is the government antichrist's seed require. This is why only democracy's stick, as it were, and dictators get railroaded.

mac is now down to thirteen dollars. Mary seized control of all household revenue and is now pitching a fit pretending to starve. A short walk to the market is all mac can spare away from the house. When Mary passes out, to sleep off her tantrum, mac will clean up her mess. The Space Force is not interested in doing you any favours, Mr Putin. It does honour Khrushchev's humility. The offer to open the Space Force Global office in Crimea (mac wants to settle on the Black Sea) is extended to you until December 24th. mac is a kindly personality in person. The Space Force defends her.
