

Prodigal Game Changer

March 4, 2021

Who the Prodigal Son is to God and Christ and why materializing for breeding ended. Also, Trump's squealer.

The Prodigal Son of importance to humanity was the spirit son of God who after materializing and breeding with fleshly beings cried out to God over the sickness of humanity. This one returned to be God's dog in the fight to stop humanity from going after demons. God now having his dog in the fight, the Lord of Hosts, meant demons no longer needed to materialize to have the same relations with humans. It also meant that human life spans needed to be shorter for the infected population count to balance when God used an ark for salvation.

Brian Crews, sleazy attorney for Duke University, owned the demon who cried out to God over humanities perversion this time around. It was Brian's greed in destroying God's woman that horrified his demon. Now you know who the squealer was Trump. Until Brian dies, this demon is incarcerated in him. Brian refused to release his demons when the Christ made the request. When Brian Crews dies, all his demons are released to Saint Paul. Yes, this means Brian loves his demons more than the Christ.
