

The Rule of Fourteen

The Commandment with A Promise

January 22, 2021

How exile saved the remnant of Abraham's seed from kings perverted by demons. The fourteen generations that matter. God raises government and kings not niggers.

God raises governments and kings not niggers. Biden, in uniting the nation under God for free trade, do not bankrupt the nation. Use the National and Coast Guards' wisely. God is not permitting cessation from the Union. "IN GOD WE TRUST" is not a national dedication to Satan. It is simply an admission that a rich man is not likely to make it into the kingdom of heaven. Why Jesus said this is axiomatic.

One who loves money is not a lover of God. A money lover is a woman. This type of woman seeks appeasing demons through rituals growing and maintaining their own form wealth. It just might be coin of the realm. A man who is wealthy is so because he worships God with his whole heart and grows his fortune acting righteously. Whole heart, meaning, acknowledging it listens to sin and from the mind the organ is made whole with God.

A Stiff-Necked People

mac is now laughing over her stiff-neck in Arlington. She recognizes refusing to turn one's head for God is the same as one who gets whiplash taking the double take for their god for the measly vision stunts of their god. The reason niggers' access to God's power was growing under mac's fingertips is because knowledge of God was what they lacked. These stiff-necked people could not listen to God any more than Abraham's seed that came out of Egypt. Recall the generation that died off?

What aliens possessed was Satan's phone number to use God's technology. What mac has is accurate knowledge of God and understanding of why the Bible God wrote the way He did. This

knowledge is why the consequences that come to aliens from the Lord of Hosts will not in any way be measly. You might be deceived for an hour into believing things are business as usual.

For instance, in the parking lot of the Staples' street Walmart in Corpus, mac parked in a newly vacant space. She rolled in behind a fleeing-portly-bearded Caucasian driving a red partially-rusted-Japanese-model station wagon (oops, crossover). The portly woman fled, as a female squatted in the forward space to mac beside a blue hatchback for her hurried ritual urination before fleeing to her abandoned belongings under a distant lot-edge sign. mac's double take went with total belief of what she saw a business as usual. The par of this world.

The unusualness of the moon over the river did not really strike mac until later. It did look exactly like a horse's ass, sans tail and vulva whilst peeing as if it just won the Kentucky Derby. mac understands, Clintons, God represented hurrying out of the parking lot. That was by no means measly.

Saving the Soldier

The United States Armed Forces is taking back God's lands claimed by Noah. This preserves the men making personal dedication of their life to God. Do not fail to bring in reserves and injured veterans as desk jockeys. All ambulatory individuals will see active duty before God's land is united.

Under God's military action the army, navy, air force, and marines, of the nation under God are centralising commerce through borders of North America God is disintegrating. All North America's chattels the Biden Administration dedicated to destruction. You will appreciate the low cost of a wall at Panama's southern border.

The Biden Administration decided to fund Trump's war against God's nation. All means God had to protect the civilian population from bitrubamaton viral killers the Biden Administration claimed for the many gods infesting God's land. When a new administration enters office, God can once again extend salvation to civilians of the United States of America. Neighbouring nations' government on God's land have not condemned their populations against God.

Online commerce with point of purchase shipping its architects dedicated to the gods that raped the Christ. This dedication is why God is abandoning all efforts to secure online commerce.

1956

The Russian Federation God is uniting with, Ukraine, Armenia, Georgia, Moldova, Belarus, Lithuania, Latvia, Estonia, Kazakhstan, Uzbekistan, Turkmenistan, Tajikistan, Kyrgyzstan, and Azerbaijan. This mighty empire, hosting God's ark with her spouse in Vladivostok, will heal all of Europe and Africa. Gibraltar God gives to His united Russia. With the aid of God's united Russia, Cuba is God's steward over the Caribbean and all Atlantic islands.

1611

God is disintegrating the United Kingdom.

A Fine Steward for God's Time

Japan God awarded stewardship over the Pacific islands and the charge of restoring God's Pacific fisheries to His delight. (Feel God's delight.) Cuba will rise to greatness likewise restoring God's fisheries in the Atlantic. The seven seas God is bringing together into two kingdoms.

The disgusting thing against Jerusalem was aliens perverting worship to God. The dip shit Jehovah's Witnesses declared it was Rome. Fools. Rome rose to power with God's hand destroying Jerusalem for the sake of all the niggers in His temple. Pay attention. Japan is not the disgusting thing. They will however move-in like Babylon.

Exile was God's means of saving what He could of Abraham's seed. Slavery in Egypt was a consequence of their having multiple gods and the reason Moses wrote the Law he did to protect chattels and ritual for God. The fourteen generation divisions God states plainly in Matthew. David was able to protect his immediate legacy listening to Nathan. The four-hundred-year cycle is the period that brings God's prophet against aliens. (Listen to God say, mac understands the ten percent that matter.)

Counting to Fourteen

The fourteen generations that matter is the four-hundred-year cycle. The reason Jesus plainly said, "Heaven and earth will pass away, but my words will not pass away." maps to the meaning of heaven and earth.

Earth is the demon Cain courted with his offering. Cain was not dedicating that food to God, not even the Lord of Hosts. Cain went after Earth, the demon passed through Noah in America until mac's born-again grandfather and then to born-again mac. All demons, earth included, learn righteousness because under God's law what they did to humanity means obedience to their parents' word God forces on them.

The worst of the demons are yet to come. They are holding out for God's woman to give them the kingdom for one act of worship to Satan. The turn a stone into bread and jump off a cliff failed. That was the power of Christ's prayers while walking as the Son of Man.

God's Provision Against the Fraudulent Vaccines

The COVID vaccines defraud the immune system because the fingerprint of sin, unique to each DNA molecule, (Hear God make clear, "I call it a molecule.") is the means of building variants in the intestines while handling common objects with desire is the means of transmission. This transmission is why God must lead individuals to buy to save them from creating new variants and to train their immune system to fight the disease. Buying online with point of purchase shipping puts the buyer in a place of separation from their motives for making a purchase. If God is not motivating your purchase, you are gambling your life with receiving worse than COVID. God's leadership to save requires sacrifice to Him.

Outside of the United States and Extended United Kingdom, all humanity may perform a weekly 24 hour fast to God for His protection from death due to COVID. God will use every means you provide Him to save you including teaching you this fast in a dream. Perform the fast individually and at God's direction. When God teaches you His means of protection, it is up to the individual to thank God and be obedient.

If your fast fails, this means God makes you eat within the 24 hour fast period anything other than, coffee, tea, water, non-fat dry milk, and cacao powder, you are not making a sacrifice to God and your nation needs the help of God's prophet, mac Dukes. The prayer to God you need to make your fast a sacrifice to Him,

Almighty God, invisible to Your human creation, Your works You make known to those who seek You. You save me from the sin in my blood through righteousness. Please put me in a place of humility before You so I demonstrate to others I seek righteousness. God of mac, please lead me to the Christ, humanities' high priest and future king. In "Jesus name", Amen.

For Forcing God's Hand

You Don't Use the Lives of Others to Test God

God is forcing the current owner of Buttercup, the pet He forced mac to abandon, to return her to mac at the time of His choosing. This was the only means provided God by the new owner to save Nueces County from destruction. The present owner preferred God waste the homes of thousands rather than preserve even their own home during His promised action. mac will not utter even one word when taking Buttercup back.

Watchtower Bible and Tract Society, a.k.a. Jehovah's Witnesses, God is forcing you to mail Mac Dukes a cashier check for \$6,660,000.00 U.S. dollars with 602693951 on the "for" line. Mail her this in settlement for your role in taking the life God gave her. Mail this check to Mac Dukes 4622 Dody Street Corpus Christi Texas, 78411.

You Know What I Mean

January 26, 2021

How God uses dates (not Medjool). The LORD says, Huzza!

During day's stillness in the small hours with a balmy breeze God swaddles dreams. How does matter travel at the speed of light? Thinking about the relationship between matter and energy is God's puzzle to mac. Among her Bibles is the Chapman 60th edition Piloting and Feynman's commemorative lectures on physics. (Eugene Ehrlich has a place in the Oxford Bible collection as well.) What mac knows is that the Mendeleev placemat she mixes her coffee on is about what is missing.

As mac woke up very quickly her mind went to Star Trek and what it would take for a computer to map atoms and send that to another destination with light particles. Then the thought of what made matter matter was in motion. How would that fractal of a nucleus be mapped? McCoy had it right about avoiding the scrambling of molecules. Right about then it was time to pee. Does a cyclotron in the Southern hemisphere have the same swirly? Bending light in a magnet, God's handiwork. It is

not possible to map atomic particles to one point in time. This is the physicist complement to Jesus illustration of the blind leading the leading blind, just replace pit with black-hole.

Obviously, this is about gravity. Time would not exist without distance. The significance of distance is relative to the bigness of the objects. Let's talk about those dates (not Medjool) and how God uses them.
