

God's Sex Semaphore

January 10, 2021

God's milk [*As in, not solid food.*] on humanity. The evening meal on sexuality and the death of NAVSTAR. The Godly pairing of husband and wife is masculine to feminine. Your wife pie is not in your hemisphere.

What changes when mac with her superpower of taking away peoples' gods from them goes into effect? Do not fear you who drink too much and throw away your spouse's hard earned money at online games, and tinsel, you can still flip God off with the way you live. (Hear God say, "mac might have watched Guys and Dolls one too many times.)

This difference mac explained to Obama and Biden this morning in early conference on l-o-v-e-LINK. The key is understanding that being Godless, as in refusing to seek obedience to mac's God, means that you will by default, covet, steel, murder, fornicate, and lie. It is just that the use of God's technology (the spirit consciousness network) where demons Zen knowledge to their human host is gone.

What No Zen Means

The elimination of the demon from the human, meaning Trump, Biden, Obama, and Clinton (along with all their many children and cohorts) amounts to returning to being human as in of God, perfection. This means that they will need to actually use, words and deeds to seduce new victims without Zen. They won't have instant charisma to seduce or get others to take the fall for steeling and committing murder. This means, gasp, they are required to do their own honest days work for their dishonest dirty deeds and all-of-a-sudden it's just not dirt-cheep. Now you all understand why God would let mac listen to hair-band music. It is the monologue of how the demon network flourishes. Yes, this network does a shit-ton of spying on others. It's okay to scream about NAVSTAR. Those 24 "elders" come tumbling down like the walls.

The Free Market

Sadly, more demons exist for these former aliens. But these newly of God, again, need to go and seduce more and that means recommitting the crimes of their youth to court those demons while God is putting every obstacle in their path as He did before. The difference? The free market. They will all be competing with one another for new gods as the entire world watches them march themselves into jail in the process.

In bible reading there are some contextual keys that will help in sorting out the confusion Protestantism promulgates. It is worshiping God that puts a person in a place of understanding all this milk. (Imagine the solid food with the miracles mac performs when her hand is in Ted's brother's hand. President Trump murdered her husband, Ted, while under Trump's orders deployed at sea.)

Some Keys to the Semaphore Graphic

Masculine and feminine must always be paired in marriage. Masculine to masculine is obscene and feminine to feminine is obscene. Neither can live-up to who their God given

abilities inherent to them. In marriage one is the husband, accountable to God for both in leadership, one is the wife, accountable to God for obedience.

Neither party is allowed to extort, leverage, deny, abuse, and ignore the physical boundaries of their spouse.

All children are raised to be men. All people are classified man, the masculine voice of Biblical texts saying man over human, unless the context is specific to behaviour as mapped. The Hebrews made a sacrifice in their choice of spouse to raise children and be father and mother in marriage.

The Biggie, Man and Woman Defined

The man is the creation of God meaning the one trained by God. The woman is the one who listens to a god, an alien. (The wicked woman is a nigger.) Children are the followers of their parents. This includes adopted as evidenced by behaviour. This means the child you stoned on your sabbath was the one doing your own perverted deeds. Now you know why Jesus said, go ahead and cast that first stone.

How does a non-virgin go about seeking a spouse that is in the Lord? Only God can raise-up an individual to listen to Him among those that fit the criteria of the one who follows Him. All mac had to be was willing to move anywhere to meet him. And guess what? Her only anger is, how many more days am I going to be languishing next door to Jehovah's outhouse?

This is why God calls a male a woman and it is so loathsome a context. It is also why the natural use of themselves is so fucking misunderstood.

man = male or female = arm of an Angel = he or she

woman = male or female = wicked = hè or shè

with special accent, pronounced hæh and shæh respectively.

ביטובה (ITZA) Notes

My requirements are that she not face the challenges of marrying a black male. (mac finds more beauty in black people than white people in general.) He also needs to enjoy her wit, enjoy games, even when he does not win, and be prepared to carry her away from crowds, and provide physical and emotional protection as her security detail. They must be equally satisfied by each other respecting beauty and protecting their ego and vanity.

mac experiences death at My hand, only one other being experienced this and the Christ was not human for that event, and this is delivered to her as needed to fulfil My law for carrying My womb of creation. That willingness to endure this death treatment and sacrifice on her part puts Me in awe of her. Just as a note, mac is partial to Northern Europeans with that schnozz the Frauen boast about. She can't stand facial hair. And body art and piercing distress her. I told her, no hair on the back, she didn't think she cared about that. Needless, to say, but written anyway, short hair with minimal to no sideburns. She loves alpine skiing, golf, equitation, her pets, and needs to strengthen her core for her weak lower back. Her spouse, in My living memory, is intact and twenty-six secular years of age. "Pony" is from the house of Jesse.

That Network

It is fair to ask, why doesn't God do something about this network? He does. He raises up a prophet and brings about the network's destruction. During this four-hundred secular year life cycle born this time with King James' Bible and the founding fathers of America, God searched

the earth and found his righteous to benefit from His acts and protected them from Protestantism. Now it is time to profit.

Aren't you glad you didn't go after murdering God's woman on the network that begged a death sentence? (See God show you the Pope with those spilling doubloons.) Those ten righteous men and teams of God's faithful remnant are scattered between Egypt and Siberia bounded by the Atlantic and Pacific. The United States and extended U.K. are living the consequences of alien occupation.
