

# The Alamo

## *Not A Sunday Funny;)*

---

July 25, 2021

**T**earing down the walls liquidating Mexico. El Presidentes rolled a fat one. Biden makes a play for Catholicism's Day of the Dead over the wall against God's slaves. Restitution means \$30,000,000.00 settlement paid to mac by order of Corpus Christi Police Department prayers of heart. Oprah renewed Cro Magnon women. The birth defect of demonic ugliness that her divination betrays with her own aged face.

Routine really. The border wall is disintegrating. (Biden never thought it was great infrastructure.) And Mexico has declared war on its neighbour in solidaritic hatred of God under the Pope with dope.

Laredo beckons to Houston's Fort Sam of San Antonio along the I-35 Come to Me, Come to Me. From Laredo: South, East, and West expand into the desert and to both coasts. Baja will be prepared with guerrillas in its lobster boats. The Gulf War syndrome is curbed with Red herring. Don't choke on the herringbone.

Understand the Maldonado Landscaping pipeline of underground organised gardening crime moles of Tejas is ready to flank from the North as far as Canada killing all the Laredo stronghold. Kingsville will establish food distribution networks. This network fountain point stems the tide of goods contaminated with disease meaner than delta from Mexico. Curb distribution further shutting down interstate traffic under Air Force supervision targeting fools flaunting stay at home orders.

Rail profits will make Burlington Northern richer shutting the mouths of the Surf liner haters growing trackage with needed between base train tack, not concrete. Great infrastructure dollars there. While Amtrak will struggle for trackage they will still thrive with travelers because of

reduced international travel from south of the Rio Grande air traffic. When the quantity of air traffic supplied is down, total revenue is up with consumers feeling the price increase. After all first class hits the ocean bottom at the same time (roughly) as coach while the supply curve sits the same.

Gulf War syndrome is abated by the Russian navy holding routine operations and testing around South America especially near Easter. Don't get carried away by the gods of Rapa Nui. The Galapagos are not that interesting but Darwin sure passed out some awards from his "findings" and evolutionary discovery. Fornicators earn God's Darwin award.

Dedicating all of the lands South of the Rio Grande and I-8 to destruction is aided with incendiaries and little attention is given for the brush fires from dry lighting worsened by dry hot monsoonal seasons lacking rain. Hail is a boon in this war. The clouds provide cover during misty morning operations while primitive brutality is buried in every crevice and rattle snakes are the friendly natives.

The temples of the ancients, frivolized by Spielberg, are not worth exploring. Burning down the jungle is best accomplished with accelerant. Do not fail to toast Venezuela and Columbia while reclaiming America going Turbo to Solano Bay

Children are trained to lure soldiers to their death driven by the demonic premonition highway. This is a war led by Jehovah to destroy God's armed forces while Biden preaches the value of government spending to make the economy go round merry. Destroying Kamala's Godly contender for the Whitehouse means going Marvin the Martin with his ray gun on the Pentagon through its weakness, compassion for what God has dedicated to destruction.

Lay waste to the land South of the Rio Grande. If it breaths destroy it. There are no fornication free beings South of the Rio Grande. Precious metals and currency may be collected for recycle. These spoils belong to the Pentagon. A slave of God who uses his genitals outside of l-o-v-e-LINK or easing nature will fall by any form of fire God puts the fornicator in the path of. This war ends women in the military. The only place for a Hershey bar is plane wings.

H-E-B markets are Mexico's drug distribution pipeline into America and all perishable trucking ends. All lands South of the Rio Grande to Panama will be forced into a jubilee furlough while the bodies of Mexico's citizenry lie in the killing fields they cultivated with every form of destruction alongside the Catholic church against God's slaves, the soldiers of the armed

forces of America. This war is human alien against human alien and without the Christ you lie dead to be forgotten.

Sarah Ferguson is the apex of feminine, female, Cro Magnon demonism expression. Those that see pretty won't see pretty when it's their child of six that ugly. Ten years old is long lived for children with Oprah's perversion sown with Woods spirit seed. The medical expenses of these young make three weeks of COVID intensive care seem like a Bermuda all inclusive vacation package. Feet expand and walking is debilitated with age hands expand and grow bone like the feet loosing dexterity. Did anyone else notice how Fergie now looks like a Klingon?

Oprah is the other extreme of long in the tooth and wide in the nostril with facial bone mass. George Floyd's ugliness is no accident. It is an aberration of human expression. Being born with the hideousness of demonism scars is as recent as Israel. This is why in 1968 Cro-Magnon man was stumbled on and the Navajo nation struck new happy peace.

The \$27M paid Floyd's family is the lottery the project demons live for. This truth of all these entries is soldiers of fortune die for mammon and train civilians of drug lords how to fight honest solders dying for God. A police officer and an ex-SEAL turned security guard are the same rent-a-cop for Satan. Idol drop outs that need to fight anything for mammon. These use sexual congress to soften their brutality. This is why cops are always screaming their pay checks are too small and the streets need more of them. The hamlet of Colt is the society Woods dumped on America with a culture clash that means bringing soldiers onto base for housing is critical for survival.

Gun slinging extremes of violence will be Corpus Christi's hallmark outranking jealous Detroit. Those that will serve God for a bullet's pay will show up at military recruiters. The gang bangers and basic drop outs will hit the sheriffs office recruitment benches at local malls. There will be no shortage of police officers. There will be a shortage of layers and God will not intervene with local government's bankruptcy over Floydian legislation so utilities can be provided to citizenry. The National Guard in America will pick up the slack. Law and order will be maintained through the Pentagon when governors cry, state of emergency, state of emergency.

"Nueces, you dispicable (sic) mother fuckers will have no informal dialogue with me, MacRae (mac) Dukes. Bring your warrant for my arrest or leave me alone. Mary you process according to law. This note will be posted in its entirety on the Herald, herald.macdukes.com. -- mac"

Thus reads mac's subtle note sincerely posted on the private entry door blocked by the garden at 4622 Dody Street. The demon owning, "sinless", one is the person who tramples gardens. This is human trash. Burn the garden first, then trample down what is left. If you do not have authorisation from God to trample the garden, respect it by at least staying out of it. If you refuse to burn it first, God will be rid of you.

Prayers of heart against the Christ are costly Texas. Make no mistake Mr. Greg Abbott, I MacRae (mac) Dukes am directing this to you and your administration personally. The crimes against my life the State of Texas, Nueces County, and the City of Corpus Christi in cooperation with Presidents Trump and Biden amount to \$30,000,000.00 U.S. Dollars valued to July 24, 2021. Deliver a cashiers check for the amount with the appropriate FED deflator by courier or U.S. Mail on or before August 21, 2021 or on August 21, 2031 I will be taking title by force on every parcel and right within, above, and under the state of Texas projecting to the point of the earth's centroid and out infinitely into the heavens. As of that date all persons occupying and utilizing the parcel identified as the State of Texas in the United States of America on this days writing will be destroyed as trespassers unless they are slaves to God. You are welcome to serve a warrant. Yes, that is a direct defiant challenge against your perversion that We (you being the we of We) fight this out in court should you establish my claims of your demonism with your compatriots is false.

*August 1 and November 14, 2021*

*What military command has for the win. Aim for Christ's kingdom. mac is still scratching her head at how this failed to be posted August 1, 2021.*

The premonition highway is the gateway to exposing all confidential plans across civilian and military units with individuals acting with the apparent knowledge of their enemy: Righteousness. Without being privilege to any source of information Satan's agents being either mammon driven niggers in; uniform, drag, diapers, or spandex: are directed against God's soldiers with the premonition highway. This is not about the walls talking. This could be about the python talking to the gator thence to the militant mule packing heroin who understands in her gut there are God's armed soldiers to the right of her and she needs to turn back then left to avoid discovery. Are these males and females discovered? Yes.

What would God's servant know? "Samuel, wake up." Samuel stirs a little confused the camp is quiet. Samuel registers God stirred him awake. "Now, make your coffee." God directs. "Coffee? We ran out. I would need to go back to the supply depot." Samuel is observing his surroundings and reaching for his gear understanding he is leaving his bedroll. "That's right. Take your gear. We are not moving out yet." Samuel hesitates and packs for movement among the enemy. God continues directing Samuel with quiet words, "Take your personal gear." Samuel packs himself.

It is 0100 and he leaves silently. "Turn here." is God's next direction. Samuel is tense, aware, his cells feel on fire. He has been walking crouched for about ten minutes. His hand is on his fire-arm. He stumbles into a low place and his body hits the turf, thud. He scrambles and while irritated at God for tripping him on purpose his training has him prepared. He is simultaneously recovering his posture crouched to fire. A bullet flies over his head. It would have been a gut shot. His kevlar might not have protected him. He focuses through the forest and fires. The mule falls dead. Samuel gets his coffee.
