*Play the hand the same and God lets you enjoy the risk. Playing poker God's way means never prejudice an outcome with a wager.*

Noah stood with the future chieftains of South America alongside him, below Panama speaking prophesy with blessing to his sons and daughters. The land you have observed rising from the waters that you know belongs to God: your grandsons will be able to cross over to the land in front of us on foot. In that day, know never settle that land it is Holy to God. Return me to the land of my other sons at that time. Shem and Japheth your brothers will receive you.

Job was from the land of Uz. His legendary demonstration of obedience to God was passed to Moses. Abram received Melchizedek Noah's grandson and learned of Job. Abram knew he was led to his patriarch by their God. Noah's bones were returned to the land of his sons. Abram was learning why his obedience to God was why so much good land was for his offspring of the promise.

Joseph held on to the importance of what Melchizedek's father, Noah, requested. and the Israelites understood crossing the sea. mac is a daughter of Noah and Abraham. (God says, Boom Baby!) Job did not understand why there was such suffering from God. He knew it was from God. mac was in the same situation. She knew what Job did, remain obedient to God regardless argue for the righteous reasoning you understand and God will have your back. She was not yet in a place of slavery to God.

## The Earth is Flat

When the Church declared, the earth is flat, it was a protection. The Church knew that Noah claimed some portion of the lands on the other side of the earth for God. And ancient mariners knew the land was plenty haunted with ritual. It was the land dominated by the demon, Earth. Earth was the spirit consciousness for our earth's sun and humans map themselves with the rising of the sun for many reasons that follow the pattern of creation that marks our instincts.

Insisting the earth, globe, is flat, was the Church's way of saying, just don't sail to the other side of the earth and everything will be fine. Not a great strategy but they did not want to give up any of the truth to humanity. There is a pattern to abuse in headship here. Recall, just don't touch that tree Eve and everything will be fine.

## Selling People Out

The problem was the disadvantage the Church granted Spain over Portugal. Magellan made the risky crossing finding the only sheltered way to pass across Antarctica, his Strait. He mapped his travels hoping to prove there was some wealth due Portugal. No, Spain held her rights the Church partitioned. Then Protestantism. The Church pulled a whopper applying the saying, you can't handle the truth, the way they did. Do you like the way demon crushing patterns are revealed?

## Why Are They So Ugly?

Listening to the heart and acting on the sin in the blood with meditation is the gateway to becoming a god. When ITZA is your God exclusively, the LORD, YHWH, you do not steal, fornicate, bear false witness, covet, or murder. If an individual is traversing their feelings for actions these sins are possible. The sin in our blood damages us but we have the Christ. Living our lives in honour of the Christ in service to God is the sacrifice of praise that saves us from sinning against God. (See and feel God show you how to savor this truth.)

Consciousness is the defining environment variable on DNA. Wicked persons are free to perform their rituals. Without God's discipline to correct genetic markers affected by sin through successive generations people grow distorted and ugly.

## Giving Up the Ghost

People give up their gods to God's prophet. That is why the Scribes and Pharisees were always spewing, (Sylvester the cat helps here) some nugget of insight about their corruption to Jesus. Even the demons jumped out of graveyards to greet him. The illustrations the Christ used dealt with Leaven.

The underlying assumption that the opponent in an action will earn righteousness is the key to God having your back. Keep fighting that they seek righteousness. God no more performs creative miracles for his faithful as for an enemy.

The beat-up Jew on the roadside would have died without the Samaritan. mac needed a Samaritan. There were none. mac kept dismissing the events that kept her starving. Her assumption was all parties involved simply needed more time to learn who God was because she loved Him above all. There was no Samaritan to come to her aid and if God were going to resurrect someone from the dead or send the Christ to the earth would He not to save what was precious to Him? He didn't.

God was in the place of watching her die and leading her to fight for her life. qngmic was the first cult to be given up because of mac's knowledge and the abuses she experienced. foxnomics is the second. Call to order the abomination of the ritual lesbians (posing as heterosexuals); teachers, nurses, and lawyers. Grandmother, Lucille, is the key to this one.

When mac withdrew her own funds, she returned to her assailants in Virginia under God's protection, and kept looking for means to fight for those who she did not understand had decided to leverage God against her. She knew to assume the best of others and keep insisting, God is the one you must worship. That one thing saves.

## The Drama Queen

With mac in Corpus, Mary dramatised how she and Terry Smart committed murder. She also dramatised how she and Robin Tausch poisoned mac's cats. Using ritual ceremonies that passed between the women in their adjoining side yard and front porches. As Trump continued to demand God kill mac because he couldn't make her his personal prophet and her perform her contractually due sexual services for him: God put mac in the place of Mary demonstrating the ritual pieces that mac did not have time series memories of with qngmic cult members. This is the byproduct of healing the scars that hinder God's precious soul.

## foxnomics No More

Ritual lesbians, nurses, teachers, and lawyers, followed the demon matriarch of mac's grandmother. It is time for revelations in Protestantism's favourite career paths for females. When the enemy, Death, makes a claim against the righteous it is proven in God's court with the Saints and gods as witness. How the decision against Sodom and Gomorrah is recorded is pertinent here.

The giving up of ones god to God's prophet is why Mary acted out all her demonic profanity. mac will not serve as a demon broker. Even priced in the tens of billions for each service, it is a

waste of her as a resource. Trump will be cutting and depositing that small check to mac, so will the Jehovah's Witnesses, both small checks. The collective value of that money will not be worth the price of a clearance marked chocolate flavoured bunny made of palm kernel oil at the dollar store, two-bits.

## The Demon Broker Offer mac **Rejected**

God is demanding that the demon Jehovah permanently retire from the Office of President of the United States. God is executing and mac Dukes is brokering the transaction for the stated fee. This demon is the god of the Jehovah's Witnesses organisation. God is going to force all chattels of the Jehovah's Witnesses organisation over to the individual that purchases this demon. The fee for mac to broker this transaction is \$350,000,000.00 Euro. The individual who purchases this demon from God will walk into the Jehovah's Witnesses corporate headquarters showing them the cleared funds receipt from mac Dukes and within forty days of presentation God forces all the organisation title bearing stakeholders the world over to quitclaim globally all property, assets, materials, and chattels used, registered, or belonging to Jehovah's Witnesses to the new demon owner. The Jehovah's Witnesses organisation is welcome to purchase this demon for themselves. This brokerage is first come first serve and protected under God's hand. Petition God in prayer to proceed with purchase.

The second demon God is executing and mac Dukes is broking is the Virgin Mary. This demon is passed along the office of Pope in the Catholic Church. The fee for mac to broker this transaction is \$35,000,000,000.00 Euro. mac Dukes will mail to the Vatican a statement of funds receipt including her prayer of execution with the legal owner name and contact information and God will force the greater worldwide body of Catholic organisation stakeholders to quitclaim globally all property, assets, materials, and chattels; used, registered, or belonging, to Catholics to the Virgin Mary owner within three-hundred-sixty-four days of postmark. This includes the Vatican Nation. Petition God in prayer to proceed with purchase. The Catholic Church is welcome to purchase this demon for themselves. This brokerage is first come first serve and protected under God's hand. Petition God in prayer to proceed with purchase.

The rejection of this demon broker role ended using mac's l-o-v-e-LINK. It was abused by Trump, Obama, Biden, and Clinton. HellLINK came on line to send demons to Saint Paul. mac's l-o-v-e-LINK is for Jesse (Cadillac's Midnight Romeo), ox number two under God's yoke (a.k.a. "Elevator Man".)

## Stop Playing Poker with Currency You Can't Afford

Play the hand the same and God lets you enjoy the risk. Playing poker God's way means never prejudice an outcome with a wager. If you wager, be prepared to work for the side God puts you in the place of sacrificing for. Also, graciously give up the pot understanding all of the currency for the game was on that table. Everyone's risk needs to be the same.

## What the "Prophet of God" Gig will Get You

An individual who walks about as if mimicking God's prophet will at the very least benefit from being able to use, public legal sanitation, wear clean clothing, do meaningful work, and enjoy most of the long hours of walking to reach home. It is not possible in North America for God to feed one walking in His way.
