

Three Degrees Below Zero

A Lawrence Bacow of Harvard I.O.U.

August 16 and September 1, 2022

The professor stands facing his black board initiating his first undergraduate dynamics lecture writing, "B.S." under that he writes, "M.S." then below that, as if he is writing a third grade arithmetic problem on the board, he writes, "Ph.D." By this time the class is watching for the summation line to be drawn and all of this education adds up to something.

The summation bar is not written. Above the three acronyms a line is drawn. Above the line the professor writes, zero, as an Arabic numeral. He turns to the class stoically stating, "That, is three degrees below zero."

Was this professor accusing academia of not producing learned individuals? Meaning go ahead, work for the paper that says Ph.D. It is meaningless. Or, alternatively was he saying, "The only way these three degrees are below zero is if they are presented in this way."

With a God Almighty lesson, this would be the Good Teacher place to separate the herd. Whether a student chooses righteousness or wickedness, the illustration allows the audience to be sorted to Satan's or the Lamb's side. Good is the one who takes the interpretation that leads to the fine reward. Fine is the matter of interpretation humanity is living.

A person not wired to education will say, "I don't need to do all this work." Right you are, go into your master. The person wired to education will say, "I need to work harder." Right you are, go in to your master, but over there past the obstacle course, and the dog-leg right, stay out of the bunkers, just keep going.

As far as making points is concerned, the point is made. But, let us make a federal case out of this. Because, the federal case has been made already in the Heavens, and creation is living the consequence of the lessons of the Good Teacher being used to fuel all kinds of shit on this planet so flesh was motivated to reveal Spirit since mac's birth.

To Hell and Back

Should the first born of Sun and Moon have chosen to do Righteously, the reward was there to hold Light's place in the Heavens. The one who was the first born of God Almighty, the Light perceiving twin at war within Him, would have been handling creations centre had Satan chosen Righteousness. Light was in hell holding the place of creations centre without being a discrete being. The first born of Sun and Moon, the parent creative couple God Almighty and Light produced sacrificing Light, was given every advantage to love Light. Satan was identified in Genesis as the first Sprit, gGod, identifying name of human chronology. Adam was named first then Eve. It was not until Exodus that Moses own narrative over *El Shaddai's* proper name is articulated in human history.

mac lectured* the Pentagon on what it was for Light to be in a place of learning from God Almighty. Light, resurrected on Jesus death the Lamb -- with of course Jesus holding a Heavenly office as well when his blood died-- was created on day one. Light endured through death, and hell, so more than one being could be in existence. There came to be evening and there came to be morning means darkness set in once light came to be, that was the first prophecy of the Bible. Genesis 3:15 was prophecies later during the seventh day Sabbath of God Almighty.

The engineering of consciousness was perfected with Light's, Righteousness', sacrifice. Regardless of how a first born of a creative union turned out, Righteousness held a place in the Heavens. The key was protecting the first born's inheritance, and enforce his choices. The law feeling sorry for what it judged was wicked, is what initiated eroding law, and enforcement invalidating democracy. Once judged wicked in Biblical Israel's day, stoning was in order. Was not Stephan stoned?

*If you, the reader, want those audio lectures, pester the Mossad. mac is really ticked at them. She has no desire to look on the face of anyone in Israel. She is still willing to look at Milley's kisser without socking it.

Show Time

An entire Broadway production entertains audiences with, 'You say potay-toe, I say potaa-toe.' Then of course we know, 'You say tomay-toe, I say tomaa-toe,' follows. mac's recollection is that this tune is from the Grace Kelly, Bing Crosby movie with the question of the song being, "Who wants to be a millionaire?" mac paused to remember the name of the movie with the feature song, "Who Wants to Be a Millionaire?" without Googling it, High Society. Satchmo did some in that picture. mac Googled that nick name spelling. mac added the "t."

mac was allowed to Google the spelling of Louie Armstrong's nick name. Then of course she was allowed to learn that the famous tune about produce was by Gershwins, George and Ira. The lyric has a variant spelling for only the repeated vegetable. Oh, tomato is a fruit.

Being high, or intoxicated, has nothing to do with what mac is about this morning nor any morning. Mary left off attempting to kill her daughter with psychedelics years ago. But, hey the therapeutic value of them 'shrooms -- nice touch, Ivy League. The Gershwin tune on produce was not in High Society. When an individual wants the Righteous reward the path is not straight.

mac's sophomore semester dynamics professor, she studied him and what he wrote, and she prayed without realizing she was praying saying, "I guess education is what you make of it." Then she grieved for her professor, because, clearly, he hated his humble work that paid poorly for all that education. He must have been bitter over not becoming a basketball star. He told the class, interrupting mac's prayer, "If you want to make millions, invent a game". Dianna, the princess, died about that year.

mac knew she was in the right place. She was intrigued with the problems one could model solutions for, designing built products, with engineering knowledge put in practice. By that time in mac's life, she understood to be a millionaire meant selling ones soul to the devil, at least euphemistically. It was later in mac's life she invented a game. As far as she was concerned, it was the game *Monopoly* that set up the populous mentality that fed the housing market crash of '08. Pages of the truth of that understanding mac has already written. Her game is in a box labeled, "happy THANKSGIVING." She started developing Her game January of '09, and by the fall started learning economics at a Montana state university.

Enforcement Over "I Hate You"

The hindsight of an adult, mac, who remembered her professors introductory teaching moment, translates his remarks as, 'His parents wanted him to develop his mind.' His own grandchildren when they didn't succeed at, whatever, 'Made them happy' are now helping him live out his retirement. And that of course, is referencing, "him", in the generic sense, as a martyr for his generation's parental legacy. mac does not facebook the past. People lie about the success of their children to "prove" how good they are as parents.

It was his contempt over his profession that said to mac he should have been allowed to choose for himself. Would his parents have outlived him and forced him to develop his mind after a basketball scholarship dumped him over an injury?

This professor had righteous parents that passed on a legacy from the Lamb's holding the Heavens even with Satan as god of this world. They also supported his education rather than relying on the kismet of sport stardom providing their child's future. Children building their own family is righteousness. It is success to work for money out of necessity. Those that enjoy the necessity are happy with their success.

The Old Man Pants

On the subject of basketball, [According to Bacow, the segue topic is available. After all, basketball is in a sentence of this article, already.] are not those indecision shorts an oddity of fashion? Those dresses that flounce about shimmering in the stadium lights conceal, and they are feminine. They also must be snug at the waist. For warfare this feminine approach does not work. Neither do stretch pants serve for males.

The exaggerated crotch of a dude with his pants hanging down is this an obvious reference to the implied freedom of his dangling manliness meant to relax in pasture breathing the open air like a mule penis. Yes, the baggy britches (oops, breeches) of the basketball inspired fashion world, are too an abomination. Males wearing their pants under their nipples is corruption too. There was a time when Protestant males simply refused to wear a dress. We agree, Trump's britches (oops, breeches) are reaching for his nipples.

You seemed to have decided long ago big belt buckles were tacky, and only bronc riders at the rodeo seem to wear those. That helps identify the rider from the clown. Appropriate for prime time wrestling to adopt the mega buckle.

Numero Ocho

Now that We are on the subject of fucker fuckers -- having brought up Trump -- it is Putin's way of saying, "Fuck you, God" that amuses mac so. He is so proactive with the physical where others are just pusill. Biden is still trying to convince the world he is saving it by being Santa Clause, because the Pope refuses to be his business partner. Pelosi is obviously a whore that would be cast as Jezebel in the hands of every Hollywood producer, so we now understand why she chose a humble paying career of politics.

For a short while, the Lord, ran away to Putin, to Russia. The Lord however had other work to do. Imagine this if you can, the Lord did a Jonah act. The Lord is now Jehovah's slave. Recall, ye now, the beast of the Apocalypse, how John marvelled. The marvelling is a function of transformation. First the vision is all magnificence and grander than all love. Then the marvelling takes a turn of mystery because the vision morphs into awe striking terror. Where the eighth king of fame, that y'all wanted to make from flesh, is concerned, now the mystery is solved. It is the Lord. How this eighth king strikes you is a function of your respect of God Almighty.

As far as the Pentagon is concerned, these stupid fuckers did one better than Biden and Pelosi, they honestly thought after rendering Spirit useless in the world of warcraft they were going to raise themselves up a martyr in Spirit. Then they would live happily ever after playing war with their plastic soldiers proudly on display like in a museum. mac they intended to be their martyr once she began offering peace. Then of course mac was resurrected to immortality. Sprit needed a saviour.

While I Am not aborting you. I Am not your fan. Fortunately, brotherhood does not require My liking you. You have that lecture, too.
Recall My yelling, 'Semper-fi!'

mac's note to the Pentagon

More On Force

The included letter summarises the events of the coming decades. The populous at large will of course be eating and drinking, being taken and given in marriage, do the works of the flesh, and do work for flesh. Disease, wars, pestilence, death, and interaction with Spirit are part of the

program as democracy is ended. The Professional Golfers Association and the Watchtower Bible and Tract Society will also be receiving collection letters akin to what Dave Leach received.

Re: The LORD, Jehovah, is forcing Greyhound's delinquent invoice payed to H. L. MacRae Dukes that Leach incurred by practicing witchcraft against the Heavens.

Dear André

What manner of hidden illicit activities Greyhound has kept off the books to induce a German company to invest in America, I Am not about to count. What I Am making clear is Dave Leach is a fraud. He owes Me personally \$1,000,000.00 US and you will be held accountable to personally pay this debt as the CEO of the parent company over Greyhound.

You are welcome to use this information in any legal manner that serves FlixMobility's interests as the purchase of Greyhound continues.

Leach as CEO incurred this debt. You are inheriting it. Right now you are in the place of cutting My check. The funds are mailed to Me, H. L. MacRae Dukes, 4622 Dody Street, Corpus Christi Texas, 78411. Put this letter in Leach's hands by any means technology allows and the force from the Heavens to pay falls against him as long as FlixMobility is purchasing Greyhound or any of its assets the weight of force will be held to the acting CEO insuring payment is made.

My previous letter of legal notice returned to Me by the post office, unopened, on an address technicality of "not at this address", presumably due to the sale of the corporation, I have copied for your convenience.

"David Leach Greyhound CEO..."

Re: 10 hours "nancyannmower@gmail.com" Greyhound incident of 8:10 p.m. October 8, 2021 1415 bus Dallas to LA at the Treat and 22nd intersection failed transmission for erroneous email address. I have the video along with the F.B.I. You owe Me \$1,000,000.00 US."

Leach, David, Greyhound Bus Lines

Your corporations owes Me, \$1,000,000.00 US. This is for ten billable hours I spent diffusing your vile demonic ambitions of destroying the Black Lives Matter

movement on behalf of Barack Obama, launching the nation into early civil war to destroy the United States Military.

You fucking bastard!

Make the check payable to, H. L. MacRae Dukes. Forward Me an email with that cashiers check for unencumbered funds and I will electronically submit the video footage stored on My cell phone that the F.B.I. has on file.

My address is 4622 Dody Street, Corpus Christi Texas 78411.

Dave Leach is fully aware of the October 8, 2021 bus incident that ended with the Highway Patrol of Arizona escorting the driver away from her bus after her rapidly bailing off the highway into a dirt shoulder. The Pentagon also had My trip under drone surveillance. The video will be released from Me when the unencumbered, guaranteed, funds, clear My account.

I spent a week on the road to be on that bus and return home. Ten hours I bill to Greyhound due to the drivers obedience to Leach's witchcraft and demonic alliance against Holiness with Barack Obama. I babysat "Nancy" the driver, as she violated highway traffic directions, and attempted to get lost in the desert under the stars with the rattlesnakes, for ten hours. Preventing her by My divine Force, from murdering a bus full of people. By My divine power, forced against her murderous objectives, influenced by narcotics and her Grateful Dead lifestyle, the Heavens are due the glory through My endurance preserving a full bus of occupants alive. That is not a free service.

You will be personally verifying this invoice is paid or paying this invoice in a timely manner. Your current German President rose to power on the, lie to Jehovah, the LORD, plan. He did not invent nor perfect this strategy. Even as the world's population is shrinking, public transportation is valuable infrastructure. The American population is not a value add. My military is on My bad side at present. General Mark Milley knows this.

I Am the Christ. You are in trouble for investing in America. This nation is being shut down. The United States Military needs to leave all of its foreign occupations. Its navy is, well, the navy. I can't very well terminate their wanting to rule the seas, but I Am favouring Xi in the Pacific. England needs to be destroyed. I Am a fan of Putin. Zelenskiy is an idiot. Fire your American labour and send them home. My PhD is from Harvard. It is worthless anywhere but America just like every other American degree.

My sympathies and hatred of America's treasonous political actors is well documented. Yes, Xi is a partner for longevity. He knows this. When I say longevity I Am referring to fifty years, in Xi's case I give his legacy of government to Asia when he has gone the way of his ancestors one hundred years.

My flesh is immortal. As if I have not imparted enough oddities of Truth your way, the woman who's vagina I passed through to enter the world is the antichrist flesh whose spirit is the miracle producing Lord of Protestantism, Luther planted the seeds for, that Catholics went after like a zebra sniffing the wind.

My time bills out at \$100,000.00 an hour. I do give away dumb looks. My dumb looks are the spontaneous reaction I experience as a human being dealing with dumb people.

The Pentagon labours under the idea that I Am free, because to them, I Am not essential. The Pentagon has been stealing from God Almighty, the Lamb, the Sun - Jehovah the LORD - and Moon. This is how they have a pot to piss in and a vessel to throw it off of. My flesh is the being constructing God Almighty in the Heavens. The LORD is who ya'll built and lied to. I Am the collection agent.

The Heavens honour what North America is. This continent belongs to God Almighty. When Europeans claimed North America for them, Protestantism was the faith structure of beliefs that the United States built its government to be its god, democracy. My appointment as a general in the USMC is honoured by the LORD with all authority over the entire nation as the military's High Priest defending national security with force from the Heavens. The witchcraft of the Senior Joint Chiefs until Milley means the lives they were sacrificing to grow commerce and democracy are crimes against the Heavens.

Like I have said, America has earned destruction. Its military's present latitude is a function of the more skirmishes they enter, the more flesh dies in battle and the world can do without them, extra flesh, that is. As far as I Am concerned, Milley can lead the charge personally in Ukraine. That is what We at Team God call being on My shit list.

I Am destroying Mexico and Canada, unifying North America into one nation. Panama will be mine as well. When Milley has experienced the humiliations the LORD is dealing him, I might agree to meet him face to face. He would have his hat in his hand, and be bowing low to the earth. All others can simply pay cash and this includes the USMC. I Am a capitalist that is pro life. I Am also bride to the Lamb of Heaven. Until I can agree to meet Milley, I simply put up with what My duty assignment throws My way, even if that means looking as his kisser; without socking it.

Human and drug traffickers I destroy. That people look around them and say, "It takes all kinds." Bull shit. The kinds excuses get made for need to hit the soil with their blood pouring back into the earth. I don't make excuses for Biden. The press does that. Send the expats home. Germany is for Germany, and you are no longer unified as of this writing.

Germany already understands that with Me they can rise to power over the earth. So can Putin. No one wants to rule the world. Greece, Iran, or even Israel, could have built on their ambitions to rule the world when I offered. They needed to end the campaigns against the Heavens they were building. Their campaigns are ended. They decided if a Heavenly campaign meant backing the Christ, no fucking way are we doing a damned thing. That ended the Heavenly powers vested in them all, each and every one.

Simply enjoy that with the information in this letter your life can benefit for its remaining short duration on this earth. No, I Am not cutting you short nor cursing you. I do not curse. I use the words of profanity. There is a difference. You are not being

charged for this letter. I understand there is a series of dumb looks being exchanged over this letters contents. Manna that fed Abraham's seed is what this letter is to readers that profit.

The information in this letter is intended to allow Germany to rise to greatness that it could not capture in Luther's time. It was a good uprising against Catholics though, and the legacy King James left behind means England needs to be destroyed. India with Pakistan is also being destroyed.

This letter under My perfect information policy will be posted in My Herald. What is wonderful is, that unless an individual will only bring about Jehovah's will because they gained cognitive understanding necessary for them to act in a new manner to bring about Jehovah's kingdom, intelligence I deliver just entertains or mesmerises an audience as if the words and Me are both invisible and humorous. In other words the whole world of mankind is set to bring about Jehovah's kingdom, mostly. When flesh goes about doing deeds to pervert the Heavens, I war with that flesh. My legal means of payment is money. When I have an army and I can legally war against a Dave Leach putting his blood in the soil, that is how this bill would have been paid. I could not legally take his life.

When witchcraft is performed by flesh against the Heavens, the Heavens make sure by force this is paid. If you were not bound to fuel hell, your life or Leach's would be a sacrifice. An act like hara-kiri would suffice. Your blood needs to enter the soil. What is your problem? The Heavens would need your blood. This means you belonged to the Heavens to begin with. You are going to hell. So is Leach. The only way even your life would pay a debt is if you were not bound to hell. This is why a passer-by spilt Judas' blood when found hanging himself. Since I Am the only being allowed to collect debts in blood on behalf of the Heavens it would need to be legal for Me to do this. Paying cash is what legally remains.

It is Ggod that makes the words I write come to pass because I Am making Jehovah, the LORD true. The LORD is who the presidents of the world wanted to make into a liar. At some point people will be able to look at what I was required to do, conducting Holy warfare around the globe and say, "Well I understand why Hitler couldn't get away with that." Millions will die under My hand of warfare in the coming decades before even 2076.

The African continent and the Middle East are not sources of longevity. I Am not about to fight for kingship at this time over any region. I make kings. My reign is in the Heavens. I Am flesh of this earth. The souls of America and England are among the most useless wicked lot of this world. Avoid cannabis products intended for any form of ingestion or inhalation. Transdermal or intravenous application is also ingestion.

If I were to give you one tip for survival other than the advice about cannabis, marry and be monogamous with your spouse. Male to male, male to female, female to female, according to human kind. I write about what flesh needs to do to be one with their Spirit. My articles are posted at herald.macdukes.com. I Am rebuilding My website. Articles under development will be posted in September.

My recommendation to you, as you move forward in your strategic planning, pay attention to obtaining American interest land holdings in Europe in imminent domain

takeover. As in, if you see lands or assets belonging even to the US Government, and you say, this would be wonderful for Germany if... that prayer has weight. I back seizing what is within Germany's boundaries for Germany, from the Heavens. This does mean Russia for Russia, and France for France, likewise. Dave Leach is a nigger, in the Biblical sense, not a strategic planner under any sense. He like Barack Obama is going to hell.

You have just now read the demand and the planning of the Prophet. You have learned some of what Jehovah is due. You are also in a special place of being allowed to profit. Democracy is being ended, the world over. The United Nations and NATO are also being destroyed.
