

Two Shots

February 2, 2021

What is required of us for our protection.

The reseeded heavenly children of God are restless in their places anxious to demonstrate they are knowledgeable in wisdom, and doing wickedly will accomplish righteousness. The garden is ready for Adam. Satan approaches God boldly with His argument reincarnated against Job years later.

"Look at everything you are giving to Adam. He isn't going to do anything against you. You haven't disadvantaged him in any way. All he is being given is a good life. How does he protect himself and understand he needs to work as hard as we do?"

Satan

God assesses Satan's conclusion that Adam has been given too much from Him.

Satan continues,

"Adam needs to work for good things not have them handed to him."

Satan

Satan has just made it clear one has to work for what is good. God agrees. Then poses the question to Satan,

"How do you go about making life work for what is good?"

God

"Obviously, he needs consequences."

Satan

God lingers and asks,

"What is the consequence he needs to face?"

God

Satan is impatient and declares,

"Death."

Satan

God planted a tree of life and a tree of the knowledge of good and evil. God taught Adam what the trees fruits were for. We know that the Christ was angry at a fig tree when he approached it hungry. The disciples recorded the tree had no fruit, it was not the season. The Christ they recorded as approaching the tree and then cursing it. Satan used one of her measly visions stunts against the Christ to get him to take her theatrical fruit. Jesus was showing his disciples how to avoid having an ear full of cider. (Marlon Brando in Guys and Dolls helps here.)

Adam and Eve knew what God looked like and Satan chose to disguise herself. Once sin entered the blood, God's creation felt shame, sewed fig aprons together, and no longer able to see any deity they worshiped.

Perception is based on the God or god one chooses to worship. The trees were identical in foliage. The fruit on the trees was visible only under the power of understanding, it had to be seen with the eyes of faith until sin entered the blood. Once sin entered the blood the trees fruits were plainly visible and the tree of life had to be protected. Eating fruit from either tree was a demonstration of faith by the eater.

Why Curse the Fig?

The fig was withered in honour of the shame the people had over their genitals and the male-female discrimination and confusion of man and woman among those perverted with demons in Israel. Why did mac call that fruit tree, perhaps a fig, scabby in Eden? Because that nasty fig had no visible fruit on it when Eve fell for a measly vision stunt to go after what she couldn't see unless she was listening to Satan. She sure worked hard alongside Adam when expelled from Eden.

Amos was a nipper of figs. That humble occupation was noteworthy to the Hebrews. It is very likely a fig was the topiary tree.

How the Thousandth Generation is Rewarded

Elea'zar marked his gametes with righteousness and earned priesthood for his offspring acting in justice for God. When individuals serve God righteously their gametes are branded with jealousy for righteousness. Male shot one, female shot two, from both winner winner. Parents that chose wickedness brand their genetics the same way toward wickedness. In pondering genetics recall that Eve was built from Adam's rib. It was their consciousness within their environment that individually marked the DNA in their gametes for offspring predisposition.

God was put in the place of having to teach people the knowledge of good and bad for them to learn righteousness. Only calling on the name of God saves a person's life. The clues needed to learn His name were more than mac began with. Starting from the name Jehovah mac learned the name of God. That was her commitment to righteousness that saved Israel.

Salvation from God comes because He has taught an individual His name. You get anything in the name of the Christ from God because the Christ taught you his name when you met on earth and were a servant in his kingdom. A wicked request would never be made. All righteous requests are granted. (Hear God and the Christ explain, no shit Sherlock.)

Seven Seas

Paul and the apostles were writing the shutdown letters for a church to exist, with some moral dust, for people's survival until the birth of God's woman. She the forerunner to Christ's earthly kingdom sowed seed to make evident who was following demons. It was obvious to the apostles that God was not leading the people asking them for direction. Ingratitude over the price of a meal is the big clue.

Breeze through Revelation. When you ogle the beast rising out of the sea with ten horns and seven heads understand the sections read this way, Satan gave her power to the Catholic Church. Then that beast with two lamb like horns speaking like a dragon rose, Protestantism. It exercising authority over Catholics with commercialism until the Catholics were little more than an image of their former self marked with gluttony and driving commercialism. This perversion is falling to make room for the Lamb.

The Mustard Seed

One prayer has the power of the ages to move a mountain from here to there when you understand the lesson God was teaching while you were acting in faith. Death is not a teacher for life and the scales must be balanced so that no one in the system is disadvantaged. Death gives the wicked a scapegoat.

Pneumatic Tools

mac fought her way through school on student loans and fighting for honest work against her mother and grandmother. They refused to honour the qngmic pact that mac knew nothing about. To them keeping mac in a place of stupidity was their leverage against God. They put young mac in the talent pool of drugged sexual performers and then in disadvantaging mac's education at every opportunity they were confident mac would never fight to earn a college degree and they pocketed the money.

The St. Joseph aspirin Mary kept on hand to palm the two-dose reward wrapped in vacuum sealed cellophane resembling Dulcolax packaging. She only needed one full service to learn the ropes. Trump, this is called, nailing your own coffin shut with a pneumatic framing nail'r. Did you like how God called you a nigger?
