

September 19, amended September 25, 2020

he humble dog tags. These tags are a covenant, like two stone tables with the ten words of God. They bear the name of their owner.

Rectircles

Metal tags with no distinction, not much more than an ounce. Rectangular squircles with little sheen. The humble dog tags. These tags are a covenant, like two stone tables with the ten words of God. They bear the name of their owner. How many ways did God find to show those that gave or signed their life away for more than their own interests that they had His r-e-s-p-e-c-t? (Hear God spelling that?) How many tags lay missing in the killing fields of the land? God knows every-one. (Feel God's minute of silence.)

Humility

What do you name an animal that will forgive even an unjust beating from its owner? Name the animal that after Laura's terror, chained in the back yard, with no water and only an annoying bark to draw attention that needed volunteers with chow and chains, d-o-g. (Hear God spell that.) Do not forget to put a price on what being humane means. Evacuees have pets. What happened to them? Do you remember the bloated tipped cattle along the I-10 after Laura? (God says to the bastards that don't, You are not worth a dog tag.)

Do you understand now why the one that tagged Himself with stone chose G-o-d? Satan hates that title. Satan prefers, "Jehovah", "Dagon", "Moloch", "Pegasus", "Adone", "Venus", "Buddha", "Allah" (Ah, what a "title".) None of those names bares a mark of humility like d-o-g. (Get it? --God.)

Documentation

God asks, Do you have your papers? Birth certificate, record of live birth, marriage license, decree of divorce, diplomas, examinations records, social security number, passport, and lastly, who will file your death certificate? Have you written a statement of governance? mac wrote a governing document titled Cornerstone it was the governing document for the MacDukes Corporation that I made her abandon to solve problems for Me. She filed it under www.macdukes.com/documents/march-31-2018-legacy-cornerstone.php. MacRae (mac) Dukes I took into My service April 1, 2019. By a year later she met two U.S. Navy men in My service. June 24, 2019 she left Denton Texas for Washington D.C. traveling I-68. (She still expects Me to take her to the Bible museum.

"Integrity, tenacity, and tolerance will govern Mac. All employees are expected to conduct themselves with integrity throughout all aspects of their life. The company as a whole will work as a tenacious unit to complete every project in a timely manner. We will strive for perfection understanding that we are in an imperfect world and tolerance is necessary. Integrity shall not be compromised. The complete definition of how or values are applied is defined in "Tactics". The values vin diagram illustrates the optimum, central, decision."

Cornerstone

The stunning component of what the MacDukes Corporation built was the "Value Chain" with its "Corporate Metrics Marix" (sic). mac further defined this matrix with the "GolfBUD" application (her first app) that illustrated on demand metrics in a golf application. I buried her. I could not loose her to building a software industry especially with the creative endeavour that will fund Christ's kingdom in her file drawers. She is owed many fortunes. She will enjoy them with My blessings. The GolfBUD code is written in objective-c and includes the Apple Watch app, www.macdukes.com/documents/golfbud.html.

The wise understand the value of ISO's quality metrics. mac understands how to derive these from every environment. She is a computer modeller who sees how actions translate to values.

That Best Friend

Dog, yep, man was going to need a best friend. Before you get-lost in the combination, understand, it is a permutation of the ten letters. One with wisdom understands what the letters of the words mean. A little semaphore is good here. (Notice God waving flags.)

A possession, like owning an animal, is in a special place of needing protection. Forcing abandonment comes at a price. (God says, If Buttercup is not returned to mac I am wiping out Nueces County. How this is fulfilled is an example of one of two remaining means of prophetic fulfilment. mac is grateful for keeping Wesley's company. The pair of pets I gave 9 furlongs.)
