Why you love God's game and bowls of wrath for the PGA Satan's poster child fornicators and drug traffickers.

It's time y'all understood that demon network. It is why in service to your many gods you broke the ten commandments, had no ability to practice Christ's two summary commands, and defiled the game of discipline God had with His men. Golf God's way, is critical for preserving humanity from Protestantism's perversion.

GOLF Protected by God

The collared shirt dress code, honour system, holding ones liquor, a sober mind, and personal discipline to achieve par, are all God's hallmarks for growing leaders. God's leader, mac Dukes, pierced the ear of the Lord of Hosts, a.k.a God of gods. She did this by not settling for par of this world.

Introducing the Lord of Hosts

Every sacrifice to, and seeking of a sign, from demons is known to God. It is from the heart of an individual that they appease and court demons. Reading the heart and watching our deeds is how God knows who we serve. Every individual who ventured into the demon network God gave the opportunity to pierce the Lord of Hosts ear. What was the requirement to pierce the ear of the God of gods? Fight for righteousness even when the Lord of Hosts was acting as your own worst enemy to destroy you by the demands of other gods. This meant following the leadership of the Almighty God exclusively.

Abram and his offspring, did not pierce this god's ear, Israel lived so many challenges as a result. Ear piercing was the event that marked an individual a willing slave to his master. God's technology is under assault every time a human uses the spirit consciousness network. This network He constructed for His spirit creation to exchange data, communicate, with the physical body created of that spirit being.

Profaning the Christ, Bad Shit

When you listen to the true God, same as, God of the Holy Bible, God of mac Dukes, God of Jesus the Messiah the one who is the Christ and humanities high priest, (not to be confused with the "Jesus 2020" politician HEY-soos from Mexico you will regret,) sinning against God does not happen. Sinning against God unstopped means receiving a relationship with demons to become one's own god. Becoming one's own god, a human uniting with a demon, is against God. That is not a more perfect union. It is perversion invalidating the ability to live Christ's morals.

The Idol You Don't Understand

These gods obtain followers that on God's network, just like living on God's earth, demand obedience. In the days of the classical world people often created statues for the purpose of idolatry. This was in recognition of the individual who was demanding acts of worship to their alien existence. The individual served as the priest of the god they represented. Still worshipped in some cultures, these gods, unlike Nebuchadnezzar and Stephen F. Austin, took on mythical characteristics.

Worship is why God is not doing one thing to preserve the statues of the the founding fathers of the United States. The worship of government itself is why God is not interfering with the mayhem forces from destroying His property. God has a mighty-armed force of iron to rule the United States.

The Unbalanced Scales of the More Perfect Union

Some gods require orgies of mass masturbation and sexual exploration of another individual. Virgins sacrificed by live burning, infants burned at alters, violent sexual penetration with sacrifice of the virgin child, the zeta class of bitrubamatons demands of its followers.

Government has laws against individuals performing these brutal crimes. The problem is that this brutal crime is as much against God as the crime of Oprah Winfrey becoming a billionaire using the de-mons she earned through murder, sexual predation, and consumption of foreign to body blood, while bearing false witness to get away with her crimes. All these acts this woman performed concealing her-self as an angel of light to the world abusing the Christ to become filthy rich.

No, Oprah is not the only witch in this category. The Kennedy legacy is just as filthy. Of course, you can list the heads of the world's corporate conglomerates and skyscraper builders here too.

The reason the Christ made it clear that with God all things are possible after stating a rich person is not likely to enter the kingdom of heaven is because all things God made possible in the Garden of Eden. The knowledge of good and bad is what put God in the place of powering the world Satan demanded. The Lord of Hosts is the god, God installed to give every demon seeking person the opportunity to become God's woman.

The filthy rich have lost their network. In honour of these filthy rich individuals exchanging money over the internet, God is not doing one thing to prevent the destruction of online commerce. Online commerce bitrubamatons and their mules built on sinning against God for Zen knowledge demon's deliver to blank minds. Online commerce is a use at your own risk super-highway of thievery.

God's law does not permit unbalanced scales. Since serial killers do not go free, the killing of Sodom (you can substitute Oprah here), does not get to keep the demon they profit by nor is anyone allowed use the internet to exchange money. The internet is for distributing information. This includes advertising what an individual sells, the work they perform, or their inventory. Kudos for open university.

It is simple, there is no longer a means of profiting by sinning against God because of the commitment to righteousness of mac Dukes. The filthy rich are not willing to give up their perversion, serving time for their murders, and lies, to be wealthy against masses of individuals that follow the rich. They also will not pay reparations to all of the families whose children were sacrificed to the serial killer god in the neighbourhood.

The PGA and LPGA are Bitrubamaton Brands

Kelly O'Donnell, your debauched endeavours attempting to murder God's ark on the demon network of bastards including club members Dick Dinan and Jeff Bremher, set yourself as an enemy of God. When the PGA and LPGA aligned themselves with you, they emphatically declared war against all that is Holy, the Almighty God.

Yours, Kelly, will be the most worthless pension the world over, never to be restored. Kelly, not every minute of your prison sentence for human trafficking will be unendurable for you. A

conjugal and choosing a woman that wants to marry a man serving out his life in prison will help here. The Hyatt regrets empowering you. mac, God, put in a place of humility when she attempted to see righteousness in you during her training rather than understanding now what she does, that Samuel had no difficulty hacking king Asa to bits.

You Mr. O'Donnell, represent fraud against all that is Holy and you are the satisfactory product of Texas Christian like Jason Chilton. None of them will be saved by their god, "Jesus". You profaned the Christ. This is a declaration of war against every individual that profanes the Christ and fails to acknowledge the Christ's divinity as high priest and eliminator of all sin. You Mr. O'Donnell represent the worst of the fuckers. Fucker is a technical term for Satan worshiper under the name designator Jesus who uses God's discipline and recreation with His men for perversion.
