***H**ow the banking collapse you orchestrated with Mary McRae in America works to end America's narcotics. This will stick to Markle and Zanoni in criminal court. You simply did the witchcraft -- you clever devil. (They kept doing the work with their dirty hands.) To avoid this the Jehovah's Witnesses would have needed to pay reparations, damages, for going after murdering Me. Of course these fuckers were not about to keep any such promises to God.*

Abbott the wheels of change -- the criminal deed you performed binding this witchcraft will put you in criminal court.

This is My latest epistle in progress. I was interrupted by Trump's insistence that Heaven held no authority to unleash climactic forces against his land developments. Obviously an evangelical like Trump would realise the need to protect towers that rivalled ancient Babble from Heaven for people doing shitty deeds. Right you are Trump. You certainly needed insurance. What was your fucking problem nigger? (For the purpose of this interruption you and Abbott are a one-some.) I was required, by the laws of your sex cult -- qngmic -- to earn a living. You refused to uphold your pact. Enter your gatekeeper, the welder. Awe, isn't this special?

You see, as a combat engineer I can test and certify welds. When you Trump were required to pay-up, and did not, the gods were required to make sure I would earn a living, as in receive remuneration -- money -- for My abilities. You Trump had a second problem when you took away My means of earning a living, Spirit was no longer allowed to protect your empire. Of course so many others were experiencing the positive externalities associated with the pacts you made so rival developers could become rich too. So be it, the wind was indeed at your back, as we mariners like to say.

You lied yet again Trump. What is worse you did not even take simple steps acting on your faith over the pittance of \$640.00. Mark E. Gurgevich deliberately reduced his fuel in producing his welds. This of course means the strength required, that is developed softening the steel creating an amalgam at the joint with the solder, was insufficient. Mark reduced his fuel meaning he took more time to apply the same weld and did not develop the correct strength. Your gatekeeper, Trump, practiced criminal negligence in his duties. He even boasts how valuable his welding certificate earned at Del Mar was. What is more had he been honest in the performance of his job that would have been the insurance you needed. You of course do not have that. Say bye-bye to urban life as you know it, over, shall We call it a nail?

Abbott, the Texas oil industry is going to feel this one. They use welds too.

Getting back to the stated matters in My introduction, failure to move Me to Israel to sack Jerusalem means Ham's Baal [Think Noah not spiral cut jack ass.] is now acting as the rival to the LORD across all North America. This was the importance of making room for the LORD in the United States Military. Of course this Baal is not about to preserve flesh, nor tolerate making room for the LORD as a rival. (That is the exclusive devotion bit in the Ten Commandments.) What is more, without the LORD being made room for in the United States Military this meant all powers driving consumerism that the LORD was holding from the founding of Jamestown, powers increased by Puritans to support all the deeds flesh worked to grow the wealth that comes from commercial enterprise, means commercialism's global appeal from American corporations, now belong to, you guessed it, the Baal. This means the collapse of the Fed because selling debt was a no-no unless fornication ended. There is a yada, yada, yada with this because the expiration of all of this was, again you bright boy, July 1, 2019. Sure, you can call Me slow. What lessons have you to share with Spirit lightning?

Let us get back to America the Beautiful and all those veterans of the armed forces of America. The Baal is raising up these as her army of flesh to defend and conquer for the American Dream, home ownership, they are owed.

Fucker, I lived all those hits against Myself that you laugh your ass off over, because nowhere in My flesh could I make room for failing Jesus sacrifice. What veteran is going to rape, slaughter, and cannibalise you for the Governors mansion? Perhaps a Hawaiian. She might start with your ear. Nibbling it, that is.

Mahalo,

Dr. H. L. MacRae (mac) Dukes LTG USMC
