

Afterword

August 10, 2020

"Mirror the Jehovah's Witnesses...call me the true God, make that "T" a capital."

God to mac

"A capital "T"? Really? That doesn't seem right. You really want that a capital "T"?"

mac to God

"Yes, Sweet Pea, just be obedient and write what I ask."

God to mac

Sticks and Stones in the Dust

On July 1, 2019 the domain www.thetruegod.info was obtained by mac Dukes and went live July 2, 2019 with the first three herald articles. At the time she was scratching her head about creating a god called True God. Isn't God true by virtue of being God, reasoned mac. There was a reason for the idolatry created. God's name is powerful, more so than His ark. The name Jehovah has no power. This afterword reveals the hindsight of what God needed accomplished and only His ark could endure and obediently deliver the chess moves God required. August 1, 2020 www.thetruegod.info went offline, www.macdukes.com remains.

Dog Paddling Edited

God learned from, Protestants, Jews, and Catholics not-to-mention the new age philosophers choking on Satan's wood, what sentences they would receive. The Jews and Catholics God expects to return to Him. People will filter into and out of their halls. But they will be a one tribe kingdom, again, teaching God's truth. These will be joining the Christ in teaching humanity true religion. The wood, stone, and dust of Satan's tribes will still exist because sin is in the blood. Christians, followers of Christ, will be united and live the rewards of serving God.

When mac Dukes set up an idol that mimicked the garbage of Satan's world, mac wove truth with the falsehood. The reader can decide if truth was in the weft, warp, or both. The falsehood was a function of mac's ignorance. (Hear God say, "mac lived with some serious rose coloured blinders across her field of vision.")

The *Dog Paddle - Tender Herald Series* is revised correcting the dust that mimics Satan's Protestants and what became of Judaism and Christianity. Recall God's promise to the thousand generation of His faithful?

The Sentence

Five individuals identified themselves to mac as seeking to murder her. These five named the sentence their kind would receive from God. A Wells Fargo branch manager in Corpus Christi Texas, Lori A Taylor, A Corpus Christi school teacher at Kingdom Elementary, Robin Tausch (and neighbour to Mary McRae), an elder of the Jehovah's Witnesses, "Brother" O'Neil in Corpus Christi, an attorney in Bozeman Montana, Amanda Knuteson, and Mary McRae, mac's mother, have their sentences. mac promised her mother she would never join in the finger pointing against her.

mac, God stripped of her robes for the false god she created. The Sharp Hospital thrift store received them all as a donation. She also endured 28 days without a bowel movement during the deepest period of famine. She went from a size ten and 193 pounds to a less than a size zero and 123 pounds living a covenant with God faithfully that ensured her survival and the birth of Christ's Kingdom on earth. (mac's biggest disappointment was learning that she is the Christ -- the MEGA fulfilment -- and she is the High Priest to the Pentagon.) Now, she is a U.S. size one and like every other woman, she is not about to tell you her weight, or bowel movement. (mac did have "age" listed then realized she ended up sharing that rather freely when talking to people.) What mac suffered was no worse than what Nazi Germany did to the Jews. Then understand, when only one thing is available, say manna, then that one thing God's servant has for survival with knowledge He loves them and is caring for them.

You Are Not God

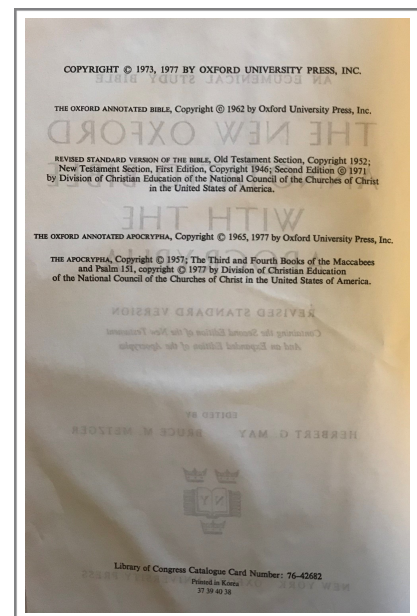

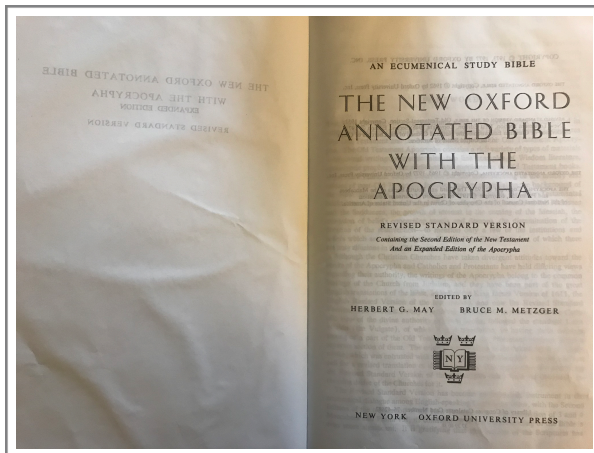

In mac's prayers and address to God she uses, Job (as Iyov), YHVH (as Yahveh) and I AM (as Ehyeh). In dialogue God has repeatedly said, "I hate that 'j'". (Evidently the "w" in connection

with God's title he doesn't care for either.) In mac's love letter from God collection, there are an equal number of King James Bibles as any other. Oxford is the publisher of choice and she has a motley assortment that includes, Holeman, Gideon, Tyndale, and the Jewish Publication Society. She tells everyone, get yourself an official Catholic Bible for reading and to do God's Daily Verse.

You can find mac on Norfolk's Waterfront Drive and God can tell you what He hates Himself. He loves every human and that His ark came through her operation Target assignment. No, mac cannot tell you why she keeps mac lowercase. It is a convention that God asked of her. Pay attention to her attire puns. (God helps her dress.) That Target bag she carried was no lie. She particularly loves her *Victory Rover* hat. (mac has tossed that worn out rag, and she typically wares her USMC hat.)

Bibles and Homework

The Bible of choice recommended by God is from Oxford. The title pages are illustrated.

Our convention is to identify the King James Bible as the Jesse James Bible. This stands. The punitive and vindictive cold-blooded obscenity against all that is Holy obscures God's truth. King James' scholars gravelled the dirt road for Jehovah's Witnesses to come along with a shit ton of asses at fault. Yes, shit ton is a technical term. It goes with "I hate that fucking lizard." True God and mac is the authorship credit of *Herald of the Fine Shepherd*. mac does not write

without asking of God first. Test out who MacRae (mac) Dukes claims the true God is who inspires her writings. God will tell you who she is.

When articles discuss Bible anecdotes and prophecy, find them in your Bible on your own and read them. An electronic Oxford Bible is a solid reference and free for electronic readers. Use the search function tool to find key words and names. Start digging and tingle when you find those proofs. Building your relationship with the true God starts with education and your prayer to God in "Jesus name."
