

Cut, Banded, and Roasted

January 16, 2020

Nebuchadnezzar's tree has multiple fulfillment periods. In the "time," the second part of the "times" and the "half-a-time." Greece and Rome amounted to the same empire in the true God's eyes. Neither was His agent like Babylon.

Babylon dealt with Israel and Judah's inability to provide government. Medo-Persia was the great silver empire, breast, rebuilding Jerusalem. Its walls, then house of the true God.

Good shepherds of the earth this cannot be stressed enough, voluntarily join the Fine Shepherd. He is calling His sheep bringing about world peace. The earth is ready for Christ's Kingdom when the true God is satisfied that His prophecies have been fulfilled by His definition. Oh, Christ will ride in and bring about destruction of inequity in government but that is upon finishing off Gog and Magog to make way for the true God's, Fine Shepherd's, Kingdom at the end of the "half-a-time." Christ has mastery over Sheol, death. Sin with death is wiped out last.

Where in Time Are We?

(God says, "Are We there Yet?")

The seven weeks of the "time" have begun. The "time" is winding to its end. Only seven weeks remain. The rebuilding of Jerusalem on earth is certain. What king or president would not want to boast of being the agent of the true God as Cyrus did? Greece and Rome, bronze, have Jesus death and the sacking of Jerusalem to their credit.

To date the iron legs include what supported Satan's prophet and beast that exist before Christ's Kingdom arrives. Hence the iron and bronze band on the tree. This dream applies more than once. In one application of the dream those feet of iron and clay exist in the second part of the "times." The first part of the "times" arrive when Christ is installed as King over the earth

and assigns princes to rule. Don't you want to be one of those princes as Daniel was to Nebuchadnezzar and Cyrus?

America, Want Help?

The true God's Word is issued. (Same as the work is done.) Be a part of His solution. He rewards generously those who prove their allegiance to Him. America, we claim to be one nation under "God," and we represent all the kingdoms of the world within our legal borders. Defending our boundaries for legal entry is necessary. If other nations want to reform America's laws for citizenship, they sure can.

A bill and a lobby. I guess that's so much more red tape than invading the U.S. with drugs and trespassers. They sure save money on printing their own dollars. And their own citizens are too poor for their own labours. I guess Henry Ford was just a crazy fool to his southern hemisphere neighbour. If El Presidente does not like the editorial, he needs to understand the warning. Governments that treat their poor and their neighbours abusively God deals first, the whole world over.

For the Barbecue Crowd

If you are thirsty for vengeance to arrive as fire and brimstone raining from the heavens, realize why Sodom and Gomorrah received the verdict they did. Something to note. When the poor are lent to treacherously and they cry out to God, He answers for them. That is in His perfect law.

The true God was listening to the cries of the inhabitants of those two cities. Abraham absolutely refused to take so much as one shiny penny -- lace of a sandal -- for defeating the king of Sodom's enemy. Sodom's king with Gomorrah's were notorious thieves in the true God's eyes. God destroyed those cities because the poor were crying out to Him.

All of Canaan was full of Ham's offspring. Their lands promised to Israel under sword. Abraham learned it would be his son's after refusing payment from that corrupt king. That king was not going to boast that anything from him made Abraham wealthy. There was no need to make a special example out of those two cities with a fire shower just for being immoral. These were all the offspring of Ham to begin with. That curse was set.

The Smokescreen of Satan

That homosexual business is a religious smokescreen for the real rage of God with Sodom and Gomorrah. Lot was a righteous man that cried out. His chattels competed with Abraham when he settled near Sodom. That king defrauded Lot no different than the rest of the inhabitants of the region. Nations that abuse the poor, building poverty, you have just been put on notice.

Predatory fornication, rape orgies in the town square, and marriage ill regarded defined some of the inequity of Lot's city. The men engaged to the daughters of Lot abandoned those two women to linger in that perverse city. They became salt too. Imagine such a plentiful mineral on this earth being more valuable than human life. Had ten righteous men existed between those two cities -- not corrupt lenders and those bent on predatory assault -- the cities God would have spared.

Mexico is a toilet whose sewer drains into Texas. Texas shits in the gulf. Its revenge on Mexico. Defrauder of the poor: do you want heavenly fire to convert your abode to lugubriousness? Fire out of heaven comes from vessels. The true God has armed forces the earth over. Be the one to join forces America. Do not let Satan smoke you.
