

"Jehovah's" Days are Numbered

October 29, 2019

Take your abominable references out of print and off the internet that define the god of your organisation as true God.

The Request

Take your abominable references out of print and off the internet that define the god of your organization as true God. All entities referencing the true God -- and His other titles -- in their organization materials must cease and desist such use. Remove from your internet assets all use, both in visible print and all coded text, as well as recall from sale and distribution all printed materials by October 31, 2019, 8:00 AM Eastern, U.S. that use the true God's titles. The true God -- or God -- is the God who freed Israel, decimated Canaan, and sent the Christ.

The true God has two witnesses and a powerful ability to defend His name and titles. All titles that belong to the true God are, God, God of Israel, God of Jesus, Almighty, and true God. He is defending them. Any entity not belonging to the true God may not use those titles without consequence. You will know for a certainty you do not have affiliation with the true God because you will live the consequence. This means your share is with Satan.

Not A Fatal Error

Like every human being on this earth, salvation from the true God's day of wrath can be yours. Education now exists to free you from Satan's deception. All your print materials that steal the true God's title will sit collecting dust like idols until they are gathered into waste recycling sites and disposed of. The true God has two witnesses. One is writing God's domain on the web. The other will return to earth during Christ's Kingdom.

The Consequence

Strike the use of the title, the true God, and the other listed titles, from all Internet and print materials by the above deadline. On October 31, 2019, 8:01 AM Eastern U.S. every organism from simple lichen, and winged creature, to quadruped will be devouring, pulverising, beating, and shredding the organization namesakes from all your organization signage in every place it stands. The above is your penalty unless you complete the task of rebranding across the internet and print materials -- recalled from sale or distribution -- by October 31, 2019, 8:00 AM Eastern, U.S.

What organisms do not destroy, wind, rain, ice, sand, dust, and lightning will eliminate. Using the true God's titles requires teaching the truth about who He is, who the Christ was and is, and what will happen to Satan. It also means zero tolerance for fornication in any form. (That is the short list). Only one domain in this world is doing all that www.macdukes.com.

This is your wake-up call. The entire world is going to learn; the true God hates the name "Jehovah." It will also learn who is peddling death with His titles. Your ignorance is not a defence from consequence. This consequence and others to come will save your life from the cruelty of partial truths Satan has blinded you with if you are humble.

The true God is defending His title. When He reveals His name, you will understand at great expense not to touch it. Wiping out your Satanism from the true God's titles on your Satanic Halloween, Proverbial.
