

Death Rides A Chicken

September 9, 2019

One thing is for certain, skeletons are cartoons. No one should grasp that death happened before the flesh was eaten off the bones.

Atop a feisty walloping bantam rooster sits a kamikaze skeleton poised with a lance in a crazed charge against the ordinary. Ah. So, the message from this vendor is, death is an ordinary, expected event, of happy chicken shit. (God says, "Who doesn't enjoy laughing at a commercial semi-tailgate's entertainment? Like when Mater made faces in a mirrored liquid tanker while tailgating. That's funny, right there.") One thing is for certain, skeletons are cartoons. No one should grasp that death happened before the flesh was eaten off the bones. Why?

Occult architect, Satan, has made death; funny, cute, and humorous. Like the dragon. This is a stark contrast to what Satan's false religion teaches. One boasts you will live forever and never die. Others say, you will live forever because your soul never dies. It will live in one of two realms forever. The true God made it clear that eating from the tree that imparted knowledge of badness would come with a death sentence. That sadly faces us.

We Work Our Way into the Book of Life

What we do get, is an opportunity to demonstrate how much we will love the true God in His Kingdom while living without the influence of Satan and her demons in Christ's Kingdom* growing to perfection, restoring the earth. Work? Yep. We get work. Remind you of what Israel did? But we have no warriors destroying Ba-al worshipers and national groups. During Christ's Kingdom, our swords are ploughshares and our spears pruning shears. We are fighting against sin growing to accurate knowledge of our heavenly parents, living their rewards, with a healthier stronger longer life. A reversal of what happened with Adam and Eve.

The soul born in sin dies. And that is a period. Thank king Solomon for stating it so plainly hundreds of years after the true God demonstrated it in Eden. Eternal life happens from living in the kingdom of the Christ perfect, serving God in the presence of sin. God preserves us in His

living memory for resurrection in His Kingdom. Jesus died a perfect being paying the redemption price for all humanity. Christ never failed to do the true God's will and neither sinned nor was born in sin. For these the Christ should have never seen death.

The Four Horsemen Mean Much Here

In Christ's *Revelation* to John, Death with Hell, war -- the one that takes away peace -- inequity -- that gets charged with a commandment -- and the heavenly enthroned Christ were riding simultaneously over the earth. All but the Christ are contributors to the turmoil, disease, famine and causes of death not attributed to old age and accident or recklessness. The Christ is riding against these forces. At the beginning of Christ's Kingdom, He extinguishes the horsemen's exogenous causes of death. During the seven weeks humanity is lead by God in warfare against the kingpins and devotees against Christ's Kingdom. There will still be individuals that die in Christ's Kingdom. Why have Christ's Kingdom? It restores the earth and humanity sooner while the true God is still bound by the laws written in His Sabbath saving humanity from Satan sooner.

Sin, however, remains. Even with Satan bound, we die from sin's influence. All the causes of death are not done away with. Sin is in our blood. Our life span will be increased in Christ's Kingdom. Our longevity will be a function of how well we serve the true God. Not until entering the true God's Kingdom will humanity have eternity.

July 7, 2023

*What Ba-al worshipers, antichrist's people, did is achieve what even those of Sodom and Gomorrah had yet to achieve. They actually made Satan's word, you would not die true. So, you will feel hell as a conscious being of energy. Your genetics is recycled. This has nothing to do with mac's Kingship over the earth when Satan hold's Heaven which is the times mac focused on in writing this article. The commercial was for a booze product. So it's obvious there was Truth in advertising.
