

Get Off Your Donkey

August 13, 2019

To advertise is to perpetually play the fool. Assumptions about the reader based on demographic insight are distributed across media for every consumer.

In a local shop window are four tin-wall-posting signs. Each sign is a contemporary message. Each has a vintage ad campaign illustration; or made to look that way.

Advertising is not a bastion of Proverbs. On second thought, a fool speaks all his mind and a wise man holds his speech till after an affair. To advertise is to perpetually play the fool. Assumptions about the reader based on demographic insight are distributed across media for

every consumer. Vintage advertising often features demoralising the consumer with sexism. A wise person would not accuse his consumer. A fool's way very often wins campaigns today.

Wine and strong drink are not intended for kings or princes. When drunk they forget the law and pervert justice. Strong drink is intended for those ready to die and wine for those heavy of heart. If it can be a moderate enjoyment, so be it. Enjoy. Excess is the pathway to folly. Try this, before reaching for a mind adjusting beverage say a prayer to the true God about your day and desire for a beverage after announcing your intention to drink, use How to Get God to Talk to You don't forget to close your prayer in "Jesus name."

Obedience the Seal of A Good Woman

The ways of wisdom are pleasantness with a peaceful pathway. Wisdom, in being pleasant, understands when to enjoy the opinion of her Lord. The woman defending her rightness has lost peace. To be pleasant and promote peace requires making a commitment to leadership and being obedient.

In the early nineties mac's privilege was to work for a former SEAL who served in Korea and Vietnam. He kept his service personal. He simply let her know on day one she was to keep the office "afloat." She stayed on top of revenues and law. They had an understanding, if he walked in announcing, "The sky is green," mac said, "So it is sire. Who of the town subjects needs this message today?" Ridiculous? The only better boss, the true God. Obedience gets a woman the best gigs.

The way of righteousness is life: and in the pathway thereof there is no death.

Proverbs 12:28

The way of the true God is life. He will never die. Those that walk in His path will live in His memory for a resurrection to eternal life. Let us watch out how we are walking. His way is a path. A path requires travel. Travel means movement. Movement means progress. Progress means knowing when to get off our donkey and do according to the righteous way. (Yes, God Says, "Ass is better than Donkey.")

Time in A Genie

August 15, 2019

Only a pagan god released from a bottle is reckless enough to interpret the true God's calendar on man's secular calendar. If you are a man, salvation can be yours. Stop patronising the house of demons by examining the end of days, then assuming them on man's calendars.

Only a pagan god released from a bottle is reckless enough to interpret the true God's calendar on man's secular calendar. If you are a man, salvation can be yours. Stop patronising the house of demons by examining the end of days, then marking them on modern calendars. Reading numbers in scripture and using those to predict dates is Satan's trap for the arrogant. Formulas for predicting biblical times are a fallacy.

689,472 Years Between Calendar Duplications

The Israelites means of tracking time commenced from the moment they left Egypt. It was on a lunar day basis. Each day commencing at evening monitoring moonrise. Each new month, day one, was noted with its moon event. The repetition of this calendar is 689,472 years*. There is indeed an object lesson here; no two days were ever to be alike between years. The cycle of repetition is incalculable in man's puny lifetime. The puny lifetime is Satan's gift.

The marking of days happened by observation. What is the object lesson? One day to the next marking moon rise on the horizon, the moon rise is not an identical event between any two places on the earth. This is because of the earth's natural gyration on its orbital axis. If the true God had wanted a precise marking of time the Israelites would have had it. Time has always been the true God's dimension.

Why give the Israelites a lunar day marker? Women follow a lunar cycle for menses, shedding of the uterine lining of thickened blood. Blood is sin. The Israelites God reminded with the moon
