

Glut, Glut, Glut A Name of False Religion

July 7, 2019 (May 18, 2020 revised)

Triplicated gluttony marks a seven headed beast of Revelation. Six being the excess, glut, fingers of a giant, Goliath. The beast comes out of the sea. Gluttire (Latin), to swallow. To swallow; completely use up, take in and cause to disappear, or believe unquestioningly (google).

Seven seas, heads, mapped before John's day. Represented in the seven heads, all of humankind races, nations, groups, languages, and genders.

The Mother that Invented Fornication

The religion of Satan, f@#k it! Satan, the mother of fornication. The "f@#k it!" society of gluttons abuse our earth. We swallow down the precious resources of our earth. The ecology of gluttony we have embraced, regardless of our aversion to profanity, will not last. The true God's Kingdom is the only solution and promise for our future. Align with our creator the true God against fornication. The produce of fornication is gluttony. Satan created this "f@#k you" world.

Governments of this world who give voice to peoples aching and fighting to save earth are a good shepherd. Satan wants you to swallow the lie God is destroying government. With Satan's death fornication, and being forced to swallow, dies. Governments, you are getting help. The Fine Shepherd is calling His sheep from the seven seas and leading them to escape all fornication over time, times, and half-a-time.

The Beast Gets its Power

The dragon, Satan the devil, gave the beast its power. Gluttony is worshiping the beast. If you are not worshiping the true God, reconsider. He is a Fine Shepherd and teaches every conceived

being, how to live in righteousness. You worship the true God when you follow his shepherding. False religion permits fornication. Make no mistake, the true God does not. He knows that fornication has permeated our humanity. Marriage is a provision forming one flesh relationships that bless sexual relations between the married parties. If you are not married pray for the true God's help to remain celibate till matrimony and to help you find a good mate.

That Lamb Beast is in New York

The Watchtower Bible and Tract Society arrives on the world scene from Satan dressed as a lamb. Every one of its words are spoken by the dragon. It preaches "peace" while prophesying Satan's world war to destroy civilisation. It promotes rebellion against the true God's Kingdom by teaching the profound lie that the true God's kingdom follows Christ's kingdom. Satan is released from the abyss after Christ's kingdom ends. It is her second reign on the earth. That is the kingdom Jehovah's Witnesses announce.

In "Jehovah's" kingdom, Satan stirs individuals that refuse to worship the true God into battle against one another. She rebuilds the false religious engine that is ignored when Jerusalem is rebuilt on earth under Christ's reign. Sadly, some people will choose death even when Satan is not influencing them. False religion, namely Protestantism (the parent of the Jesse James religion, Jehovah's Witnesses) lingers until Christ's kingdom. It is a by-product of sin's existence and humankind's knowledge of perversion.

Fire came down out of the heavens from a shower of artillery. Satan used a world war she stirred up to sponsor her religion as the true prophet of god. The Jehovah's Witnesses rank with with Satanic diviners and Muhammad as a false prophet.

Conflict is Ending

In the wake of two World Wars, a peace time of consumption, the corporations made wealthy from the spoils of war consume every resource of the earth. Make no mistake, government is not the beast. Gluttonous consumption is the clue here. Beast, global conglomerates, you have been pegged. The mortal wound that heals has nothing to do with the stock market crash. Disease from the perversions inflicted by the kings of Sodom of our day (God asks, "Did you feel that China?") is wounding consumerism.

Gluttony is feverishly fed by lobbyists, military spending, and manipulated consumers buying brands with religious zeal and worse blindly buying with distorted senses online. Beast worship

is consumerism to the point of gluttony. It destroys the earth. Satan, the architect of false religion, is free to empower idolatry through corrupted hearts that feel "truth". The beast survives long enough to saturate the earth and not long enough to kill humanity or destroy the earth.

Satan is the creator of conflict. The God of Jesus would never fashion a useless slaughter of humankind to insight faith in His coming Kingdom. Christ reigns after legal governments sign with the true God to include their jurisdiction in Christ's kingdom. mac Dukes is the true God's prophet and signatory on earth.
