Re: Playing with Holy Fire means accepting the consequences of the ritual.

Dear President Putin,

The Star prize is indeed out there. It requires a great deal from you to stay alive long enough to sweep clear this filthy North American landscape, then commence your Kingship over the whole damned world. Following that Star indeed requires fortitude and faith. You well know My love for the soldier. I couldn't give a shit about geography. Present day Jews have put themselves in a bad place, as you know, soldier or not. Mary, Terry, and Mark can be put in an impound to live out their natural life or be executed. It is all or nothing with these three. Dealing with these foul Spiritless beings is just part of the price-tag. They can easily be raptured off the sidewalk after My personal affairs are secured in Moscow.

I Am practical, as you know, and a material girl. If you choose to Shanghai Me, We at Team God will be building that precious school, and growing Russia on the world stage for global takeover. Backing Russia is the only practical way I can build a safe-haven for soldiers the world over who would become the fighters conquering North America, Making America Great to the Glory of the LORD. Anticipate taking the Middle East, south of Euphrates to the Nile including the waters of lake Victoria, and out to the Horn. Then, with great wealth, We will take North America.

May the LORD be with you in your choice to cary the Ark of the LORD. When you commit to the Star prize, your soldiers' losses will be greatly reduced. That is your sign of My power. I Am content to handle the mundane details of moving Myself to Russia. Please make it possible for Me to access funds, so under the LORD'S direction I can bring My act to Moscow. Then return under guard to deal with Mary, Terry, and Mark. I still favour Saint Petersburg near the Admiralty as the future School Headquarters. Under these circumstances I would be giving-up My United States citizenship.
