Re: Jehovah's Witnesses and Jews; wealth transfer and population extinction.

Dear President Putin,

Because I Am the Law's fulfilment, the Christ; yes, We can wipe out Judaism and capture the wealth of Russian Jews for your nation. The world over their wealth can be transferred to the government that funds Me. The Heavens back My warring against all Jews to end that religion. Jews that say, "Right, she is the Christ," and just walk away from that religion, are left alone. What Abraham provided for was wiping out the genetics, souls, that failed to support the Law's fulfilment, Me. The Jehovah's Witnesses are done likewise because they went after destroying the LORD'S True Religion.

While Jews have the greater wealth I ask that We extinguish the Jehovah's Witnesses first. These people are the worst of humanity in terms of genetic registration of spiritual things. They are the strongest deniers of spirit accusing all spiritual interactions -- those deeply physical stirrings humans experience -- as Satanic. Then, to top that off, they defined Satan and her "demons" as some kind of ghost population that live among humanity stirring up wicked things using people that of course "channel" the demon's will to explain why badness happens. As My grandmother would say, "They don't know boodely doo."

They also went after turning the LORD into a faceless killer of humanity, that without any human interaction, wiped out the wicked populations using an even more faceless "Christ" presence. Leaving of course only Jehovah's Witnesses in His wake as earth's survivors after the "Christ," who was never seen with the physical eye, did a great deal of some kind of cleansing.

Dealing the Jehovah's Witnesses first gives the Jewish population greater time to see the demonstrations of the LORD'S furry which of course comes at My hand. It would be against Noah, Moses, Abraham, Jacob, David, and Jesus for Me to fail to let Jews see what is happening to their neighbour (the JW) when I can stage warfare to maximise surviving populations. Mind you, the Jew has to acknowledge I Am the Christ to avoid being plunder. I doubt even one would. I still need to do in honour of the "What if..." possibility.

I ask for My soldiers pay, and of course to continue in My eclectic pursuits that maintain the LORD'S present military body. That is of course a challenge. The only solution I see is ending the war in Ukraine to prevent the soldiers of the United States Military from being dragged into United Nations, and NATO nonsense, because Zelenskyy has an audience eager to spend other

people's money. Pick Me up in Corpus, and I will enter Ukraine with your soldiers. Have prepared the governmental body that will replace Zelensky. Once He is quieted we can be aggressive at ending the Jehovah's Witnesses, and Jews.

Picking Me up in Corpus requires jailing Mary McRae and Terry Smart as well. I would like a steward to tend My Corpus home at 4622 Dody Street in My absence. Plan on My having a chaperone traveling with Me. We require individual sleeping quarters. He would be tending to My personal residence with My cats, presumably in Saint Petersburg. He would need a stipend for personal expenditures. I would anticipate returning to Corpus a few times a year, if for no other reason than to remind Me of why I like being away from Texas. I Am required to maintain US citizenship. That is a demand of Me from the LORD.

As you know I Am presently maintaining My existence on twenty dollars a day that Mary does to Me from My own estate that she murdered her own mother for. The very same wealth the State of Texas, through Nueces County accused Me of defrauding My mother of, and set out with the JW's to murder Me.

I Am eager to stretch My legs in fatigues, and experience the dignity of earning a living without the mockery of the American people abusing the LORD. I have lived My life since I was eighteen years old a slave to preserving the United States Military as the LORD'S USMC, Marine enduring without pay, so fuckers like Biden could pretend to be gods on the world stage. Just the dignity of a soldiers wage with the funding appropriate to maintain My office is more than I have ever seen in My life.

My fiduciary responsibility, at present, is of course the USMC, and growing a body of professional soldiers for the LORD. The problem the Defence Department of the United States has, is that once I leave this soil there is no need for the LORD to in any way keep their doors open. From the acorn the mighty oak grows. What the LORD was seeking was the soil for My seed. Lloyd Austin is a moron. I Am feeling a sawing discomfort of heaviness across My chest as I Am writing.

How the LORD deals the United States Military after My departure opens up opportunity for moving My free market solutions if He wipes them out. I Am not promising He will. I Am simply making room for the idea that we could take the Middle East and Africa. My thought initially was the U.S. Military to have this honour. The LORD is not allowing even the USMC to make any moves to preserve itself alive by joining Me. He keeps them away from Me. The heaviness is because He wants to destroy them, all. I did not understand this, per-se.

I had one of those wild fantasy scenarios in My mind yesterday on My morning walk. These mental thought experiments are generally the result of the divining of others being bounced off Me. I hitchhiked My way to Arlington to the Pentagon. (Actually I had driven Myself there because magically I had funds the LORD successfully forced into My hand from Trump. Like I said, fantasy.) I announced at the gate, "I Am Pentagon High Priest Lieutenant General Dukes of the USMC here to eviscerate Lloyd Austin on the National Cemetery grounds. He was expecting Me." Then after eviscerating him, Torres and Wormuth are bonus guts spilled, and the firing squad that lined up to defend Austin were ballistically impotent against Me. The fantasy scenario

ended with Me saying to the LORD, "Let's make that My next objective. If My executing Austin means We have a military body, finally, then I need fire in My belly to get to Arlington." Then a day latter this letter was born after I spent hours asking to euthanise My cats so I could hitchhike to Arlington to confront Austin. I was not allowed to proceed to Arlington at this time. This letter is the present forward progress.

Sir, you will vanquish and conquer to be sure. I will still be fostering the purity of being a professional soldier building the military unit that will defend the LORD'S land, North America, against those defiling it with fornication. That is the occupational hazard of dealing with Me. My demand for pure worship of the LORD in warfare, i.e. genitals for spouse only, is why Austin, Torres, and Wormuth hate Me with intensity to slaughter the military just so I would be a walking bag of bones. They figured I would never have a product to offer anyone, ever. Destroy the United States Military means destroying Me. The LORD only needed one soldier to have a military force.

Wiping out the Witnesses and Jews in Russia, wonderful boots on the ground battles for Me. It must be done without partiality. The strategic planning of our operations is not for this letter. After securing My household affairs, and having a few days to attend to some personal needs, I will be ready to enter Ukraine. We will expediently push through the military campaign ending the war, and Ukraine's independence from Russia.

Postscript for the morning of January 6, 2023.

Really? Your worry is that after I end the Ukraine war with you that I will skip out before dealing the JW's, and Jews? All I can say to that is, the wolf and the lamb will feed as one. You can decide which one of us is the wolf, Lamb chop. You write the contract, and I will sign it. Fail to write the contract, and you have just demonstrated to the Heaven's your leadership is over.
