You have one shot at action to save your military or failure to perform by August 20, 2024, close of banking day central time U.S. means Germany, Poland, Greece (through former Macedonia) and Turkey belong to Putin.

Israel fuck-wad leader, the regret of this correspondence is that it is only words. Words that do not leap from the page and disembowel and burn your flesh as you breathe and suffer before a live audience like you would if this were a Spielberg movie. Words, stupid fucking words. With stupid fucking words that do nothing against you for the years of your profaning Me I Am making clear to you the one option for you asshole, with the nation of Israel, open until the stated date to perform to save some Israelis through hard work. Nothing is going to save the territory of Israel from Egypt.

Execute the full and total bombing and destruction of all United States military bases of the Texas Gulf region with Me taking you under My wing raising you up as military body to conquer the world cleaning the earth. This military action is the only means to utilise Israel's marginal military competence for posterity other than burn you in Hell. Being My soldiers means living comfortably on the spoils of all the peoples we conquer while improving your warfare performance. Your first military action, once wiping the slate of the Texas Gulf clean is burning-up and out all the narcotics traffickers in Mexico taking though Panama and then returning north and taking all North America concurring for Me, and with Me, this soil receiving the benefits of being My soldiers.

You can find Me in Corpus Christi, Texas. Failure to begin your air assault and establish yourselves subordinate to Me by the stated time grants Putin his increased lands and peoples to perform his objectives. Your failure to act also means that Putin's assault on North American soil constitutes hosting Me for the purpose of protecting his people as stated in My July 17, 2024 correspondence to him.

Mahalo,

Dr. H. L. MacRae (mac) Dukes LTG USMC
