Governing Body of Jehovah's Witnesses chief legal council
100 Watchtower Drive

You have until August 20, 2024, to place in Mary McRae's hands \$2,195,000.00 (US) cash or come August 21, 2024, across the globe, sans North America, the Jehovah's Witnesses will finally face the savage abuses they are due for turning the LORD into a Ba'al. Jehovah's rage against you burns.

Sirs, from the extended United Kingdom, Europe, Africa, Asia, the Middle East, South America, and all island habitations the earth over your people will be savagely attacked, plundered, your kingdom halls and assembly halls burned, and your people are going to die in unprecedented numbers. Jehovah is destroying you unless you pay the total stipulated sum by the stated day.

On North American soil the Divine destruction you are due will either be performed under My hand or December 26, 2024, Heaven targets the places your people work, assemble, gather, shop, attend school, and see to your medical needs, with destructive force that will make even people living in California, Florida, and Texas take notice of how all Jehovah's Witnesses and your sympathisers such as employers, customers, teachers, physicians, and literature accepting associates of any kind are being sent to Hell by Heaven.

Why the delay you ask? Well, the international abuses that you suffer as a religious organisation and suffered by those that sympathise with you include mob violence, torture, incarceration, starvation, slaughter in the way and means that demonstrates to all persons receiving any form of remuneration from United States Defence Department appropriated funds, that My striking against you, saving Heaven from doing it directly, will save the populous of North America from going to Hell. In other words, to save the North American populous from going to Hell, I must have total military authority executing you all with My own hands. Heaven is proving to all involved American parties, military personnel, that they as people decided they would rather go to Hell than do the global job the United States Military is required to do in order to have Heavenly authority to exist as a military body. They are to be mine under law or they are not allowed to be. They must support My kingship annihilating you first or all North America's populous go to Hell.

You people are responsible for condemning the populous of North America to burn with rape and torture in Hell. Paying mumsy the sum stipulated protects non-North Americans from enduring the onslaught against them. In North America come Christmas your destruction begins from Heaven unless I Am contracted to perform your destruction no later than Christmas day. When you fail to pay, and American servicemen see how you are so pointedly targeted commencing the day stated, then they have further reason to put some faith in Me. I Am relentlessly pulling out the stops to get those Pentagon keys to prove with them what genuine Christian warriors accomplish, cleaning the earth, and building a prosperous remnant, now, as opposed to what I can imagine is waiting indefinitely through some years long processes if I need to get a military body from some other people than My own countrymen. Because, how can a military in America exist and not salivate to be My Christian warriors? From My soul I can't imagine why these people are such horrid monsters to Me. Really. I Am their salvation, and I know that from My Being. So I keep pushing for more opportunities for them to be saved. This is the last dance, as it were. Christmas Day 2024 ends all efforts Heaven has extended to Me to raise up Christians from the American military that owes Me everything. That you JW's hate Me or that CCPD is after murdering Me, big deal. Water under the bridge of My life. The military to Me is a lover, a passionate one who owes Me everything. I love them.

I want War! I Am going to have My military glory even without the cooperation of the American people. I can make God Almighty do anything I want. I don't get him to do nothing unless I receive, money, money, money, glory, money, money, did I say money? money. How do I get money and glory? War and wages. When the Gulf coast is a ghost town wasteland I will not be humiliated with poverty and torture at the hands of Presidents of the United States, in their turn, pandering to Mary Anne McRae's divinations keeping Me has her personal Sambo. That the marine corps has no faith that paying Me My wages gives all soldiers that die relief in Hell replacing the torturous burn with rape and torture with orgasm, is on them. It is not against Me that they are faithless.

The acting Secretary of Defence has until December 25, 2024, to begin serving Me turning over to Me all elements of military authority with Congressional and Presidential consent. Jehovah wants to destroy you. God Almighty wants to destroy them. No entity, human, animal, nor Spirit is destroying Me. November 18, 1988, your Governing Body gave up, in perpetuity, all opportunity for Jehovah's Witnesses to build Jehovah's kingdom. I won that contract. I Am a marine. I Am not preventing God Almighty from delivering Me from the horror that the slavery of My life has been by any means of deliverance He can produce.

It would be neat if during the Sunday church services across America God Almighty interrupted the service with a message through the thunder saying, "You need to hire mac Dukes to kill the Jehovah's Witnesses in North America or you are going to Hell." The question becomes, would they do it? The frustration I face is how much authority has been handed over to fuckers like Trump. And God Almighty is paying Trump what Trump is due. So, even though it makes things difficult for Me, I endure being powerless. Trump, Obama, and el Presedente Mexicano are responsible for what North American's believe. You Jehovah's Witnesses were supposed to fulfil Jehovah's kingdom for Satan. I had to save Satan's bacon. As in, to date and until Christmas, there is no direct God Almighty interference. Come the day after Christmas, God Almighty, the LORD, and Saint Paul, pull out the stops to make Me the king over the whole earth. Even if that means I Am earth's-only inhabitant, for a time. They interfere to produce for Me the Kingship that glorifies Me. What is more, Team God does not want one North American to benefit from My labours. He favours Russians that land in Mexico to take all the white gold for Putin. God Almighty wants to bring Me My military and He hates the North American populous.

We, at Team God, can interrupt fulfilling Jehovah's kingdom to wipe the earth down to a sensible population, and then when the earth repopulates, enough, and in the right regions, and, I have lectured Pentagon surveillance about this already, all the interactions with people that do the Jehovah's kingdom fulfilling can be done then. It just would not include you. You would be burning in Hell while being raped and tortured. When mumsy, Mary Anne McRae, dies, Hell gets its fire and the rape and torture cycles for those that died since August 21, 2021 begin.

Other letters written over the last month have further explanatory content of Hell as well as what will be happening on the world stage between and in nations. We conclude this letter with, "Jehovah God is My shepherd, so why should I fear or fret. For he who cares for his sheep so much will none of his own forget. By quiet waters he leads Me. I'll walk and not err in his way. He guides My steps for his own name sake, in pathways of righteousness."

Mahalo,

Dr. H. L. MacRae (mac) Dukes LTG USMC
