Governing Body of Jehovah's Witnesses chief legal council
100 Watchtower Drive
Patterson, NY 12563-9204

You have until October 31, 2024, noon, to hand Me, Dr. H.L. MacRae Dukes LtG USMC \$2,195,000.00 (US) cash or come sundown October 31, 2024, across North America, the Jehovah's Witnesses will be the open license religion of North America with Jehovah the defacto secret weapon of deliverance into Hell. Pay and Donald J. Trump gets this.

North America's populous, even in mass, will be glomming onto the value added to their life infringing on the Jehovah's Witnesses lifestyle. You people are not sheep and the world is not full of goats.

The United States Military is charged with performing the execution of your governing body of twelve by October 31, 2024, to save North America's populous from going to Hell. If your governing body has not been executed by then, I will extend to Congress -- in a letter to the House Speaker -- that under My hand up until Christmas Day 2024 I will perform that execution. Should they refuse My terms, all of North America's populous heads to Hell as stipulated in previous briefs. No, your people are not stewards over Hell. England can buy that for themselves, purchasable from Me. That is a matter for another correspondence. It certainly will not be addressed to you. I have left that matter open to King Charles

Mahalo,

Dr. H. L. MacRae (mac) Dukes LTG USMC
