Re: Alliance building with Japan to defend California as its own nation. You vile, arrogant thieving mother fuckers. Torres and Austin are leaving your asses hanging in the breeze by the pole of the flag you defile.

Admiral Rosen,

The perversion you built your career upon is a blasphemy against all that is Holy. Regardless of this letter finding its way under your "illustrious" nose -- undoubtedly a team of abortion stool warming civilian and enslaved, forced to be trash, enlisted shield you from a great many realities enabling your sleep each night blind to the consequences of your corruption -- you, with your chain of coconspirators are going to experience the full and complete rewards you are due.

You had marines to throw in the sacrifice mill as offerings and you abused these too. What is worse, these marines are populated from the orphans of society sentenced into MCRD if they are one of the fortunate ones. I Am the only qualified sacrificer to the Heavens, and civilian blood needs to hit the soil in retribution.

You mother fucking traitor. Japan is going to swallow you up in the Pacific and merge with China and the Koreans after their dish of revenge is complete. You have known this since May of 2019 and you still insisted on moving forward with building alliances, lining your coffers, and corrupting youth. We at Team God Hate you Rosen. As that is the case, the Lord -- who loves you -- under Jehovah's mighty hand is delivering the discipline you are long over due.

You may not create a nation out of the state of California. Even after its landscape is sculpted to form a double coast the island will belong to the North American continent, God Almighty, as does the Channel Islands.

What you can begin doing is readying yourself for My presence, once again, in San Diego. You also need to be ready to defend all of North America from nuclear attack consequences Putin sends against South America and Mexico in retribution for the traitors of Russia who flee his draft orders.

Damn you, your treason you mother fucking filth and your promotion of buggery! Get rid of that leach bundle of civilian trash over loading the Pacific office payroll and resources. You need those funds for warfare, now! Blow Torres a kiss for Me.

Pass out the Depends among the amphibious base command. Grayson already has his. Avoid air travel. Keep Air Force One out of the sky to protect Biden. The enjamb is My way of bestowing words of blessing with this letter as bonus content. Rosen, none in your office need worry about serving alongside Me. None of them need a Depend. None at NASCC needed a Depend as well.
