Subject: Gen Dukes reply.

In what way do you need help Katherine? I will petition the LORD, but understand Katherine, fornication gets you killed. I Am still stateside. I Am in Texas managing the shutdown of NAS-CCAD for treason. That they are incompetent in so many ways just makes the shutdown messy. Keeping peace is over. Learn to endure deadening your sexual members. That is longevity when luck from the Divine is all we have. I would make other suggestions but it is for Me to spit in Yahoo's face not you.

This message and our correspondence, if you choose to reply will be publicly posted. Being a female in military service means you must serve under a layer of decency and decorum that does not exist for males. Make sure your garments never advertise any cleavage top or bottom and do not under any circumstance put your hands on a male for anything other than a firm eye meeting handshake. Touchy "friendly" brushes are just rape invitations. Also, never wear your hair down outside of your personal quarters.

I have said on more than one occasion if there was someone I could threaten, even at gun point, for a combat duty assignment in Israel, I'd do it. Hegseth and Trump are the only two that can issue My change orders.

On sending, prayer over you will commence. Take every opportunity you can to improve your abilities academically.

Mahalo,

the Christ
