"It's ALIVE!"

This is a quick demand, Putin, you want knowledge, I want a change of venue.

February 14, 2025 I can share new information with the Kremlin first as your national prisoner of war -- I Am a romantic and you do have a hottie in special forces Heaven can gift wrap for Me. (Me for him once a few aesthetic needs are met.) Otherwise, I will share the explanation of our living Earth on My domain as you endure -- perhaps, experience is the better word -- your last days as a nation, Russia, a civilian entity, as your military command and mercenary forces with a few gung-ho state police tear the nation in three; thrust the world into a new order; and, of course, eliminate Zelenskyy. You have until February 14th to take Me as Russia's prisoner of war. Two other offers are also on the table for two others. My POW offer is the only way Russia's military is not fulfilled in the way I would deal with the world ruling them as mine on their antichrist ticket. Nothing saves Zelenskyy.

Trump has until close of banking day February 14, 2025 to put in My hands \$5,000,000.00 cash to prevent Heaven from revealing every deed Heaven has kept secret for Trump's qngmic cult.. This means the bodies of boys he has murdered will become justice department knowledge. What happens to Bill Gates for his murders, I do not know. Trump might escape prosecution because the nation has no conscience where Trump's dirty hands are concerned.

For the Pentagon to avoid being dragged down into disintegration as a military over its alliance with Israel; Hegseth has till February 14, 2025 to honour Me and every demand I make to keep My ministry going from the Pentagon, in person, taking over the entire halo as My open access office domain. They need to provide Me a yacht in the marina and some other fun stuff -- you get the idea. Jo Bass gets fired -- a dishonourable with some other ugly fat female sluts in fatigues. That Coast Guard thing is a sicko.

You got the best deal in this "Little Devil." You know I love you. Of course, I define what love is. I still only need to move about 100 Uhaul book boxes to clear out of Dody Street. Nothing saves Corpus Christi, Texas, from slaughter and Mexicano takeover. And only in the way I demanded in this letter can I be moved from Dody Street. You, Hegseth, or Trump's hush money money payment by February 14, 2025, first come, first served is what holds back Heaven's unleashing the gates of fulfilment. I wish I could force you Putin. It would preserve a larger body of people and I know I would love watching parades in Saint Petersburg and patriotic fireworks on the Baltic. Nothing saves the Koreans, Vietnamese, Cambodians, Indians, Pakistanis, Afghanis, Iraqis, or Israelis. Putin, you can expect to be tortured. Keep a capsule handy, and hope to God there is no need for Heaven to keep you alive to hear you say some inside the belly of the big fish Jonah'esque prayers. If those words forced you to act, I will pay the debt to the firmament and Heaven.

Mahalo,

the Christ
