All in the Family

Putin have you ever put your self through a Fawlty Towers binge? I don't expect an answer. Few would admit to doing that unless they were British, males, and drinking beer to make admission easier. Nothing about the achievements of your life indicate you needed to indulge in such stupidity, even to learn English. I would use familiar reruns of television shows I have memorised to rapidly increase conversing in Russian. Television is indeed useful company. Fawlty Towers was the creative endeavour of John Cleese and Connie Booth. The show was aired in the seventies. At typical episode opening some clown performed a running joke of altering the Torquay hotel's pegged letters F-a-w-l-t-y T-o-w-e-r-s into Flowery Twats, Farty Towels, and other gibberish for scene openers. I have binged. (Those anagrams are from memory.) I have binged on the Bible as well. I Am still milking information from the Biblical accounts I used when I started My ministry. I would need to be stroked, not sexually, to be capable of some sobriquet dedicated to presidential sycophancy. His Royal Highness is due his royal highness-ness honours as a king is better than a president. Britain has plenty on their plate under My war chest bound on kingship by the Church of England's establishment. The problem between the two of us, Putin, is that in many respects I Am mommy to you. Son, flattery I do not have to give you. God Almighty wanted Me to mimic that running gag out of your name and title to open this letter. To make God Almighty happy, P-r-e-s-i-d-e-n-t P-u-t-i-n: Penis Pridenutt [I Am now glad I can remember only two of the Fawlty Towers anagrams. Producing two of these was time consuming enough.] Peter Pistundin.

Putin, after producing two phallic jokes I shall now pontificate about America for a few paragraphs. This was My original letter opener: A married female is under the law of her husband. God said so. If her husband says, "I don't want you wearing pants or working outside the home," that is her law. When the Constitution of the United States equated a female to a male with suffrage the Ggods didn't have a leg to stand on to enforce a husband's being the law for his wife. A married male counting as two votes and a female zero would have been a constitutional amendment I might have considered in lieu of women get a vote. American history books have been clear to point out that competing interests wanted to appeal to women sensitive issues expanding a candidates election platform dividing the herd with the heart increasing votes. Once the law infringed on headship thinking and deeds evolved for success based how the Ggods were making the Allness happen with humanity. Fidelity has always been a touchy subject.

I have ranted about zero fornication for five years now, so in this letter, while I Am not backtracking on that importance for warfare, you are being given a freebee. Think of zero fornication that I fought for as My selfish demand of the Ggods. "You are giving Me this assholes (Ggods). I Am going to have a perfect D(d)ick for Me and Me alone executing all others." It is a win win for achieving perfection. That rounds out My fidelity demands making clear, outside of a couple of hotties I have seen, every other male in existence I would execute so breeding could not happen. If, indeed, the criteria was for Me to breed with that vile D(d)ick. If Heaven, the Ggods, had to make Me an Adam, I was getting a perfect one. The shit males of this earth inspire a fury of rage at the thought of My being touched by them sexually. And for those two hotties I have seen I can say, perhaps -- but matrimony first. You have an escape Hell freebee for your soldiers, Putin. I elucidate.

America's military had for itself the Angels of Heaven to battle alongside them including aiding in navigation, submarine and mine location -- the works. U.S. Military command did a shit ton of extortion through rape to get this. And then, in bowdlerized terms, told Heaven to, "Shove it." The military weren't doing the work America was destined, built-up, to do, to save the earth (with Heaven) -- and even some people -- even after abusing Heaven's desperate need for them to do so. Putin all you did was make claims you would rule the world and use guns to do it. Big deal.

America has had the privilege of being the world's consumerism fulfiller -- modern day manna boxed-up to the rest of the world complicating desires. While threshing this grain (manna) the bull (America) was clearly not muzzled in that they were consuming about half-again as much as everyone else. The UN has been keeping great stats on all the states. Even the CIA fact book tattles. In the days of yore the Philistines had it good. They had managed to drag the Angels into their war campaigns and even bred Goliath with the same kind of Spirit tinkering that brought Egyptians' horses and cats, and Noah pigs and dogs. The clue on the Philistines is that they were able to take possession, steal, the Ark of the Covenant. I wrote about wrestling whole soldiers from Hell's gate. Here is what there is for Russia because of what Dagon's priest stored in Heaven, paying gold to Israel whilst returning the Ark, to aid these modern times.

To conquer North America, take this manna factory, it is done on the zero fornication ticket -- that requires My leadership -- or the invader, occupier, soldier is just cannon fodder who can make some rubble for Me to clean up, later. The great thing about this is that without Me you do not need to be worried about being fettered with excess morality. The Hail Mary is posted and ongoing. At this point, it's only apparent purpose as I see it is that it serves to reassure all the 'mos in fatigues they can keep being nasty and God will do nothing to stop them. A bullet will.

Because what America has done is so bad by comparison, Putin, all Russia needs to do to save its soldiers from Hell utterly and completely meaning whole soled is pick Me up as your POW.

America, to have the same thing is required to come to Me with a plan for how they will become a fornication free military, build a remnant populous, and honour My command under contract. After they have conformed their plan to My stringent criteria I sign articles. Other than that, from the Divine they are stuck with being the cannon fodder as stipulated, and they go to Hell.
